EXPLORE THE HIDDEN TREASURES

Take a tour through the Terra SE, functional comfort, practical, efficient and affordable – Find your gem in the Terra SE.
WHY BUY TERRA SE?

Now you see it. Now you don’t. The available “Hide-A-Loft” on Storm adds another queen bed in just seconds.

Bunk Bed-N-Breakfast.
During the day this optional feature is a cozy dinette for two. In the evening, it converts to roomy bunk beds for your friends and family. Consider it Fleetwood’s spin on a “convertible.”

More Bang for Your Buck.
The Terra SE is so packed with standard features - there’s something for everyone - that friends and family will praise your negotiation skills. Your secret is safe with us.

Crossover to Adventure.
Storm features the living space of a Class A with the sleeping capacity of a Class C - a true RV crossover. With Storm, you truly can bring it all with you.
Both inside and out, we offer a wide selection of colors, styles and finishes. From the moment you lay your eyes on a Fleetwood RV, the high-style graphics and décor collection welcome you with gracious beauty and contemporary design. We’ve paid attention to every detail. So wherever you are, you’ll feel right at home.

### ADDENDUMS

1. **GVWR (Gross Vehicle Weight Rating)** is the maximum permissible weight of this fully loaded motorhome. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (OCCC) occupant cargo-carrying capacity.

2. **GAWR (Gross Axle Weight Rating)** is the maximum permissible loaded weight a specific axle is designed to carry.

3. **GCWR (Gross Combined Weight Rating)** is the value specified by the motorhome manufacturer as the maximum allowable loaded weight of this motorhome with its towed vehicle. Towing and braking capacities may be different. Refer to Fleetwood and chassis manufacturer's manuals for complete information.

4. **Length** measured from front bumper to rear bumper (excludes accessories).

5. **Excludes safety equipment and awnings.**

6. **Motorhomes feature a body width over 96’ which will restrict your access to certain roads.** Before purchasing, you should research any state and/or province road laws which may affect your usage.

7. **Tank manufacturer’s listed water capacity (WC).** Actual propane capacity is 80% of water listing as required by the safety code.

† The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.

†† **Minimum Towable Load** is the available weight, up to GCWR, when the coach is fully loaded to maximum GVWR. However, if the coach is loaded to something less than maximum GVWR, that extra available weight can be added to your Towable Load. For example, if your coach is loaded to 1000lbs less than maximum GVWR, your Towable Load increases accordingly.

* UVW and OCCC are found on the label containing the federal certification tag in each RV.
