"Built by People who know RVing"
Montana’s 3670 RL floor plan is the most open of all our interiors. Shown above in Desert Sunset, the 3670 RL glows with a traditional, yet spacious atmosphere. Extra tall recliners provide you with the perfect place to chat, watch television or take a little snooze. The “Spacemaker” free-standing dinette, shown at left, features a tabletop which slides forward and back on either side so it is easier to enter and leave the dining area. The elegant, single-pedestal design allows ample leg room under the table. You’ll find plenty of additional storage under the hinged seat cushions. Upon close observation, you will recognize the quality of this American-made dinette ensemble to be truly premium.
Move Up To Montana.

At Montana, we believe that, with the right inspiration, you can achieve greatness at most anything—even if it’s vacationing, adventuring or just relaxing. We’re inspired to build fifth wheels that will enable you to easily achieve all three.

To do this, we know we must build a fifth wheel that provides continuing pleasure over the long haul and in every aspect of the ownership experience. This has been our goal ever since we introduced the Montana.

Montana is the envy of the industry and the Number One choice in North America because we bring together concepts other manufacturers find mutually exclusive—convenience, comfort, quality, innovation and value—and offer it all to you in breathtaking floor plans and interior decors.

It’s easy to see why the Montana is the standard against which all other fifth wheels are measured.

Imagine the pleasure of this 5,100 BTU electric fireplace whenever you want to enjoy a touch of cozy warmth.
Quality.

A Montana's appearance speaks of class-leading style and comfort. But we are not satisfied with mere good looks. So, we build the Montana as tough and durable as it is beautiful. Realizing that the final quality of the Montana is a direct result of the quality of everything that goes into it, Montana's engineers analyze every component to ensure years of trouble-free usage.

Not everyone offers quality features like Total Surround™ aluminum framing, all-steel drawer guides complete with roller ball bearings or real wood trim moldings. Other manufacturers find it easier to talk about quality than to create it. Montana's Old World craftsmen are the finest in the industry and continually strive to provide a level of "fit-and-finish" second to none. Your piece of mind is assured because you are purchasing an RV worthy of its established reputation for quality.
Towability.

Montana is the finest towing fifth wheel on the market. The reasons are clear and simple — First, lightweight aluminum framing lowers the center of gravity, minimizing sway. Next, the Montana is engineered with great weight distribution. (We even separate the LP bottles to spread the load.) Further, Montana's front cap maximizes aerodynamics. The "end point" of the cap sits lower than the top of the truck cab. This strategic design forces air to flow over and around the fifth wheel instead of under it. Better aerodynamics result in less sway, stress-free towing and increased fuel economy.

Floorplans.

Visit the Montana Owners' Club website, independently created and maintained by Montana fifth wheel owners, at www.montanaowners.com.
Many Fifth Wheel brands claim to be aluminum framed, but to cut costs, most manufacturers use wood framed floors and roofs. At Montana, that’s not the case. We build 100% aluminum framing all the way around — in the walls, roof and floor. In addition, for added strength and smoother exterior finish, our one-piece sidewalls are 2” thick and laminated! Check out the difference. You’ll be impressed.

1 Hi-gloss fiberglass option will add approximately 600 lbs.
2 Extended hitch pin adds 9"

GVWR = Gross Dry Weight + Carrying Capacity

Due to continuous product improvement, modifications may be made without prior notification or obligation. Specifications are calculated as base unit with standard equipment only.
Comfort.

Your level of joy is directly proportional to your level of comfort. That’s why Montana pays so much attention to providing comfort. Extra tall slide rooms and 6’5” of height entering the bedroom suite allow ample head room. High-back recliners and queen-sized sofas invite you to relax.

More examples of comfort-focused amenities include big, fully vented windows, residential-grade carpeting and extra-thick queen-size mattresses covered with designer spreads and pillow shams. The result—your sanctuary from the cares of the world is created.

Style.

Three fashionable color schemes form the foundation for Montana’s carefully coordinated room decors. Beautiful drapery and upholstery fabrics, designer hardware, fashionable window treatments, walls and countertops in the latest colors and materials—all contribute to Montana’s legendary style, setting your fifth wheel home apart from all others in a quiet but dramatic statement that says you’ve “arrived.”
The amazing 3685 FL front living room, shown here in the popular Merlot decor, features four slide rooms for the ultimate in livability. The matching 80-inch king-size sofas allow for plenty of space to converse with friends. A 25-inch television fits snugly in the front entertainment center and is connected to a DVD player with 5.1 surround sound for a truly residential video and audio experience.

Convenience.

At Montana, brilliant ergonomics are a trademark to be found literally at every turn. Veteran travelers instantly recognize RV-friendly features such as a computer work station with data port, Freezeguard™️ winterizing system and E-Z Lube wheels. An abundance of more subtle conveniences like a cell phone holder with charging station, plate-depth overhead cabinets and a rechargeable flashlight exist to increase your relaxation.

Our designers have also examined every detail to offer maximum storage and utilization of space. Pull-out pantry drawers, a multi-level Lazy Susan, the “Spacemaker” dinette group and a sliding waste container are just a few examples of the ease of use which is synonymous with all Montana fifth wheels.
Construction.

Roof (R-14)†
1. One-Piece EPDM Rubber Roof
   Membrane with 12-Year Warranty
2. Aluminum Radius Roof Transition Molding
3. 3/8" Structurewood Roof Decking with
   25-Year Warranty
4. 5" Welded Aluminum Truss Rafters
   on 16" Centers
5. Fiberglass Insulation
6. Ceiling Decking
7. Vinyl Ceiling
8. Insulated, Foam-Core Air Conditioning Duct
9. Attic Vent
† When Equipped with “Arctic Insulation Package”

Light
But Strong.

Montana’s state-of-the-art
laminated and layered sidewall
construction creates a lighter yet stronger
wall than you’ll find in any comparable fifth
wheel. Inside this amazingly sturdy wall, solid foam insulation provides year-round comfort with higher
insulation factors while also reducing outside noise. And, solid foam will not lose its efficiency through settling in your sidewall
(unlike fiberglass insulation).

Montana Exterior Details.

The detachable marine power
cord is safe, easy to use and
completely sealed.

You’ll provide easy, safe entry
for everyone with our low first
step and folding handrail.

Dexter E-Z-Lube™ axles can be
lubricated without removing
the wheel.

Attic vents provide vital escape
routes for unwanted moisture that
can accumulate with extended use.

Enclosed, protected sewer dump
valves are one of many details in
the hidden areas of your Montana.
Sidewalls (R-9)
10. Gel-Coated Filon™ Fiberglass
11. 1/8” Luan Board
12. Second Layer 1/8” Luan Board with Seams Staggered
13. Solid Block Insulating Foam
14. Interior Decorator Board
15. 2” Welded Aluminum Wall Studs
16. Electro-Galvanized Sheet (EGS) Metal Backing Strips
17. Radius Corner Blocks
18. Extended Hitchpin

Floor (R-21)
1. 10” Steel “Rolled” I-Beam
2. 3” Welded Aluminum Floor Joists on 16” Centers
3. 3” Large-Capacity Heat Duct
4. 1/4” ABS Underbelly
5. Astro-Foil Insulation (97% Heat Reflection)
6. Full Radius Wrap Aluminum Enclosure
7. Moisture Barrier
8. Fiberglass Insulation
9. 5/8” Seamless, Struct:urewood Floor Decking with 25-Year Warranty
