\*Manufacturer's Notice: All weights, measurements, specifications, equipment, models and prices subject to change without notice due to continual product improvements and availability of components. Production of all models subject to seasonal scheduling. Extreme Warrior RVs, LLC reserves the right to improve models without incorporating these changes in similar models produced at an earlier date. Consult your automobile dealer and your recreational vehicle dealer to assure the proper match between tow vehicle and trailer. Tow vehicle and recreational unit must be properly equalized for efficient product performance and safety. Before you purchase your recreational vehicle, carefully consider the number of people it will accommodate and it's end use. For winter travel below 25° F or summer travel 100° F or higher, consult your dealer for appropriate additional equipment to make your travel accommodations more comfortable. Manufacturer's load capacity restrictions and recommendations must be followed for safe and efficient product performance. All RV manufacturers are required to build to the national RVIA standard/code for recreational vehicles. If RVs are to be used for purposes other than recreational use, your RV dealer should be consulted for any additional appropriate equipment or accessories, such as storm windows or other types of upgrades.

## FLOOR PLANS

## THE NEW SUPERLITE

The Extreme Warrior SuperLite trailers - have your cake and eat it, too. These beauty's have the same unique quality and features found in our popular wide body trailers... except the weight. Our SuperLites range in weight from 5500 lbs dry to approximately 6900 lbs loaded to the hilt with available options.

What's the difference? We've made these trailers 6" narrower and a bit shorter to save on weight. Plus, we've

employed a few additional industry tricks we keep up our sleeves to help lighten the load. Don't fret about space though - we've managed to keep a guaranteed 12' or 15' full width of cargo space (depending on the model). True to our mission to constantly refine, improve and give strong attention to detail, we've also added a new stand in bedroom. We're constantly striving to produce trailers you're proud to own - and we're positive you'll love our new SuperLites.
