Spacious enough for the whole family. Because it’s called “camping” not “cramping.”
Jamboree provides enough space for your family to become closer.

Family togetherness is great – provided everyone isn’t tripping over each other. That’s why we designed Jamboree with a wide variety of floor plans. Each plan gives everyone enough room to sleep, eat and play Go Fish in comfort. The available slide-outs provide even more living area – perfect for prickly teenagers who always want more “space.” Each floor plan is furnished comfortably and decorated to feel like home, promoting those warm fuzzy feelings. Road trip!

THE DRIVER’S DASH puts the jam in your Jamboree with an AM/FM radio (satellite-ready Ford only) and CD player.
SAFETY FEATURES help protect your family. Jamboree includes a carbon monoxide detector, smoke detector, propane detector, fire extinguisher, and tethers for a child’s car seat.

FLEXSTEEL® FURNITURE it’s not only comfortable, it also carries a lifetime warranty on the frame.

JAMBOREE 31M shown with optional entertainment center in Pebble Beach interior decor with Windsor Birch cabinetry.
Enjoy the scenic – inside your Jamboree, that is. The rich wood cabinets with arched, raised panels and the deluxe sparkling faucet might give Mother Nature a run for her money. But inside this beautiful exterior, you’ll find Jamboree is built for functionality and chock-full of practical features.

**THE MONITOR PANEL** lets you keep an eye on your battery and tank levels, and remotely operate the generator and water pump.
SPACIOUS STORAGE holds plenty of full-size dinnerware. After all, you shouldn’t have to use salad plates for spaghetti.

THE POTS AND PANS DRAWER is so large, it can even hold your jumbo chili pot and other cookware too.

A FLIP-UP COUNTERTOP gives you more room when you need it, and folds down when you don’t. A sink cover provides even more countertop space. (Select models.)
The Jamboree GT. A step up that's all decked out.

When you move up to the Jamboree GT, you get even more space and more features; like more overhead storage, with pull-out baskets that make packing easier. Full basement storage so you can bring more gear. And enclosed holding tanks so you can camp all year long. Because the GT is not only a step up from Jamboree, it's a step up from other class C motor homes.
THE ENTERTAINMENT CENTER (optional) includes a 24" TV and DVD/VCR combo with 5.1 Dolby® theater sound system. Why tell ghost stories when you can watch them?

THE SOFA BED is covered with durable fabric that can handle family life. At night it makes into another comfy bed.

JAMBOREE GT 31W shown with optional entertainment center in Satin Steel interior decor with Windsor Birch cabinetry.
The Jamboree GT goes gourmet.

Everything’s a bit more tasteful in the GT. The fabrics are more luxurious, the refrigerator is 30% larger, and lots of nifty conveniences are included, such as fresh water filtration for the whole coach. Even the driver and passenger seats are covered in Ultraleather™ for comfort and beauty. (Because the pilot and co-pilot deserve something special, too.)

THE CONVECTION MICROWAVE cooks fast like a microwave, and bakes and broils like a convection oven.
THE DINETTE can seat four people next to a big picture window. (What a great spot to have dinner and watch the sunset.)

FULL EXTENSION DRAWERS slide out all the way so you can even store things in the very back of the drawer.

UNDER-THE-DINETTE STORAGE is the perfect place to store table linens and board games. You’ll be surprised with all the storage space.

THE ENTRY ASSIST HANDLE helps you enter and exit more easily, no matter how tall you are.

THE SNACK TRAY keeps snacks out of laps with a rimmed tray and two cup holders built into the sofa bed.
UNDER BED STORAGE is the perfect place for extra sheets and blankets – even that old sleeping bag you never have to use again (standard in some models).

STRETCH OUT ON THE QUEEN-SIZE BED with innerspring mattress (select models).

THE SHOWER feels so good and toasty after a day of fishing in an icy river. The water saver feature lets you dry camp longer (select models).

THE MEDICINE CABINET is large enough for your toiletries. With vanity lights and a big mirror, “camping hair” is a thing of the past.

THE DINETTE converts to another comfy bed for a tired camper. Just retrieve Teddy from the storage area underneath.

When a cozy bed awaits you, the stars seem to twinkle just a little brighter at night. The pleated shades block out the moonlight too.
THE CABOVER BED provides huge snoozing space instantly, thanks to the patented slider bunk. It folds easily away so nobody will bump their noggin.

WITH HANDY READING LIGHTS, THE QUEEN-SIZE BED is a great place to relax with a good book.

THE BATHROOM offers the conveniences of home, from the large sink and medicine cabinet down to the china toilet bowl.

HIS AND HERS WARDROBE STORAGE with mirrored doors, ends the space-sharing struggle by providing two closets (30U Model).

