TAKE THE HIGH ROAD
When was the last time you walked on clouds?

When the feeling of freedom that rises up from somewhere deep inside completely
overwhelms you. Unexplainable freedom that makes you feel lighter than air.

Away from everyday life.

That space in time where you forget about the bills and the house, and just exist.

Pace Arrow® Vision has a tradition of being the perfect host offering more standard features than any other Fleetwood Class A gas motor home.

Your elaborately appointed living room welcomes you with elegant, jacquard and tapestry woven fabrics, natural hardwood floors, and plush DuPont carpeting with Teflon® Advanced Carpet Protector. There are beveled mirrors throughout, and glass and brass decor lighting above the dinette and living area. Then, with the combination sofa/bed, turn your living room into an extra bedroom, complete with built-in side table (optional on 36B and 35R), and a huge slide-out drawer hidden underneath.

During your fun-filled travels, you’ll be spending time behind the wheel. So you’ll meet, with great approval, the sophisticated wrap-around instrument panel, ergonomically designed for greater visibility and ease-of-use. And, at the helm, optional leather seating makes for a commanding elegance.

So make the Pace Arrow Vision part of your extraordinary life. Go up, up and away, and show the world who’s on top.

Teflon® and Corian® are registered trademarks of DuPont of the United States.
Pace Arrow Vision’s 5.5kW ultra-quiet Onan® generator provides 110V service and comes with a 3-year warranty.

On the driver’s side, hookups are easily accessed and color-coded for quick setup. Adjacent is the wash station for convenient outside cleaning.

Every Pace Arrow Vision comes prewired for an optional Winegard® satellite dish.

A coach-length, aluminum drip rail prevents discoloring of the sidewall.

Polyethylene storage compartments are non-corrosive to prevent rusting.

Practical, single die-cast metal paddle latches are flush-mounted for a luggage door system that’s durable and easy-to-operate.

Pace Arrow Vision’s windshield is designed to prevent moisture intrusion and provide an unobstructed panoramic view.

Onan® is a registered trademark of Cummins • Winegard® is a registered trademark of Winegard Company.
Your senses expand. You see things differently—perhaps clearer.

You’re sure your feet aren’t touching the ground. At that moment, you completely understand just how awesome life is. And you’re grateful.

When was the last time you walked on clouds?

We’ll ask you when you get back.

Reach your destination in style with the finer things in life. View the world outside with a sense of intimacy, through the residential-style window treatments. Or watch your favorite program on a 20” Panasonic® front TV. Its speakers are hidden in the integrated design of the cab—an example of the Vision’s well-engineered styling.

The world of technology is never far away with an in-the-dash computer-ready workstation, complete with keyboard drawer and padded flip-down wrist rest for comfort.* And if that isn’t enough, your bedroom vanity quickly turns into a table that is also computer ready (Available on 35R only).

Your stylish vacation home has plenty of drawer space in the bedroom and a full-size wardrobe to keep your hanging clothes looking fresh. Then adjust your bedroom lighting with dual switches for whatever mood you’re in.

One thing’s for certain, no matter which model you choose, your life with Pace Arrow Vision is a natural high.

Tease the Air and Stir the Soul.

There's no better way to see and experience life beyond the ordinary, than with a Pace Arrow® Vision motor home. The gracefully-styled Pace Arrow Vision comes from a long line of innovative and well-appointed motor homes. From bow to stern, every aspect of the interior is crafted precisely for ease and comfort. Its residential-style overhead cabinets in the galley, slide-out pantry system and easy-to-stand “toe kick” area, below the lower cabinets, feel like home. Especially with the large, double stainless steel sinks with countertops and backsplash made of Corian® that provide lasting beauty and durability. Notice the name-brand appliances ready to help you prepare the best of meals—names like Sharp®, Magic Chef® and Dometic®.

With synchronized rack and pinion engineering, the EZ Glide® Slide-Out System effortlessly expands the size of living room, dinette, galley or bedroom areas for the great indoors.

And, when you’re ready to retire for the night, use your pleated day/night shades in the living room and nightshades in the bedroom for privacy. You’ll appreciate not only the special brass and glass decor lighting, but also the added fluorescent lighting to make getting around the coach a bit easier.

Spending time with Pace Arrow Vision will be heavenly. So come explore your new life in style.

Our engineering may set us apart from the rest, but the things you’ll notice most when you and your family take a trip, are the top-of-the-line features. Here are but a few of the items that make life on the road with Pace Arrow Vision memorable.

The bedroom feature cabinets include this convenient clothes hamper.

For on-the-road convenience, you’ll appreciate the optional residential-style washer/dryer (optional on 36B and 36Z).

Make finding your way around the country easier with the optional satellite-connected VDO Dayton Model MS 5000 GPS navigation system, complete with software.

An optional electronic climate control system with dual A/C controls enables a separate climate in the front and rear of the coach.

Computer workstation*, lift-up TV, storage for maps, and cupholders—practical, functional, and all within reach.

Get “live” sound with the DHS Home Theater Sound System.

Pace Arrow Vision’s basement space includes lots of storage for your gear.

