

**Celebrate
Your
Independence
In A 1972
Winnebago**

**THE
MINI
WINNIE**

\$6995⁰⁰*

**A revolutionary way to go
the Winnebago route...
the D-18 MINI WINNIE**

Here's the perfect way to declare your independence. It's the all new D-18 BRAVE from Winnebago. We call the D-18 our "Mini-Winnie", but it's the biggest motor home buy you'll ever make. At a list price of just \$6995,* you won't find a bigger recreation vehicle buy anywhere.

Before you decide on a converted van or stripped down model, test drive the revolutionary "Mini-Winnie". We've built the D-18 on a heavy duty Dodge motor home chassis with dual rear wheels for road stability and load capacity. Yet, with a big 318 cubic inch V-8 engine, automatic transmission, power brakes, and power steering as standard equipment, you or the lady of the house will find the 18' 3" "Mini-Winnie" as easy to drive as the family station wagon. With full visibility of the road ahead, you'll travel with the peace of mind that only a vehicle designed and built as a motor home can provide. And you'll drive comfortably mile after mile. Winnebago's are engineered for highway travel; not short-haul delivery routes.

Inside, you'll find plenty of room. Room to move around. Room to relax and enjoy those weekend trips or those extended vacation tours. The functional D-18 BRAVE floor plan offers room for maximum liveability.

And dollar for dollar, check out our standard equipment features with those items you might get in a converted van or stripped down model. Your D-18 BRAVE motor home offers a complete galley with 3-burner stove, automatic oven with hood, and a big 4 cubic foot gas/electric refrigerator that makes preparing meals or snacks a real pleasure. The rear furnace provides 16,000 BTU's of thermostatically controlled forced air heating. You won't find hot spots that radiant heaters provide. And in the completely equipped rear bathroom, you'll find stool, wash basin, shower, and vent. On or off the road comfort has been designed and built right into this fully equipped, fully self-contained motor home.

The freedom and independence you've always wanted can be yours now. Buy our D-18 "Mini-Winnie" and you'll more than satisfy your recreation vehicle urge. Right now. And at a list price of only \$6995*, you won't find a bigger motor home bargain anywhere. But that's the kind of maximum value you'd expect from Winnebago—the world's largest manufacturer of recreation vehicles.

*Manufacturers suggested retail price FOB Forest City, Iowa.
