**The motor homes that launched
thousands of trips are still making
travel dreams come true.**

Chieftain and Brave ... the motor homes with the familiar shape and the well known quality and spaciousness inside. And they're the motor homes that have logged the lion's share of over one billion miles logged by satisfied Winnebago owners.

Chieftain owners give their motor homes strong loyalty. And so do those who choose the economical Brave. Because feature for feature, dollar for dollar, they're two of the best motor home buys of any motor home line.

Tour the innovative Brave and Chieftain floorplans featured on the back page of this brochure. Then check all that's standard. You'll be surprised how easily you and the model of your choice can take to the road.

Options, accessories to match your family's fun.

Exceptional features, innovative floorplans, and a Homeowners Plan to protect your Brave or Chieftain.

Only Winnebago offers this comprehensive package of protection that follows your Brave or Chieftain wherever you travel.

A security network of over 300 service centers across the country to let you travel with peace of mind ... a safety program to assure structural integrity of your motor home ... higher resale value. All this and more is included in the Plan.

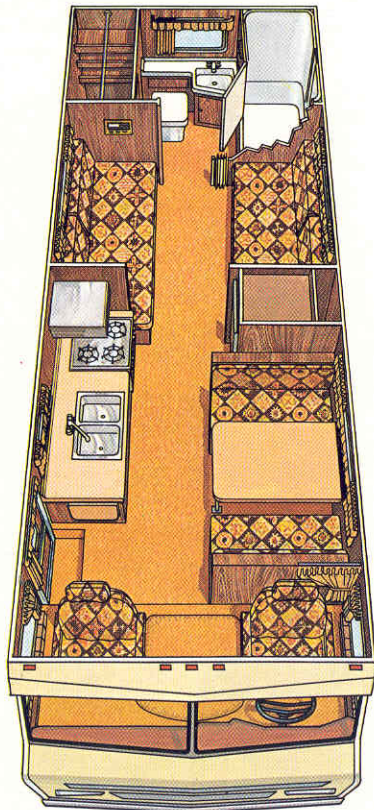

And certainly the warranty is another important part. We believe Winnebago's limited warranty is one of the best.

A common sense book to help you buy a motor home wisely ... Noted RV writer Ginny Ade has prepared a comprehensive guide to sensible and rewarding motor home buying. What to look for. What to avoid. How to evaluate and compare all that the manufacturer offers. It's available from Winnebago for \$1.95 to defray post-age and handling. Send your check or money order to Winnebago Industries, Inc., Consumer Information Services, 1909 East Cornell, Peoria, Illinois 61614.

It could be the best initial investment you make to insure years of uninterrupted motor home pleasure.
