Welcome to the 2010 Endeavor — the perfect combination of powerful performance and stylish comfort. On the road, you’ll enjoy an exceptional driving experience in a luxurious cockpit with Ultraleather™ seats and a wide range of state-of-the-art features. Highlights include a color rear vision system and optional GPS navigation. In the living area, you’ll feel right at home with spacious furnishings, designer carpeting, beautiful hardwood cabinet doors and decorative slide-out fascia.
Let the Endeavor pamper you with its exquisite luxury and convenience. The kitchen features the distinctive styling of a polished radius solid surface countertop and a ceramic tile backsplash with decorative glass accents. The 42PAQ floor-plan offers a pullout countertop extension with drawer storage. Spacious comfort reigns in the bedroom, too, with deep, 30-inch slide-outs and a queen bed or optional king on the 42 SKQ and 42PAQ. You'll also enjoy a 26-inch LCD TV and optional DVD player. The 42PAQ also boasts a bath-and-a-half layout with beautiful ceramic tile flooring, two solid surface vanities with integrated sinks and a large, one-piece shower.
You’ll turn heads both on the road and at your destination with the Endeavor’s stunning four-color, deluxe full-body paint. The impressive awning package features automatic patio and front door awnings. Polished aluminum wheels and a full-length Holiday Rambler mud flap add the perfect finishing touches. As you can see above, an optional slide-out tray helps you make the most of the coach's large pass-through storage bays.

THE ROADMASTER DIFFERENCE

Turn the key of the 2010 Endeavor and prepare to experience the best-in-class performance of the Roadmaster chassis. Roadmaster is the only chassis manufacturer with a 100 percent commitment to only producing chassis for luxury motorhomes. In fact, every Roadmaster chassis is custom built for the exact model and floorplan. That means you’ll enjoy a smoother ride, superior front-to-rear balance and unbeatable strength and reliability. We encourage you to take a few minutes to learn more about the many features that put Roadmaster in a class by itself.

CONSTRUCTION

The Roadmaster RR10R Tag Axle is the perfect example of the company's commitment to quality and performance. With its one-piece peaked fiberglass roof and Luaun backing, this chassis offers outstanding strength and rigidity. The 5-layer floor construction includes a steel frame cockpit, providing incomparable strength and safety in the front of the coach. Every Roadmaster chassis features a steel firewall for added protection in the cockpit.

The main rails feature an exclusive raised rail design which provides for larger full pass-through storage bays with flush floors. Other highlights include a full-length Holiday Rambler mud flap, a stacked aluminum intercooler and radiator for optimum heat transfer and cooling. Dual fuel fill allows you to fill the tank from either side of the coach, for greater convenience and flexibility at the pump.

The Endeavor features a gutsy standard Cummins® ISL 425 HP with 1,200 lbs./ft. of torque. One word says it all. Vroom.

For 2010, the Endeavor boasts a powerful new standard engine — the Cummins® ISL 425 HP with 1,200 lbs./ft. of torque. One word says it all. Vroom.

ROADMASTER RR8R AND RR10R RAISED RAIL CHASSIS

(Roadmaster RR8R: 38PDQ; Roadmaster RR10R Tag Axle: 42SKQ, 42PAQ)

1. A steel cage cockpit gives the Roadmaster chassis incomparable strength and safety in the front of the coach.
2. Every Roadmaster chassis features a steel firewall for added protection in the cockpit.
3. The main rails feature an exclusive raised rail design which provides for larger full pass-through storage bays with flush floors. Other highlights include a full-length Holiday Rambler mud flap — compared to the 1/4" of other manufacturers — and a stacked aluminum intercooler and radiator for optimum heat transfer and cooling.
4. Dual fuel fill allows you to fill the tank from either side of the coach, for greater convenience and flexibility at the pump.
5. Steel System with Rust Inhibitor. This steel frame system is engineered as part of the chassis and provides outstanding strength and rigidity plus pass-through storage. In addition, the structure is pre-painted and coated with a rust-inhibiting paint.
6. Eight outboard-mounted air bags and eight shock absorbers on the 38PDQ, and ten air bags (eight outboard-mounted) and ten shock absorbers on the 42SKQ and 42PAQ.
7. Monitored leveling sensors continually adjust the air pressure at each axle to maintain a level ride and eliminate nosediving, weight transfer, and floating on curved roads. This system also stabilizes the coach on uneven surfaces.
8. The Endeavor features a gutsy standard Cummins® ISL 425 diesel engine with Allison® 3000 MH 6-speed World Transmission and electronic shifter.
9. Engine Mounting: The three-point engine mounting system lowers the coach's center of gravity and reduces the amount of vibrations that reaches the coach. The mounting also makes the engine easier to service.
10. A 10,000 lb. tow hitch rating is the highest in its class.
11. Automatic Traction Control (ATC) eliminates wheel slippage in slick conditions and heightens control. The Anti-Lock Braking system (ABS) gives you superior stopping power, especially on steep grades. Together, these sophisticated systems offer the very best safety on the road.

Would you like to be in a win-win position when selecting the colors and patterns of your new 2010 Endeavor’s exterior and interior décor? Leave it to the designers at Holiday Rambler to provide you with two of its most enticing exterior colors and interior décors from which to choose. Select the one that fits your style — from warm and wonderful to cool and classic. Then, pair it all together with our popular solid wood Newport Cherry II cabinetry, and you’ve created a one-of-a-kind masterpiece all your own.

UNMISTAKABLE QUALITY.
The hallmark of a Holiday Rambler is beautiful solid wood cabinetry with impeccable attention to detail. Raised panel doors provide a residential touch, while the decorative slide-out fascia trim adds elegance throughout the living areas. The storage spaces are as durable as they are attractive, with sturdy drawers and heavy-duty ball-bearing drawer guides.

- LP Tank

**Weights**

- 38PDQ: 36,000 lbs
- 42SKQ: 43,000 lbs
- 42PAQ: 43,000 lbs

- Towing capacity is limited by GCWR; your vehicle’s towing capacity is the difference between the GCWR and the actual vehicle weight, including all fresh, fuel, passengers and cargo. Your towed vehicle should be equipped with an auxiliary battery (the weight of the battery vehicle was used, check with your vehicle’s owner’s manual for further towing information).

- All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual “usable capacity” may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

- Actual filled LP capacity is a bulk of filling and may shut off required tank.

- Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Holiday Rambler provides a weight sticker on each unit we produce which includes that unit’s tank capacities and approximate weight. Consult your local Holiday Rambler dealer for unit availability and please confirm the information with your dealer. Component part and appliance manufacturers issue limited warranties covering portions of the recreational vehicle not covered under the Limited Warranty provided herein. The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name which may only be available in selected floorplans. Photographs may show a floorplan option that has been discontinued or is no longer available at the time of your purchase. Photographs may show colors depicted may not be an exact match of the actual colors because of the variances in photo-processing and printing. Due to product improvements, changes during the model year and/or registered trademarks of their respective holders. While the color of the motorhome’s exterior and the interior fabrics depicted in this sales brochure are fair and reasonable depictions, the color may be greater or less than that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length of the recreational vehicle may differ from that illustrated in the brochure due to variances in the manufacturing process and/or installed components. The actual overall length of the recreational vehicle may differ from that illustrated in the brochure due to variances in the manufacturing process and/or installed components.
