**Floor Plan**

- The floor plan may not be an exact match of the actual colors because of the variances in photo processing and variances caused by inserting the photographs within the sales brochure. Due to the large variety of options and floor plan arrangements available to our customers, actual weights for each unit can differ significantly. Holiday Rambler provides a full paint thickness in all compartments and between the sheets of the floor, with an average of 10.0 lbs per sq. ft. This is a minimum requirement to the building codes and practices for the industry.

**Options**

- The options listed in this brochure are current at the time of printing. However, these options may change without notice. The manufacturer reserves the right at any time to make changes in design or standardization of components and materials of the type or option, without notice.
