Take It All.

With room for all your toys, the Recon ZX really lets you take it all.
Have It All.

No other toy hauler gives you the same combination of garage space, rugged construction, high-end interiors and convenient amenities. With room for up to four ATV’s, an extra-wide ramp and 2,500 pound tie-downs, the Recon can handle all your toys. And with multiple slideouts, loft beds and up to two queen beds in the garage, there’s plenty of room for friends to come along as well.

Optional dual electric queen beds in the cargo area are easy to lower and raise.

The 2,000 lb. capacity garage features a 96” ramp door opening.

Recon’s full kitchen allows you to cook a hot breakfast before you head out and a hearty dinner when you get home.
Designed to Hold Its Own.

Lightweight and Durable
Our Tuffshell® sidewall construction features a lightweight welded aluminum frame, efficient bead foam insulation 1 and lauan board 2 that is vacuum-bonded for superior strength and weight reduction.

A Firm Foundation
The R-24 floor construction combines 2” x 3” aluminum floor joists 3, fiberglass insulation, reflective foil 4 and ⅝” tongue-and-groove plywood 5 to create a firm foundation.

Convenience and Comfort
Design features like lockable storage compartments 6, tinted safety glass windows 7, central air conditioning 8, a Carefree® electric patio awning 9 and high rise retractable entrance steps 10 make life comfortable and convenient.

Keeping Cargo Safe
The garage floor and ramp door feature an anti-slip, non-skid floor 11 and ramp door with spring-hinge assist system 12. With a 2,500 pound capacity, the wide ramp makes it easy to load and unload large toys. Ten flush-floor mounted D-rings anchored to the frame hold 2,500 pounds each, ensuring toys will remain safely in place.

Impressive Sound Capabilities
Nothing gets you more inspired to ride than listening to music on Recon’s Sony® 12V AM/FM/CD/DVD stereo with iPod® adapter/charger and four Sony® speakers. Recon ZX’s versatile sound system allows for a premium sound experience wherever you want—indoor or outdoor. If you’re the type who likes to take it up a notch, add the optional Sony® subwoofer and amplifier.

Protection From the Elements
Our seamless one-piece rubber roof 13 covers a 5” thick vacuum-bonded laminated R-25 roof 14 and ceiling paneling 15 and offers superior protection from rain, heat and noise.

- Security lights (2)
- Skylight in tub/shower
- Water purification system

---

**Note:** It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the roadways. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specification chart above.
