

Built especially for you  
**Bunkhouse**  
by  
**Octasca®**

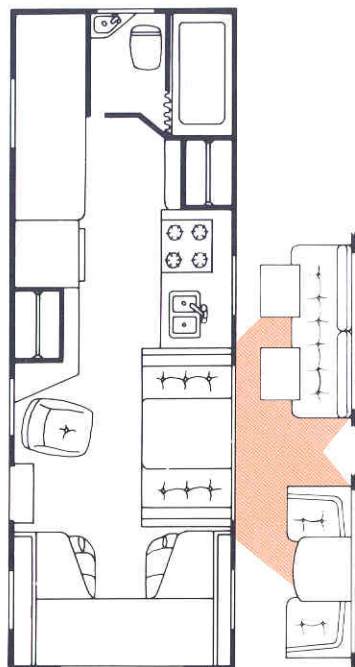

Away from the chores of a hectic workaday world, the 24 ft. Itasca Bunkhouse offers a mix of plush Western flair and affordable versatility.

A spacious, yet convenient, interior provides plenty of room to stretch out in the 24 foot Bunkhouse. A standard dinette combines with an optional convertible couch to give comfortable living. And bunk beds with unique individual windows will give tired cowpokes a private look at the world outside.

The Itasca Bunkhouse features a standard 360 cu. in. Dodge V-8 engine with an aluminized exhaust system for long life. Also standard, RV thumpless tires.

An open floor plan, full kitchen and bath, extra passage headroom and our famous Thermo-Steel® construction . . . all these features make the Bunkhouse an excellent value.
