The Diesel That Says You’ve Arrived.

At Fleetwood RV, we’ve been making America’s favorite recreational vehicles for nearly 50 years. We’ve done it by building honest value, rugged dependability and peace of mind into every one of them. As number one in its class, Discovery is built for those who want all the power and luxury associated with a diesel Fleetwood RV. Besides its generous diesel power and renowned gliding air-ride suspension, Discovery has wonderfully inviting residential accommodations. These interiors feature oak plank flooring, porcelain sinks with Corian® countertops, convection carousel microwave oven, built-in TV with VCR, and optional leather furniture. The sumptuous bedroom has its own television and stereo system that can turn your sanctuary into a private theater.

Something else that’s special on select models is our EZ Glide™ Room Slide-out System that makes your RV roomier at the touch of a button. Our EZ Store™ Storage System moves with the slide-out room, so you have easy access to storage below. The Discovery exterior is equally distinctive. From the all-new full-fiberglass front-end cap, halogen headlamps and massive wraparound windshield to the bold, dramatic color schemes and optional awning, Discovery says you’ve arrived. Which is what makes Discovery the first choice of those who want to step up to unsurpassed driving and climbing power in a luxurious motor home.

- **Sleeping Accommodations, Options**
  - **Convertible Sofa**
  - **Queen Bed**
Dear Friend,

Here at Fleetwood RV, we have over 200 people working on research and development. But we get our best ideas when we hit the road in our recreational vehicles. Talking to people like you and noticing for ourselves little ways to make RVing more comfortable, more convenient and more fun.

If I had two pieces of free advice to give a friend in the market for an RV, the first would be to get a Fleetwood RV. Not because we need to sell one more. Heck, we sell more than anyone else. But because I know we build the best product out there for the money.

Second, really think about your dealer. He has to be someone you trust for advice, service and accessories. Only the best get to be Fleetwood RV dealers in the first place. Then we work with them to continually improve customer satisfaction. That’s why 9 out of 10 owners would recommend their Fleetwood RV to a friend and 9 out of 10 of them would also recommend their Fleetwood RV dealer.

I hope that helps. And I also hope I see you out there, somewhere in this beautiful world, enjoying your new Fleetwood RV while I’m out there doing the same.

John C. Crean
