You don’t have to settle...
GREETINGS,

By utilizing our customer’s wants, needs and desires as the foundation of our design, Sprinter has quickly become one of the top selling brands in America.

Customers have returned time and time again to Sprinter, because of Sprinter’s higher value, innovative floorplans, and an array of features and amenities that were previously offered exclusively in high-line products.

Simply put, Sprinter offers more value for your dollar than any other brand in the recreational vehicle industry. As styles change and technology advances, we work to continuously make Sprinter the most comfortable and convenient RV on the road. We invite you to join the tens of thousands of satisfied Sprinter owners.

See you in the Great Outdoors.

Group V.P.
General Manager

Above, Sprinter’s 299 RLS floor plan in the popular Cranberry color scheme shows its comfortable, extra-large slideout room. For 2004, all Sprinter interiors feature “Satin Nickel,” silver-colored door handles, hinges, and trim on lighting fixtures and clock. Notice the hardwood raised panel, cathedral-style overhead cabinets, the soft lines of the residential quality upholstery, the designer window treatments, and the attention to detail in the entertainment center cabinetry. Another feature of all Sprinter slideouts—both 12-volt and 110-volt lighting—allows you to camp wherever you want to go, and not be left in the dark.
The 292 Sprinter fifth wheel interior has been redesigned for 2004, shown here in beautiful Coastal Mist, accented with silvery Satin Nickel door handles with matching Satin Nickel trims on lighting fixtures and the wall clock. With this floor plan, you'll relax in swivel rockers while you gaze through the panoramic rear window to enjoy unobstructed, breathtaking views of your travels. The warm, rich, oak-finished cabinetry includes overheads at the rear and in the double slideout area, an example of how the easy-access storage (throughout your Sprinter) provides convenience while permitting an uncluttered, spacious environment. The look of today is further enhanced by upgraded carpeting and floor covering for 2004.
For those who prefer a smaller, lighter unit, we offer the 2004 Sprinter E-Z Tow in lengths under 28 feet. The E-Z tow offers you all the quality, interior styling and convenience of our longer Sprinters, but it is lighter and also includes a sloped front-end profile to improve aerodynamics. The results—great space and style with E-Z towability. The name says it all.

*Gross Dry Weight does not include options or fluids.
Our residential 60/40 Silver Nickel sink with matching high-spout faucet, so convenient for easy meal preparation and clean-up.

The residential look of Sprinter's stylish camelback sofa is in keeping with the latest home furnishing trends. Optionally, the sofa is available as a Hide-a-Bed.*

Every Sprinter includes a coat rack conveniently located near the entrance door. Touches like these in every corner of your Sprinter show you that we care about your comfort and convenience.

Lazy Susan maximizes interior cabinet storage and provides easier access to all your supplies. Saves you time, too.

*Available on most models.

SPRINTER OFFERS TRAVEL TRAILERS OR HIGH- OR MID-PROFILE FIFTH WHEELS WITH A VARIETY OF CONSTRUCTION CHOICES. THERE’S A SPRINTER FOR EVERY BUDGET, EVERY LIFE STYLE.

The Sprinter 293 FWLS Fifth Wheel features a bedroom slideout with the bathroom on the same level, creating a spacious Master Suite. The Silver Nickel fixtures and sink, the garden shower and the private compartment for the commode all add to the luxury of this double-slideout floor plan. A generously deep closet with mirrored doors and a deep-drawer chest are among the many other features of the Master Suite.

SPRINTER "LA"
LAMINATED, ALUMINUM-FRAMED SIDEWALLS

Teamed with Sprinter's stylish, aerodynamic exterior design—strength, light weight, maximum towability, and unprecedented style—all at a price you can afford.

Now standard on all high-profile fifth wheels, and optional on all mid-profile Fifth wheels*

* Mid-Profile Sprinters also available with conventional construction.

**LA DELIVERS**

Construction previously found only in much higher priced fifth wheels.

Exterior design utilizing the latest technology in wind resistance, engineered for maximum ease of handling.

Advanced Sprinter 6-layer sidewalls for a well-insulated, yet lightweight fifth wheel with uncompromised structural integrity.

**LA DELIVERS**

Fully welded aluminum sidewalls, light, yet rugged, strong and stable.
Sprinter's nicely concealed laundry chute sends clothes to the convenient laundry basket below.

Features like this folding grab handle, available on all Sprinter fifth wheels, show the careful attention to detail you find on every Sprinter, inside and out.

Note - Some floor plans do not accommodate all of these features
High-Profile Fifth Wheels Feature LA Construction (Laminated, Aluminum-Framed Sidewalls)

INNER FEATURES
TRAVEL TRAILERS AND FIFTH WHEELS

Sprinter's conventional Travel Trailers and Fifth Wheels utilize Alumi-Guard™, our exclusive building technique. Alumi-Guard™ places aluminum in the critical areas of construction—around doors and exterior storage compartments, providing the protection that only aluminum can offer. Alumi-Guard™ extends the life of your Sprinter by protecting these areas from the damaging effects of moisture. Alumi-Guard™ is offered on all Sprinter products at the same price point our competition offers for wood alone!

Look for the Space Maker™ Seal on every Sprinter product. It is your assurance that your Sprinter is equipped with our exclusive under-floor fresh water storage system. Saves space, resists freezing, enhances towability, and provides extra fresh-water capacity.
CONSTRUCTION
BUILT WITH INTEGRITY... from the inside out

- Cambered steel frame with extra supporting outriggers under every Sprinter RV.
- One-piece, seamless, 5/8" floor deck with a 25-yr. mfr.'s warranty.
- Rubber roof (12-yr. mfr.'s warranty) rolled over side and rear walls to eliminate seams and prevent potential leaks.
- Fully-decked roof on trussed rafters, a full 5" thick, providing an R-11 insulation rating.
- Easy-opening entry steps with extra-low first step.
- Taller, wider entry door, radius corners.
- Outside storage doors.

Sprinter VALUE

Sprinter value happens because we focus on the manufacturing process. We put the dollars that many companies spend on large advertising campaigns, executive benefits, and costly office complexes into improving our products. We also strive to increase our manufacturing efficiencies while maintaining high quality. We achieve this high level of quality by employing a workforce from a community which still values craftsmanship. Finally, we listen to our Sprinter customers across the country. We learned a long time ago that great ideas come from the people who use our products daily. We appreciate and value this input and have implemented many of these ideas into our products.

The result of these efforts has been dramatic. Sprinter recreational vehicles are now seen everywhere—on the Interstates, on the Trans-Canadian Highway, from the Rockies to the Everglades, in just about any camping resort or national park you enter in the U.S. or Canada. We welcome you to join the Sprinter family of travel trailers and fifth wheels, where quality, comfort, and function meet.

Keystone RV Company
17400 Hackberry Drive  Goshen, Indiana 46526
(574) 535-2100  www.keystone-sprinter.com

Your Sprinter Dealer:

Sprinter bunk models offer you unprecedented ease of access and storage capacities. Look how our Outdoor & More™ storage, * shown here, has ample room for both parent's and kid's bikes. Or, take along a tent, barbecue grill or other oversize equipment. Outdoor & More offers 60 cu.ft. of space. *available on most bunk models

Welded aluminum supports in all raised-bath fifth wheel decks provide strength and rigidity in all critical high-stress areas.

With Space-Maker™ useable storage space is greatly expanded by removing the fresh water tank from the interior of the unit. The Space Maker's location also lowers the center of gravity, improving towability. The heated compartment gives you added protection when cold-climate camping.
