We're going places.
Ask us about the origin of the Itasca Motor Home name and we'll tell you how we got it where the Mississippi is tame.

When you put stylish coachwork, quality construction from Winnebago, and a smooth-riding chassis by Chevrolet all into an exciting new family of motor homes, you don't call them blivers or widgets. There are already plenty of those—gathering dust on used RV lots. Instead you call on the land and draw from its history and lore. That is, when your motor home bespeaks quality and a background of knowledge and experience.

Our name is from the mighty Mississippi. Specifically where it forms as an eager, narrow stream. That's Itasca State Park. In northern Minnesota. Land of lakes and the mouth of Ol' Man River.

Contemplating this mighty traveler—it's good times, people and places—we christened our motor home family with the site of its brave beginning.

For, although we've just begun, we have character behind us too. And we're going places, and making motor home living better, with the passing of each day.

Now there are three Itasca motor homes. Each with proven Thermo-Steel® construction and smooth, reliable Chevrolet chassis.

There's an elegant 27-footer featuring a big rear bedroom, special options and more—a sprightly 25 with livability and features galore... and a neat new 24-foot mini whose size, convenience and space make a nifty contradiction of the "mini motor home" term.

For traveling the big river road—or just out of town for a breath of fresh air—there's an Itasca that's just right for your plans, your needs, your budget.

Come. Let's look them over.

Thermo-Steel is a registered trademark of Winnebago Industries, Inc.
Itasca's biggest, most wide open way to see the wide open spaces in comfort.

Even on a cross-country trip over the back roads of America, you deserve the good life.

And that's exactly what the Itasca 27 serves up—from the big rear twin-bed sleeping area with vanity, entertainment center and wet bar all the way to one of the widest and handsomest dashboards on any motor home today.

And in between—space, space and more space surrounding goodies like a trip-size roomy wardrobe (and hamper to store soiled clothing neat and out of the way), complete bath and kitchen, comfort contoured dinette seating and just over 38 cubic feet of overhead cabinet space that can take just about everything you would ever want to pack.

And in case you haven't noticed in the floor plan on the right, the Itasca 27 partitions off conveniently for separate bed to bathroom privacy for family members or guests.

And here's another nice touch, usually found only on much more expensive motor homes—there's lighting at the floor line to save sore toes and shins and profanity in the dark.

We've touched on but a few highlights...you'll want to personally examine more. We're betting that the 27 will pass the test with flying Itasca colors.

You'll think you're in a motor home costing twice as much.

**SPECIFICATIONS:**
- Length: 27'/Width: 92''/Height: 10' 2"/
- Interior colors: Autumn Leaves or Summit Sky Color themes with color coordinated accents and vinyl paneling in rich hickory grain design/Exterior colors: Spinaker White with Mesa metal design, black anodized aluminum window trim and coordinated rub stripe/
- Estimated curbside weight: 11,200 lbs./Tires: 8.00 x 19.5D/6-ply front and rear duals/Sleeping capacity: 4 standard, 8 optional.
Smooth passage to the out-of-the-way spots or down to the beach to soak up some sun.

The bath is at the back on the Itasca 25. And what a bath it is.

Dress in privacy after a steamy, refreshing shower... or belt out a few bars of Ol’ Man River while relaxing in the tub. With a wardrobe right there where you need it, the family will relax a bit too... without the fear of a family streaker should guests come into view.

Speaking of guests, take a look at the great conversation area you've got in the Itasca 25. And there's special livability and dinette options to add even more flexibility to this super wide-open plan.

And on the road to the beach... or that cozy, secluded spot... the 25's suspension gives you some of the best handling going for going places and seeing America and enjoying the ride every mile of the way.

Discover for yourself the wonders of the Itasca 25. Your dealer has guided tours available daily.

