

LET YOUR SENSE OF ADVENTURE SHOW YOU THE WAY

Recognized as a Consumers Digest Best Buy.*

New discoveries are just around the corner. The new Tioga® Arrow motor home gets you there in comfort and style, and all at an exceptional value.

It's even more fun when you get to take your recreational toys with you. The premium Ford® or Chevy™ chassis makes towing your ATVs or personal watercraft** easy, while providing superior performance and a flawless ride.

In the cab, driving is a delight in the ergonomically designed driver's compartment complete with cruise control, power locks and windows, Panasonic® AM/FM cassette stereo, and air conditioning.

Choose from four surprisingly spacious floor plans—due to the wide-body design—and a variety of sleeping arrangements to accommodate your lifestyle. With all the

excitement you'll generate in your travels, you and your crew will be ready to devour the best of meals. To plan and prepare your gourmet extravaganzas, use the Magic Chef® 3-burner, high-output range and oven, 6 cu. ft. Dometic® double-door refrigerator and stainless steel double sink. Later, relax on a Flexsteel® swivel lounge chair (Model 24D) or sofa bed.

And what ultimately sets this RV apart is the over 50 years of Fleetwood testing and research that makes your motor home a superb value.

The Tioga Arrow—the new Class C from Fleetwood RV. It's the best way to aim for discovering great times.

1. GVWR (Gross Vehicle Weight Rating): Means the maximum permissible loaded weight of the motor home. The GVWR is equal to or greater than the sum of the unloaded vehicle weight plus the net carrying capacity.
 2. GAWR (Gross Axle Weight Rating): Means the maximum permissible loaded weight a specific axle is designed to carry.
 3. BW (Base Weight): Means the weight of the motor home without fuel, options, water, cargo or passengers.
 4. GCWR (Gross Combined Weight Rating): Means the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may differ. Refer to Fleetwood and chassis manufacturer manuals for complete information.
 5. Length taken from front bumper to rear bumper.
 6. Excludes safety equipment and awnings.
 7. Tank Manufacturer's listed water capacity (WC). Actual LPG capacity is 80% of water listing as required by the safety code.
- N/A : Information not available at the time of publication.

Your motor home takes you to new adventures every day. And since this home will be an enduring part of your life, we offer a selection of colors and textures that are a fine blend of classic and contemporary style. We search to obtain quality fabrics that are elegant, yet durable, to keep up with your active lifestyle. Year after year, the look will be as welcoming to you as it is to your guests.
