Together With Family...
...Priceless Memories
Outback's interiors feature the ultimate expandable living space without the weight and the length to tow. (25RS-S shown above)

Outback's exclusive outdoor cook center is permanently attached and opens with ease. A built-in cutting board/counter and flip-out towel bar alongside the stovetop will expand your cooking area.
Outback’s exterior design with the enclosed underbelly creates less air turbulence for easier towing.

Outback’s exclusive below-floor radiant heat ducts will extend your camping season and increase your interior storage space.

Not your typical RV microwave... it’s a residential style microwave, up to 8 inches lower than the standard, so it’s easier for you to reach and see what’s cooking.

This gorgeous kitchen will feel like home with its rich residential look; notice the raised panel cabinetry and the impressive storage capacity.
