

Itasca Windcruiser.

“Right after we renewed our vows

ws, she told me to hit the road.”

“Can you blame her? This is our first honey

moon suite in 25 years.”

With its stunning 40-degree windshield angle, velvet-smooth contours and sophisticated body design, it's no surprise motor homers all over the country all over the country are falling in love with the Itasca Windcruiser.[®]

Yet the reasons for buying Itasca's flagship motor home go far beyond its good looks. Windcruiser's design represents the latest advances in automotive aerodynamics, engineering and technology. There's more standard equipment and storage space than ever before. And the price is nearly half that of many comparable motor homes.

Gaze inside Windcruiser and you'll discover spacious rooms that are luxuriously appointed. Quality appliances and innovative conveniences. A panoramic windshield and extra-large windows for unsurpassed views. And an interior styling that bathes you in plushness and comfort.

As a driving machine, all five models are computer-balanced and deftly-sculptured to glide through the wind, making handling and steering a breeze.

Make a date to see all the Windcruisers at your local Itasca[®] dealer. It just might be the start of a lasting relationship.

Inside the Windcruiser: Itasca's ultimate statement in spaciousness, comfort, and interior design. 32RQ

Extra-large exterior storage compartments are carpeted, sealed, and lighted. 37RQ

Optional remote control TV/VCR includes oak cabinet and switching system.

Aerodynamic beauty sets the Windcruiser apart. 26ET and 32RQ

Posturepedic mattresses make sleeping a dream. 37RQ

Bathrooms are roomy and full of light. 37RQ

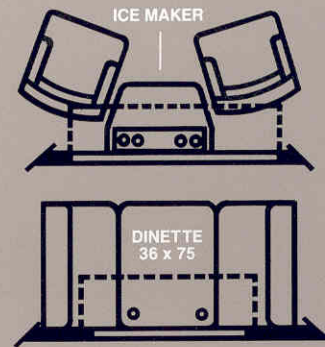

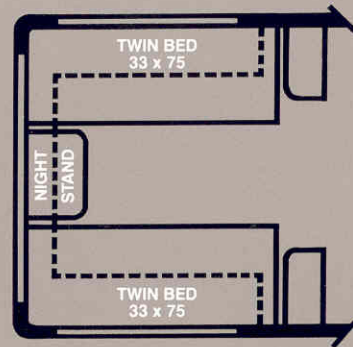

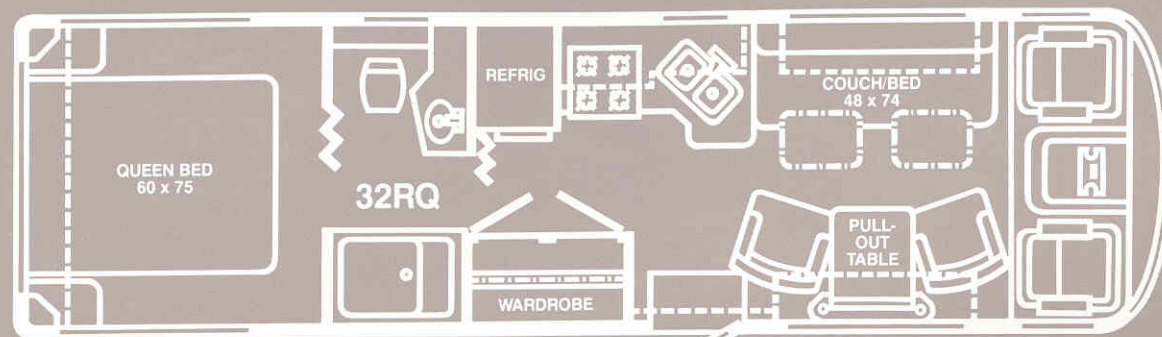

Optional rear TV monitor eases backing up.