SPECIFICATIONS: Length: 25' / Width: 92” / Height: 10' 2” / Interior colors: Autumn Leaves or Summer Sky color themes with color coordinated accents and vinyl paneling in rich hickory grain design / Exterior colors: Spinnaker White with Mesa metal Design, black anodized aluminum window trim and coordinated rub stripe / Estimated curbside wet weight: 9,500 lbs. / Tires: 7.50 x 16D, 8-ply front and rear duals / Sleeping capacity: 5 standard, 7 optional.
Wow! This is a mini motor home. We can’t help but get excited about the new Itasca 24.

In fact, this bigger and better new van type motor home is just liable to start a gushing epidemic.

For Itasca has blended the driving ease and convenience of a van with the space, livability and comfort of a full-size motor home. And the Itasca 24 sells for a lot less money.

Sure, it looks sleek in our full-color photos. But it looks even better when you see it in person.

That beautiful cockpit, for example. Open up the slider bunk over the cab and you can literally stand up in the seat. Rest your soft drinks in the handy beverage tray and take off without spilling a drop.

Mini convenience. Maxi space. The Itasca 24. You’ve got as much counter top space as many “luxury” motor homes. Plus drawers and more drawers and a pantry to boot.

Not many van types or minis can include space for that.

Nor can many motor homes of this type give you the same generous storage space, the same wide-open living area. The same total package of conveniences that makes this one so special.
Load it up...it doesn't load down...and seek your adventure wherever it's found.

With an 11,000 pound GVW chassis, the Itasca 24 can pack more weight than any motor home of its type.

And when you reach your special landmark, mountain, river or park, live it up in comfort in living space abundant. With everything arranged neatly around you in just the right way, just the right place.

Closely study the floor plan and you'll see what we mean. And you'll begin to see why we're so gushy.

Optional entertainment table on the Itasca 24 folds down and out of the way when not in use.

**SPECIFICATIONS:**
- **Length:** 24' 8"
- **Width:** 92"
- **Height:** 9' 8"

Safety

☐ Fire extinguisher
☐ Tinted safety glass windshield and windows
☐ Inside rearview mirror
☐ Outside door assist handle, step light and folding entrance step
☐ Automotive double safety door latch with bolt lock for added security and added safety for young children when vehicle is in motion
☐ Quick release rear window
☐ Mud flaps

Thermo-Steel* construction incorporating hat channel steel ensures maximum strength and safety plus temperature and sound insulation.

Itasca's Chevrolet chassis gives you a smooth ride on a bumpy country road or an interstate highway.

Automotive

☐ 350 cubic-inch Chevrolet V-8 engine—Itasca 25 and 24; 454 cubic-inch Chevrolet V-8 engine—Itasca 27
☐ Turbo Hydramatic 3-speed transmission
☐ Power steering
☐ Power brakes with power front disc
☐ Aluminized emission control dual exhaust system (Itasca 25 and 27); single exhaust
☐ Itasca 24
☐ 80 Amp automotive battery and auxiliary 70 Amp battery
☐ 50-gallon gas tank with gauge
☐ Heavy-duty Delcotron—61 Amp alternator system
☐ Convenient front access to water and oil fills
☐ Adjustable defroster vents
☐ Automotive heater
☐ Hydraulic jack and wheel wrench
☐ Windshield washer and wiper
☐ Spare wheel, cover and carrier (cover and carrier optional on Itasca 24)
☐ Engine oil cooler
☐ Emergency parking brake
☐ RV thumpless tires

High energy ignition sends up to 85% hotter spark to the plugs for quicker, more positive engine start-ups in any kind of weather and more complete combustion of the fuel mixture for better economy.

Fully independent front suspension with heavy duty rated, computer selected coil springs helps soak up jolts and furnished a smooth ride. Front and rear stabilizer bars make driving easier by improving cornering and stability and resisting roll and sway. Adjustable suspension air cylinders inside front springs on Itasca 25 and 27 allow adjustment of ride capability and minimized "bottoming out" on large bumps or potholes.

Comfortilt steering wheel adjusts to six different positions for almost anybody's driving comfort.