The Power Platform Makes the Difference

Pace Arrow Vision’s quality begins long before the features come on board. We begin by building on our exclusive Power Platform, with Paco Beam, a unique truss design welded together using tubular steel that’s durable, strong, and dependable. The result is a quiet, and nearly flawless ride, increased floor strength, and substantially more storage space below. An all-steel foundation further reduces stress loads on the sidewalls and minimizes chassis flex on uneven roads.

A Steel I-beams are welded the length of the chassis for enormous weight-bearing ability.

B Water tanks run horizontally down the center of the frame for balance.

C Beefy steel outriggers firmly cradle all exterior compartments and add stability.

**What happens when you’ve been setting the standards of RV quality for over 50 years?**

*You set them even higher. Our customers expect us to.* As a matter of fact, first-time RV buyers, who bought other manufacturers’ RVs, tell us they wish they’d spent a little bit more for better quality. That’s why experienced buyers are more likely to buy a Fleetwood RV. That’s also why Fleetwood RV invests in people, systems and manufacturing quality that are second to none. This may make us a bit more expensive than some brands, but satisfied Fleetwood RV owners know we’re worth it.

*People... We hire engineers, designers and drafters from leading automotive design schools. Our front-line associates are well-trained, quality-minded men and women who take pride in their work. No other manufacturer has a larger, more professional team behind their products.*

*Systems... Our product development team uses state-of-the-art, computer-assisted-design (CAD) technology to build in fit and finish right from the drawing board. Each product is meticulously documented with over 3,500 pages of engineering drawings. A computerized bill of materials details over 20,000 pieces that go into your motor home. And, a vehicle specific Electronic Parts Catalog shows 600–800 common parts... so, if you need a new part, your authorized Fleetwood RV service dealership knows exactly what you need. Some manufacturers may not invest the extra time and money to accurately document their products, which could cost you plenty in headaches and hassles down the road.*

1. GVWR (Gross Vehicle Weight Rating): Means the maximum permissible loaded weight of the motor home. The GVWR is equal to or greater than the sum of the unloaded vehicle weight plus the net carrying capacity.
2. GAWR (Gross Axle Weight Rating): Means the maximum permissible loaded weight a specific axle is designed to carry.
3. BW (Base Weight): Means the weight of the motor home without fuel, options, water, cargo or passengers.
4. GCWR (Gross Combined Weight Rating): Means the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may differ. Refer to Fleetwood and chassis manufacturer manuals for complete information.
5. Length taken from front bumper to rear bumper.
6. Excludes safety equipment and awnings.
7. Tank Manufacturer’s listed water capacity (WC). Actual LPG capacity is 80% of water listing as required by the safety code.

**Manufacturing…** We only do what we know we’re best at—building a quality-finished motor home. When it comes to the appliances, doors, windows, and furniture, we partner with other recognized leaders to do what they know best… top names like Sharp®, Panasonic®, Dometic®, Restonic® and Flexsteel®. Some manufacturers will tell you partnering like this makes us final assemblers. We call it working smarter to bring you more value.

**Quality…** The quality outside reflects the quality inside—places where you can’t see it, but where it really counts. For example, we use vacubonded sidewall construction that’s required for the special needs of a motor home. Our new TuffPEX™ plumbing system is able to withstand temperatures as low as -40° F. And now offered on our mid- to high-end Class A motor homes, a new, revolutionary exterior sidewall material which contains no wood products to guard against swelling, rotting and delamination. Before any unit rolls off the line at each of our plants, it goes through a documented checklist containing hundreds of items specific to that product. It won’t leave the plant until it has met our high standards. And, the list goes on.

**For strength, noise reduction and insulation, composite sidewalls and floors are constructed of aluminum, plywood and polystyrene foam.**

**Fleetwood RV…** Setting standards beyond your expectations.

**IMPORTANT—PLEASE READ:** Product information and photography included in this brochure were as accurate as possible at the time of publication. For the most current product information and changes, please visit our website at www.fleetwood.com or contact your local Fleetwood dealer. Subsequent refinements may be evident in the actual product. Prices and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. Fleetwood has designed its recreational vehicles to provide a variety of uses for its customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads to ensure that the recreational vehicle’s capacities are not exceeded.
Fleetwood's Far-Reaching Warranty and Service Program

Limited One-Year/Three-Year Warranty
Leaving the Fleetwood dealership after you've purchased your RV doesn't mean leaving each dealer's commitment to your satisfaction behind. OWNERCARE, Fleetwood's extensive warranty and service program, provides one/three year(s) of dedicated customer satisfaction. OWNERCARE stands out as one of the RV industry's most comprehensive programs and includes systems and applications, construction, no deductible and no service charge. Fleetwood RV and Motor Sports: A Winning Team

Three wide in the first turn. 200 miles per hour on the back straight. Passing for the lead through the short chute. Nothing beats the excitement of NASCAR racing. Every year thousands of NASCAR fans and Fleetwood RV owners travel to races to support their favorite drivers, enjoy time with family and rekindle friendships.

RVs have become as much a part of motorsports as pit row and the checkered flag. That's why Fleetwood RV is a proud sponsor of 1999 Winston Cup Champion Dale Jarrett and the Robert Yates Racing Team.

As the number one RV manufacturer* in the country, our winning ways continue. Fleetwood RV is now the “Official Recreational Vehicle” at nine *According to Statistical Surveys Jan. ’99-Dec. ’99
