THE JOY OF TRAVEL

When it comes to traveling, some will, some won’t, and some make sure they do it right. With contemporary charm and a commanding presence, your Discovery is the envy of the entire camp. Traveling in a Discovery is a celebration, and everyone wants to join the excitement.
WHY BUY DISCOVERY?

Step Up to Luxury  Discovery is the brand so many motorhome owners aspire to own. Its power and luxury is truly impressive.

Built for Comfort and Convenience  In Discovery, you’ll find ergonomically designed spaces that are more livable and comfortable—they just feel right.

Unmistakable Quality  Discovery owners have high expectations, and Discovery does not disappoint. The exceptional quality of the components is consistent throughout.

Space for Entertaining  The more the merrier, with a galley suitable for preparing big meals, countertop space for party trays and drinks, and plenty of room for guests.

Luxurious Bed and Bath  The oversized bedroom suite is built for relaxation, with fine amenities and ample space to spread out.
Both inside and out, we offer a wide selection of colors, styles and finishes. From the moment you lay your eyes on a Fleetwood RV, the high-style graphics and décor collection welcome you with gracious beauty and contemporary design. We’ve paid attention to every detail. So wherever you are, you’ll feel right at home.

Liquid Weight Reference:
- Water (gal) = (8.3 lbs/3.8 kgs) Fuel (gal) = (6.1 lbs/2.8 kgs) Propane (gal) = (4.2 lbs/1.9 kgs)

Metric Conversion:
- Multiply pounds x 0.453 to obtain kilograms. Multiply gallons x 3.785 to obtain liters.
- Multiply liters x 61 to obtain cubic inches.

ADDENDUMS
1. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motorhome. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (OCCC) occupant cargo-carrying capacity.
2. GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.
3. GCWR (Gross Combined Weight Rating) is the value specified by the motorhome manufacturer as the maximum allowable loaded weight of this motorhome with its towed vehicle. Towing and braking capacities may be different. Refer to Fleetwood and chassis manufacturer’s manuals for complete information.
4. Length measured from front bumper to rear bumper (excludes accessories).
5. Excludes safety equipment and awnings.
6. Motorhomes feature a body width over 96” which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.
7. Tank manufacturer’s listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.

† The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.

†† Minimum Towable Load is the available weight, up to GCWR, when the coach is fully loaded to maximum GVWR. However, if the coach is loaded to something less than maximum GVWR, that extra available weight can be added to your Towable Load. For example, if your coach is loaded to 1000lbs less than maximum GVWR, your Towable Load increases accordingly.

UVW and OCCC are found on the label containing the federal certification tag in each RV.
