Expect More and Sacrifice Nothing

LEADING THE WAY FROM DAY ONE...

Cougar's Enclosed Radiant-Heated Underbelly

With its streamlined front cap, radius corners, and enclosed underbelly, Cougar's aerodynamic exterior design substantially reduces air turbulence, increasing stability and mileage during travel.

WEST COAST PRODUCTION

Cougar has strategically produced travel trailers and fifth wheels out west in Oregon, which means high quality 1/2 Ton Series are built specifically for west coast customers by west coast production workers.

BIKE/STORAGE RACK & HARDWOOD CHERRY CABINET DOORS

Another Cougar first: The rear storage rack provides a quick slide-away storage alternative. (N/A on certain floorplans)

With the new "Cougar Cherry" cabinet doors we were the first in our class to use true select grade cherry wood on all our doors and drawers.

Hitch Vision gives the fifth wheel user complete confidence to back up and align their truck to Cougar's extended hitch pin using only the built-in mirror for guidance. Dual automotive LED docking lights, which can be controlled by the E-Z Camp Cougar Remote, allow you to load or unload camping gear day or night.