THE CABOVER BED provides huge snoozing space instantly, thanks to the patented slider bunk. It folds easily away so nobody will bump their noggin.
EXTERIOR FEATURES – JAMBOREE

**PASS-THROUGH STORAGE** holds fishing poles, water skis and other long items, and a bin to store ice for cold drinks (models 26Q and 29V).

**THE EXTERIOR SHOWER** can rinse the mud off waders and frog-catching kids. (Standard on Jamboree GT and Jamboree 31M & 31W, optional on other Jamboree models.)

**Drip Rail Moldings** channel water off the Jamboree at the front and rear, preventing those ugly streaks on the sidewalls.

**Tuff-Ply Roof** is UV resistant, durable, easy to clean, and doesn’t scratch like many competitors’ fiberglass or aluminum roofs.

**Tuff-Coat® Exterior Fiberglass Sidewalls** are Vacu-bonded® into a strong composite structure, unlike some competitors’ thin fiberglass laminate.

**Powder-Coated Steel Running Boards** are strong, sleek and stylish.

**Drain Rail Moldings** channel water off the Jamboree at the front and rear, preventing those ugly streaks on the sidewalls.

**Tuff-Ply Roof** is UV resistant, durable, easy to clean, and doesn’t scratch like many competitors’ fiberglass or aluminum roofs.

**The Exterior Shower** can rinse the mud off waders and frog-catching kids. (Standard on Jamboree GT and Jamboree 31M & 31W, optional on other Jamboree models.)

**Pass-Through Storage** holds fishing poles, water skis and other long items, and a bin to store ice for cold drinks (models 26Q and 29V).

**Two-Way Radios** (optional) let you hike, fish or socialize while keeping in contact. Includes 4 walkie-talkies and a charging station.

**The Fuel Fill** is located in the back, so you can pull into any pump at the filling station and refuel (select models).

**JAMBOREE shown in Pebble Beach.**
HEATED HOLDING TANKS help prevent winter freezing, and are positioned in the bottom center platform for balance.

ALCOA® ALUMINUM WHEELS let you roll in style, and reduce the un-sprung weight for a superior ride.

BASEMENT STORAGE features aluminum doors with struts and large paddle latches so you can open them with one hand to access all your travel gear.

EXTERIOR AWNING is standard on the GT and creates a ready-made “front porch” for you and Fido to relax in the shade.

ONE-PIECE FIBERGLASS FRONT CAP is aerodynamic and attractive.

WHY FLEETWOOD?

Passion
We’re truly passionate about the RV lifestyle. Fleetwood was founded by RV enthusiasts, and that tradition continues today.

Quality
There’s no cutting corners. Skilled craftsmen build every Fleetwood RV for maximum durability and longevity.

Service
Help is nearby. When you need an upgrade or repair, you’ll find facilities all across North America and more than 1,100 dealers ready to assist you.

Warranty
Breathe easier with RV Ownercare, one of the best warranties in the industry. See your Fleetwood dealer for details.

Trust
More people trust Fleetwood. After all, we’ve spent over 50 years perfecting RVs, earning the loyalty of generations of RVers.

BUILT BETTER FROM THE INSIDE OUT

1) FLEETWOOD’S TUFF-PLY ROOFING TECHNOLOGY is one of the most durable roofing materials on the market and also resists radiation by reflecting sunlight to reduce chalking. White roof material minimizes heat build-up, keeping the temperature cool and comfortable.

2) RELIABLE TuffPEX® PLUMBING runs throughout each vehicle creating a durable seal on all internal tubing. TuffPEX® tubing is easy to install, tough, will not crack if frozen, flexible and corrosion resistant. The TuffPEX® system is an industry leader in quality plumbing.

3) Tuff-Coat® FIBERGLASS COMPOSITE. Fleetwood uses one seamless solid piece of exclusive Tuff-Coat® fiberglass composite for each outer wall. It resists UV rays, cracks and impacts.

4) VACU-BOND® SIDEWALLS, FLOORS AND CEILINGS ensure a strong, weather-resistant structure, framed in aluminum or steel. The Vacu-bond® process is unmatched by many competitors.

5) HIGH DENSITY BLOCK FOAM INSULATION is precisely cut to fit between framing members. This insures maximum insulation throughout the vehicle.

1. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motor home. The GVWR is equal to or greater than the sum of the (UVW unloaded vehicle weight plus the (CCC) cargo carrying capacity.
2. GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.
3. Base Weight is the estimated weight of the motor home without fuel, options, water, cargo or passengers.
4. GCWR (Gross Combined Weight Rating) is the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may be different. Refer to Fleetwood and chassis manufacturer's manuals for complete information.
5. Length taken from front bumper to rear bumper (excludes accessories).
6. Excludes safety equipment and awnings.
7. Motor homes feature a body-width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.
8. Tank manufacturer's listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.

† The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.
