

Phasar

Is it a seco

nd car?

What would a BMW look like if it came with a kitchen?

Phasar.[®] From Itasca.

The new vehicle. Nimble and sporty. Roomy and plush. Perfectly at home on any city

street. Or headed down any highway, making a mountain out of a gallon of gas.

Phasar is small enough to be the family car. Big enough to be the company limo.

And it's guaranteed to be the most striking thing in line at the grocery store carry out.

Phasar is truly impressive in appearance. But more impressive in performance.

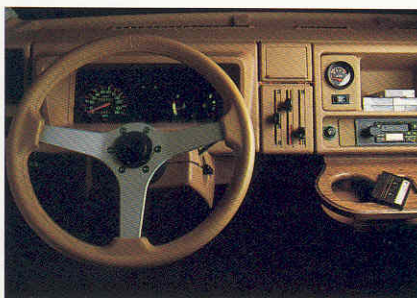

Take a look:

Electronic ignition. Rack and pinion power steering. Three microprocessors to control ignition timing, fuel/air mixture and shift points for the optional automatic transmission.

And more. McPherson strut suspension. Front wheel drive. Front disc brakes. Impressively low in both center of gravity and drag coefficient.

The Phasar 220DD (above and at left) is distinctive inside and out.

Plus a smooth five-speed transmission to coax every bit of zip from the 2.2 liter engine.

Even a unique brake system that "senses" weight load and balances braking capacity between front and rear.

In short, Phasar will satisfy all your driving ambitions.

Or a second

Phasar is for enjoyment. For entertaining. For making the most of your leisure time.

Buy Phasar as your second car. Get a second home free.

Phasar is a lake home. Vacation home. Home away from home.

It's also a portable party room. And a guest bedroom.

Phasar's interior design is nothing short of ingenious. In a space not much larger than a conventional van, Phasar brings you a fully equipped galley, dinette table, bathroom

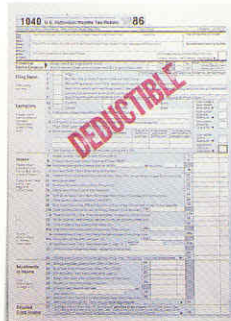

with shower, beds for four, lounge, wardrobe closet and even a 20,000 BTU forced air furnace.

It also has a split level floorplan. The dinette and cab—where you sit—are raised. The bathroom and galley—where you stand—are lowered. That may sound like a very simple idea. But it's also very shrewd.

Phasar won't cramp your style. It gives you a panorama of picture windows. It comforts you with lush fabrics and Dacron-wrapped cushions. And treats you to a host of luxury features as standard equipment.

If you've always wanted a lake home, here's your chance to drive a real bargain. Move into a Phasar.

Since Phasar qualifies as a second home, financing interest may be tax deductible.

nd home?

Phasar 220RD. Home on the road.

Or second

d to none?

Phasar is much more than a second car or a second home.

It's more like a seven day a week getaway vehicle. It's a whole new way of looking at driving. A better way to make the most of every weekend.

Unique, space-saving bath with shower.

Better than a car. Better than a van.

Phasar is built proudly by Winnebago Industries, the people who spread the RV lifestyle all across America.

So you know it's engineered for lasting performance and backed by a comprehensive warranty.

Phasar is constructed with a unitized steel cab and chassis—completely dipped in 22,000 gallon tanks of rust-proof and primer. Thermo-Panel® sidewalls and roof provide full insulation and fully tested structural integrity.

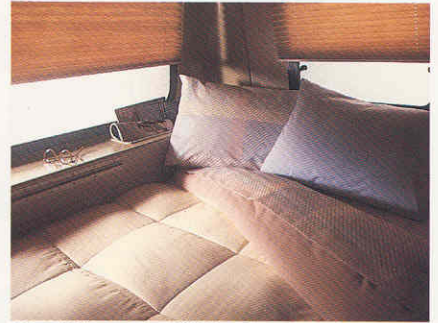

Which exemplifies how Phasar's beauty is more than skin deep.

And proves that Phasar is built to take it.

Anywhere you take it.

Lounge chairs are a bed in disguise.

Breakfast in bed? The dinette also converts into a comfortable double bed.

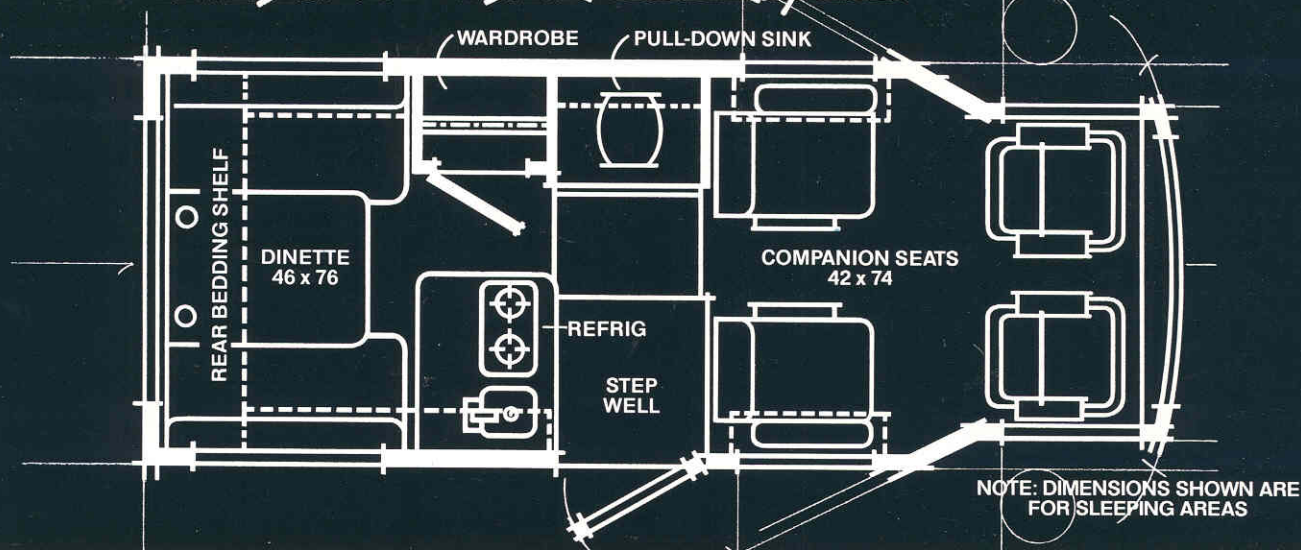

Phasar has plenty of handy storage space.

Deluxe control panel monitors systems.

Phasar 220RD offers well deserved luxury.

ITASCA PHASAR 220RD/DD
