Scepter returns for the 2011 model year bolder than ever. Beginning with the Roadmaster RR10S-Series chassis with tag axle standard, and teamed with a Cummins® ISL 425 horsepower engine, there’s plenty of power. And Scepter’s style is perfectly reflected in its two creative floorplans, including a quad-slide with extendable sectional sofa, a bath-and-a-half full-wall slide, and features like ceramic tile throughout the living area, kitchen and bath, hardwood cabinetry, and safety-minded features everywhere. (Pictured: 43DFT/Raspberry Truffle/Glazed Stained Cherry)
Every thoughtful detail and decorative touch in the kitchen says Scepter luxury, with polished radius solid surface countertops and stainless steel appliances, backsplashes in decorative ceramic tile with glass accents, a handy pull-out countertop extension with built-in storage and the convenience of a central vacuum system. The 17-cubic-inch stainless steel four-door refrigerator is an impressive option. (Pictured: 43DFT/Raspberry Truffle/Glazed Stained Cherry)
Scepter’s luxurious bedroom features beautiful raised panel hardwood cabinetry throughout, plush carpet, day/night pleated blackout shades, solid surface nightstands and a 26-inch LCD television (with optional DVD player). Nice optional touches include the stackable washer/dryer and tile flooring in the bedroom.

The 43DFT is a bath-and-a-half floorplan that features a full private bath beyond the bedroom (shown above). Highlights include a one-piece round shower, vanity with solid surface countertop and tile backsplash, a full rear-wall wardrobe and plenty of additional storage. ROADMASTER RR10S–SERIES CHASSIS

1. Equipped with a steel firewall and steel stepwell for added safety.
2. Two monitored leveling sensors (two in the rear, one in the front) continually adjust the air pressure within each air bag to maintain a level ride and eliminate nose diving, weight transfer, and floating on curved roads.
3. Automatic Traction Control (ATC) eliminates wheel slippage in slick conditions and heightens control.
4. Three monitored leveling sensors (two in the rear, one in the front) continually adjust the air pressure within each air bag for added safety.
5. Frame rails are constructed of 3-1/2" by 6-1/4" by 3/8" 100,000 PSI steel for greater strength, a side-mounted aluminum radiator and intercooler reduce weight, won’t rust, and deliver better heat transfer than steel cooling components.
6. The Cusion Air Glide suspension features ten gas-charged shocks and ten air bags, eight of which are outboard-mounted.
10. A 10,000 lb. tow hitch is the highest rating in its class. Prewired for supplemental braking system that works with your tow vehicle.

MULTIPLEX WIRING

Multiplex wiring, used throughout the coach, replaces cumbersome bundles of wire with separate modules. These modules communicate via a single wire, making servicing easier and reducing the overall weight of the RV. A service technician can simply hook up a laptop directly to the modules for easy troubleshooting.

CUMMINS POWER

For 2011, the Scepter boasts a powerful Cummins® ISL 425 HP diesel engine.

WARRANTIES

12 month/24,000 mile basic limited warranty
5 year/50,000 mile limited warranty on aluminum or steel frame structure

THE ULTIMATE FOUNDATION

Take the wheel of a luxury motorhome, and you’re taking the wheel of the chassis it rides on. That’s why Scepter rides exclusively on a Roadmaster chassis that is custom built to deliver the very best diesel motorhome experience. Roadmaster’s construction utilizes advanced design and engineering to distribute stress evenly throughout the entire chassis, reducing the possibility of twisting and increasing durability and reliability. It’s really the ultimate foundation for a luxury ride.

AROUND-THE-CLOCK SERVICE AND SUPPORT

When you take delivery of your new recreational vehicle, it’s just the beginning of our exclusive around-the-clock Owner Advantage Program. We offer an extensive support program that provides complete roadside assistance and special motor club benefits that follow you wherever your travels take you. We’ve teamed up with the largest RV emergency road service company in the country to give you immediate access to fast, dependable service when and where you need it. Add our toll-free service appointment assistance, plus a technical assistance hotline, and you have the security of full-time support at your fingertips.
