"BRAVE NEW LOOK" INSIDE WINNEBAGO

Our new CHIEFTAIN series is for those who demand the ultimate in luxury.

Take the best designed features of the No. 1 selling motor home in the world. Make 40 elegant additions like walnut woodgrain paneling, wedge brocade cushion fabric, and ultra-deep shag carpeting. Offer that carpeting and fabric in two coordinated colors like avocado and antique gold. Do all this and you have the new high-road, high fashioned addition to Winnebago's motor home line. We call it the CHIEFTAIN series and its available on Winnebago models—D22, D24, and D27. CHIEFTAIN the "brave new look" inside Winnebago.

CHIEFTAIN'S dinette area is highlighted with an embossed upholstered wall panel and tweed-woven nylon back cushions. Brocaded floral patterns used only in dinette seat cushions add elegant contrast to CHIEFTAIN'S dining area decor. Walnut woodgrain richness in cabinets and cupboards create color harmonies unsurpassed in recreation vehicle decor.

Green and gold antique marbles are two Marlite patterns selected for CHIEFTAIN showers. These patterns reflect the elegant hues selected throughout CHIEFTAINS. Rogue black embossed vinyl driver compartment walls and seats lead industry designers into new horizons of interior elegance.

Interior decor, however, is only one third of the CHIEFTAIN'S story. Radius cornered windows, rounded skirting, and other exterior changes refine the lines of every CHIEFTAIN.

Standard equipment on these homes also offer "Brave New" departures for the recreation vehicle industry. Listed below are just some of the standard equipment features on every CHIEFTAIN.

CHIEFTAIN is not just another motor home. It's a "brave new revolution". Years ahead of any other touring concept. Only the world's largest motor home manufacturer could economically provide this breakthrough in luxurious interior decor and added standard equipment. With Winnebago's reliable standard line of F17, D18, D22, D24, and D27 vehicles and the CHIEFTAIN series of D22, D24, and D27 you can now choose from a standard motor home package ranging from under $7,500 and up.
