THE MOTOR HOME THAT REALLY WORKS.

At Fleetwood RV, we’ve been making America’s favorite recreational vehicles for nearly 50 years. We’ve done it by building honest value, rugged dependability and peace of mind into every one of them. Which is probably why Bounder is the best-selling motor home in North America. Bounder not only has a proud heritage of quality craftsmanship, but also a long tradition of innovation. It’s built for people who know exactly what they expect from their RV. The inviting spaciousness of every Bounder interior makes it feel more like a family home than an RV. And you’ve probably heard from friends how perfect it is for entertaining when you’re traveling or camping with fellow Bounder enthusiasts. By balancing comfort, function and convenience, Bounder always makes sense. Some floor plans feature our EZ Glide™ Room Slide-out System which effortlessly makes your RV even roomier. Our new EZ Store™ Storage System moves with the slide-out room, so you have easy access to the storage area below, even when the slide-out room is extended. Practical amenities include brand-name appliances, maximized storage space, stylish furnishings and functional touches throughout the coach. In the end, they’re all good reasons why there’s a good chance Bounder will be number one with your family this year.

1 GVWR (Gross Vehicle Weight Rating): Maximum permissible weight of this motor home. The GVWR is equal to or greater than the sum of the unloaded vehicle weight plus the net carrying capacity.
2 GCWR (Gross Combination Weight Rating): Value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed trailer or towed vehicle.
3 GAWR (Gross Axle Weight Rating): Maximum permissible loaded weight a specific axle is designed to carry.
*Tank manufacturer’s listed water capacity (WC) actual filled. LP capacity is 80% of listing due to safety shut off required on tank.

### Exterior Automotive and Electrical, Standard Equipment
- Underhood Utility Light
- Large Single Headlamps w/Turn Signal
- Undercoating
- Trailer Hitch w/4-point Electrical Hook-up

### Exterior Automotive, Standard Equipment
- Large Curved Aerodynamic Windshield Valve Extenders
- Rear Camera Ready
- Roto-cast Front Quarter Panels
- One-piece Swingdown Engine Access Door
- Radiused Door Entry w/Deadbolt Latch
- Utility Compartment
- Park Cable Receptacle
- Hidden Lift Strut Supports (luggage)
- Hidden Stainless Steel Latch Rods
- Stainless Steel Wheel Simulators
- Polyethylene Luggage Compartment Boxes

### Interior Automotive, Standard Equipment
- Multi-position Sun Visors
- Engine Cover Conv. Tray
- Tilt Steering Wheel
- Oak Cabinet Doors & Drawers
- Innerspring Mattress
- Bath Door/Trims
- Molded Tub/Shower w/One-piece Enclosure

### Safety Equipment, Standard Equipment
- Smoke Detector
- Carbon Monoxide Detector
- LPG Detector
- Emergency Exit Window
- Spare Tire
- Slide-outs only

### Interior, Standard Equipment
- Velvet Feature Fabrics
- Skylight In Tub/Shower
- Wall-to-wall Nylon Carpet
- Wood Drawers
- Entry Rail (oak & brass)
- Sink Cutting Board

### Automotive, Options
- 28T 30E 32H 34J 34V 36S
- 4-point Hydraulic Levelers
- Dual Pane Slider Windows
- One-piece Swingdown Engine Access Door
- Aerodynamic Bus Styling
- Utility Compartment
- Park Cable Receptacle
- Single Paddle/Metal Latches (luggage)
- Hidden Lift Strut Supports (luggage)
- Insulated Luggage Doors
- Steel Seal Frames (luggage)
- Lights in Compartments
- Hidden Stainless Steel Latch Rods
- Stainless Steel Wheel Simulators
- Polyethylene Luggage Compartment Boxes

Dear Friend,

Here at Fleetwood RV, we have over 200 people working on research and development. But we get our best ideas when we hit the road in our recreational vehicles. Talking to people like you and noticing for ourselves little ways to make RVing more comfortable, more convenient and more fun.

If I had two pieces of free advice to give a friend in the market for an RV, the first would be to get a Fleetwood RV. Not because we need to sell one more. Heck, we sell more than anyone else. But because I know we build the best product out there for the money.

Second, really think about your dealer. He has to be someone you trust for advice, service and accessories. Only the best get to be Fleetwood RV dealers in the first place. Then we work with them to continually improve customer satisfaction. That’s why 9 out of 10 owners would recommend their Fleetwood RV to a friend and 9 out of 10 of them would also recommend their Fleetwood RV dealer.

I hope that helps. And I also hope I see you out there, somewhere in this beautiful world, enjoying your new Fleetwood RV while I’m out there doing the same.

John C. Crean
Chairman Emeritus and Founder
Fleetwood Enterprises, Inc.

---

WHEN THE DUST SETTLES, THERE’S NOT AN RV IN THE WORLD THAT’S TESTED LIKE A FLEETWOOD RV.

If anyone loves to tear an RV apart, it’s us. Because at Fleetwood RV nothing’s more important than your safety and comfort. While our improvements aren’t all visible to the eye, we commit millions of dollars a year in product development and research to build what we believe are the finest RVs in the world.

It all starts with advanced computer analysis of new prototype designs. Once built, the prototypes undergo rigorous load bearing and weight distribution stress tests. Stringent load analysis software ensures improved reliability.

Then the relentless testing and re-testing of components begins. In a couple of weeks we can simulate years of real world use. Slide-out mechanisms have to open and shut thousands of times without a complaint. Seat belts must withstand more than three-ton stress levels without a whimper. And doors have to endure tens of thousands of slammings without losing their composure.

At the end of the day, we’ve thrown just about anything and everything we can at our units, just to make sure we have the best designed and most thoroughly tested RVs in the world. Then we back them with a limited 1-year/3-year warranty supported by Fleetwood RV dealers throughout the U.S. and Canada. So you have what we believe to be the best-handling, safest, most comfortable RV anywhere.

---

Vacubond construction ensures that every roof, wall and floor is completely sealed.

We only use steel and aircraft-grade aluminum frames, giving you more strength and less weight.

America’s Favorite Recreational Vehicles

Product information and photography included in this brochure were as accurate as possible at the time of publication. Subsequent refinements may be evident in the actual product. Prices and specifications are subject to change without notice. All fuel and liquid capacities are approximate and dimensions are nominal. Fleetwood has designed its motor home brands to provide a variety of potential uses for its customers. Each unit features the optimum storage, fluid, seating and sleeping capabilities. Though the customer enjoys this potential, he/she also has the responsibility to select the proper combinations of loads without exceeding the chassis weight capacities.
