

SpringdaleTM 2002

It's a way of life...

Springdale brings you amazing features and value at an incredible price. Shown here, Springdale's 266 RELL offers all hardwood mortise-and-tenon cabinet doors, an extra-large dinette, a kitchen featuring an angled countertop and a versatile rear cabinet/entertainment center.

The interior color featured is Blue Ridge.

Thank You for Considering Springdale...

Springdale was designed with one main goal—**Incredible value for your dollar.** With Springdale, you will find that you don't have to spend a fortune to have all the conveniences and features that you want.

Our Springdale team takes pride in each travel trailer and fifth wheel that we manufacture. We use only high-grade building materials and feature top brand-name appliances in the building of our products. The result of this combination has been dramatically successful.

Springdale is one of the fastest growing brands in the recreational vehicle industry. In fact, an independent rating company has named Springdale as the best value in travel trailers and fifth wheels.

We invite you to see for yourself why customers keep coming back to Springdale. Thank you again for your interest in Springdale.

See you in the Great Outdoors!

General Manager

A tapered flush-floor slide-out system, extra-large dinette seats and table, and residential window treatment await you in this spacious Springdale travel trailer.

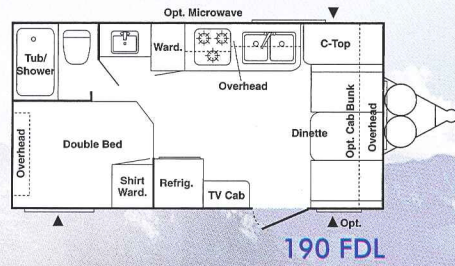

Features like this breakfast bar are usually found only in higher priced RV's. Notice the oversized real wood cabinet doors, solid wood drawer sides, abundance of countertop space, and the large, residential-size 21-inch oven.

Children love the special suite Springdale has created just for them. There's room for crafts or games, watching TV, or munching on snacks at the dinette, and there's plenty of storage for clothing, toys, and outdoor gear of all kinds.

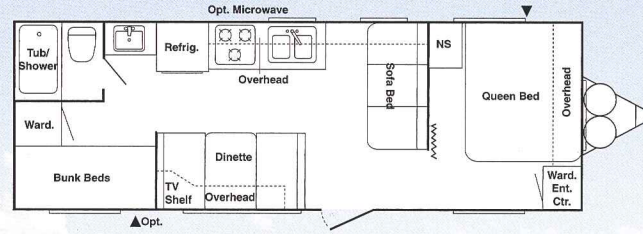

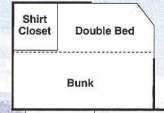

It's a way of life... **Springdale™**

Space Maker®

Our patented Space Maker® underfloor fresh water system provides a large-capacity fresh water tank located under the floor in a heated compartment. By removing the tank from the interior of the unit, useable storage space is greatly expanded. Space Maker's tank location also lowers the center of gravity, improving towability.
