## FLEETWOOD.RV

# Merica's Number One Mini Motor Home.

At Fleetwood RV, we've been making America's favorite recreational vehicles for nearly 50 years. We've done it by building honest value, rugged dependability and peace of mind into every one of them. That's exactly what's made Tioga the number one selling mini motor home in the USA. This year, Fleetwood RV is offering both the popular Tioga and the more luxurious Tioga SL. Both deliver more room, more storage and more comfort to more Americans than any other mini motor homes. And with car-like handling, they're remarkably easy to drive. So, whether you're boating, hiking, hunting, skiing, off-roading or camping, Tioga has what it takes to get you there and back in style. Tioga offers a broad range of unique, practical floor plans, including models with our EZ Glide $^{TM}$  Slide-out Room System. And our exclusive Mor-ryde® Suspension Enhancement System\* reduces suspension vibration, and also protects against damaging road shock, so Tioga rides smoother and quieter than any other mini motor home on the road. Some models even offer a 4x4 option which allows you to drive confidently in adverse weather conditions. As you can see, the new Tioga is better than ever. Which is probably why it's still the first choice in mini motor homes.

### When the dust settles, there's not an RV in the world that's tested like a Fleetwood RV.

If anyone loves to tear an RV apart, it's us. Because at Fleetwood RV nothing's more important than your safety and comfort. While our improvements aren't all visible to the eye, we commit millions of

dollars a year in product development and research to build what we believe are the finest RVs in the world.

It all starts with advanced computer analysis of new prototype designs. Once built, the prototypes undergo rigorous load bearing and weight distribution stress tests.

Stringent load analysis software ensures improved reliability.

Then the relentless testing and re-testing of components begins. In a couple of weeks we can simulate years of real world

Vacubond construction

roof, wall and floor is

ensures that every

completely sealed.

We only use steel and aircraft-grade aluminum frames, giving you more strength and less weight.

use. Slide-out mechanisms have to open and shut thousands of times without a complaint. Seat belts must withstand more than three-ton stress levels without a whimper. And doors have to endure tens of thousands of slammings without losing their composure.

At the end of the day, we've thrown just about anything and everything we can at our units, just to make sure we have the best designed and most thoroughly tested RVs in the world. Then we back them with a limited 1-year/3-year warranty supported by Fleetwood RV dealers throughout the U.S. and Canada. So you have what we believe to be the best-handling, safest, most comfortable RV anywhere.

Dear Friend.

Here at Fleetwood RV, we have over 200 people working on research and development. But we get our best ideas when we hit

the road in our recreational vehicles. Talking to people like you and noticing for ourselves little ways to make RVing more comfortable, more convenient and more fun.

If I had two pieces of free advice to give a friend in the market for an RV, the first would be to get a Fleetwood RV. Not because we need to sell one more. Heck, we sell more than anyone else. But because I know we build the best product out there for the money.

Second, really think about your dealer. He has to be someone you trust for advice, service and accessories. Only the best get to be Fleetwood RV dealers in the first place. Then we work with them to continually improve customer satisfaction. That's why 9 out of 10 owners would recommend their Fleetwood RV to a friend and 9 out of 10 of them would also recommend their Fleetwood RV dealer.

I hope that helps. And I also hope I see you out there, somewhere in this beautiful world, enjoying your new Fleetwood RV while I'm out there doing the same.

America's Favorite Recreational Vehicles

Fleetwood Enterprises,Inc. P.O. Box 2875, Van Nuys, CA 91404-2875

Product information and photography included in this brochure were as accurate as possible at the time of publication. Subsequent refinements may be evident in the actual product. Prices and specifications are subject to change without notice. All fuel and liquid capacities are approximate and dimensions are nominal. Fleetwood has designed its motor home brands to provide a variety of potential uses for its customers. Each unit features the optimum storage, fluid, seating and sleeping capabilities. Though the customer enjoys this potential, he/she also has the responsibility to select the proper combinations of loads without exceeding the chassis weight capacities.
