If the lap of luxury is one of your destinations, you’ve arrived.

Life on the road has never been more appealing than in the new Pace Arrow Vision. For extended weekend excursions or long-term explorations, Pace Arrow Vision defines everything you have come to expect in sophisticated style and elegance without compromising an ounce of performance. At Fleetwood, we know you wouldn’t have it any other way. That’s why we’ve built Pace Arrow Vision to outperform every other Class A motor coach in terms of quality, refinement, and luxury. But we didn’t stop there. Fleetwood’s 50 years has taught us a thing or two about what the discriminating RVer is looking for in terms of innovative design and long-lasting value. So we set out to distinguish Pace Arrow Vision from the competition by increasing even its superior standards—advanced construction, sleek automotive styling, practical floor plans and elegant interiors. The result is the motor home that has since become the number one* selling high-line gasoline coach in the country. In other words, we reached our destination. Now you can reach all of yours.

New Pace Arrow Vision Features For 2000

Our engineering may set us apart from the rest. But the things you’ll notice most, when you and your family take a trip, are the top-of-the-line features. This year we have, once again, added to an already large list of features the following:

- Optional Home Theater Sound System
- CB Radio Ready Option
- 5000 lb. Hitch Capacity
- Toilet Tank “Sani-flush” System
- New Wall Switches
- Porcelain Toilet
- Improved Shower Door Latches
- Illuminated Porch Light Switch

Product information and photography included in this brochure were as accurate as possible at the time of publication. For the most current product information and changes, please visit our Website at www.fleetwood.com or contact your local Fleetwood dealer. Subsequent refinements may be evident in the actual product. Prices and specifications are subject to change without notice. All fuel and liquid capacities are approximate and dimensions are nominal. Fleetwood has designed its motor home brands to provide a variety of potential uses for its customers. Each unit features the optimum storage, fluid, sealing and sleeping capabilities. Though the customer enjoys this potential, he/she also has the responsibility to select the proper combinations of loads without exceeding the chassis weight capacities.

There’s no place like home—especially when you can take it with you.

Once you’ve boarded the new Pace Arrow Vision you may never go home again. That is, of course, if you’re not already calling your Pace Arrow Vision home. Pace Arrow Vision provides the luxury, enjoyment, livability, and design enhancements that make lingering in your coach nearly irresistible. From bow to stern, every aspect of the interior is crafted precisely for your ease and comfort. A sophisticated, wrap-around instrument panel ergonomically designed for visibility and ease-of-use awaits the driver. And an elaborately-appointed living room welcomes each resident with elegant, jacquard and tapestry woven fabrics, brilliant hardwood floors and plush Dupont® carpeting with Teflon Advanced Carpet Protector. Now glance about and take note of the residential-quality window treatments for increased privacy and an intimate ambiance. A smartly-designed galley featuring oak cabinet doors, solid surface countertops, and our slide-out pantry system makes “eating in” the preferred option. With Pace Arrow Vision you’ll have everything you need, whenever you need it. Looks like staying at home is starting to take on a whole new meaning.
The Power Platform Makes The Difference

Pace Arrow Vision’s quality begins long before the features come on board. We begin by building on our exclusive Power Platform, with Paco Beam, a unique truss design welded together using tubular steel that’s durable, strong, and dependable. The result is a quiet and nearly flawless ride, increased floor strength, and substantially more storage space below.

An all-steel foundation further reduces stress loads on the sidewalls and minimizes chassis flex on uneven roads.

Note: Tank manufacturer’s listed water capacity (wc). Actual filled LP capacity is 80% of listing due to safety shutoff required on tank.

1. GVWR (Gross Vehicle Weight Rating): Means the maximum permissible weight of this motor home. The GVWR is equal to or greater than the sum of the unloaded vehicle weight plus the net carrying capacity.
2. GAWR (Gross Axle Weight Rating): Means the maximum permissible loaded weight a specific axle is designed to carry.
3. Base Weight: Means the weight of the motor home without fuel, options, water, cargo, or passengers.
4. GCWR (Gross Combination Weight Rating): Means the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed trailer or towed vehicle. Towing and braking capacities may differ. Refer to Fleetwood and chassis manufacturer manuals for complete information.
