The Galley includes everything you need to prepare a feast: a 6 cu. foot refrigerator, three-burner stove, oven, microwave, large stainless steel sink, and high-rise faucet. There’s even wiggle room for your toes under the cabinets, thanks to handy toe kicks.

The Passenger Chair is designed for comfort, with reclining back and slide controls. Sit back with the footrest and you have a great spot to relax and enjoy the mid-coach TV.
The Fiesta 34B (shown in Cabernet interior décor with Windsor Birch cabinetry) is made for entertaining, with a large 32” LCD HDTV in the center of the coach.

The Overhead Galley Cabinetry has a stylish design, with satin nickel hardware and hidden hinges. The adjustable shelves are large enough for full-size plates and lined to protect your dishes in transit.
The Wardrobe is residential size, which means plenty of space for your clothes and shoes. Before you head out, check your look in the full-length mirrored doors. Watch your favorite show from your comfy bed with the optional 19" LCD HDTV.

The Bunk Beds (34B model only) provide a cozy place to sleep or hang out. Each bunkmate can have their own optional flip-down TV screen with inputs for portable DVD or video game players.

The Bedroom features a cushioy, queen-size innerspring mattress and overhead storage for books and more. Catch up on your reading by the adjustable lights and set your drink upon his/her nightstands.

Decorate with Ease.
Personalizing your Fiesta is a snap. Pick your favorite fabric palette, and then select your wood finish.

1. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motor home. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (CCC) cargo carrying capacity.

2. GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.

3. GCWR (Gross Combined Weight Rating) is the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may be different. Refer to Fleetwood and chassis manufacturer’s manuals for complete information.

4. Length measured from front bumper to rear bumper (excludes accessories).

5. Includes safety equipment and warnings.

6. Motor homes feature a body-width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.

7. Tank manufacturer’s listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.

---

* The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.

N/A = not available at time of printing.

* UVW and CCC are found on the cargo carrying capacity label in each RV.