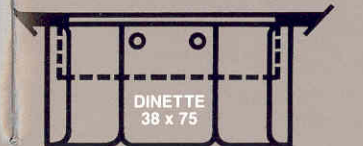

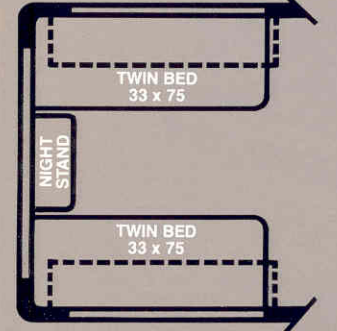

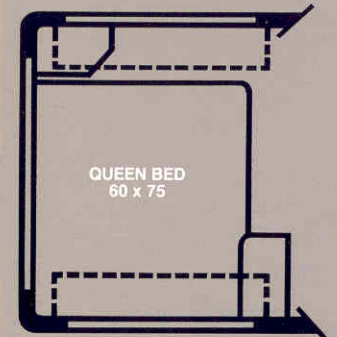

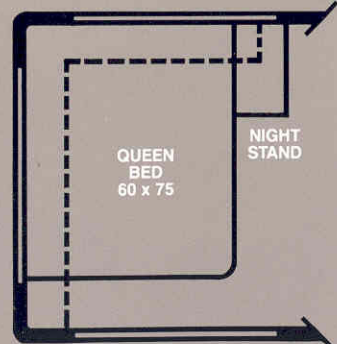

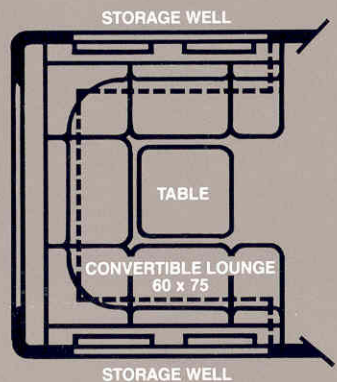

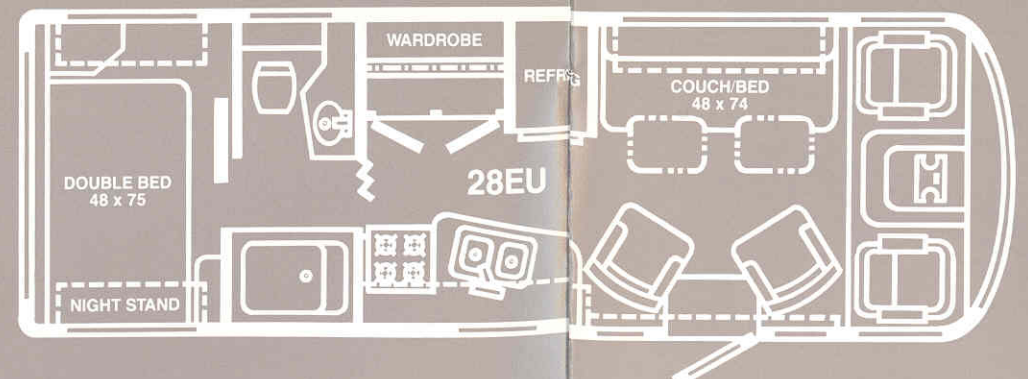

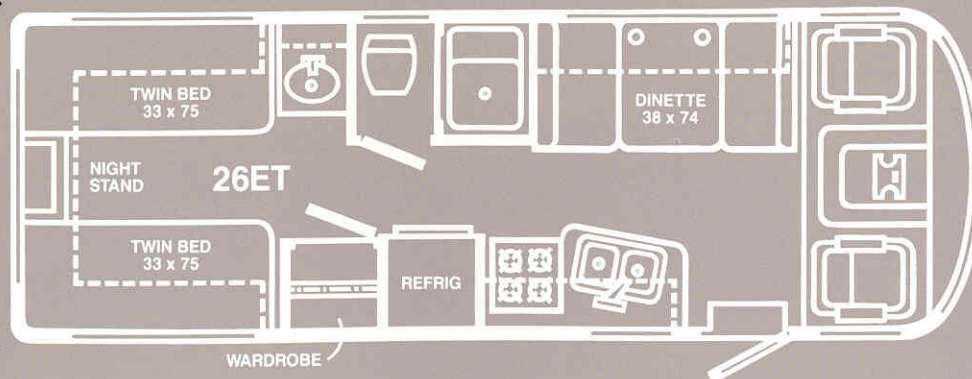

Electronic instrument panel is optional.

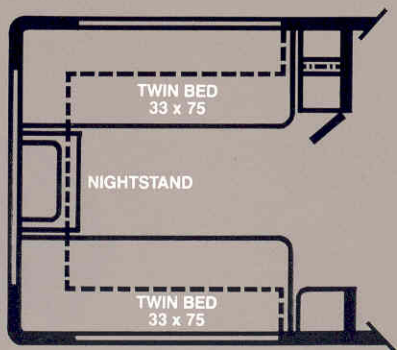

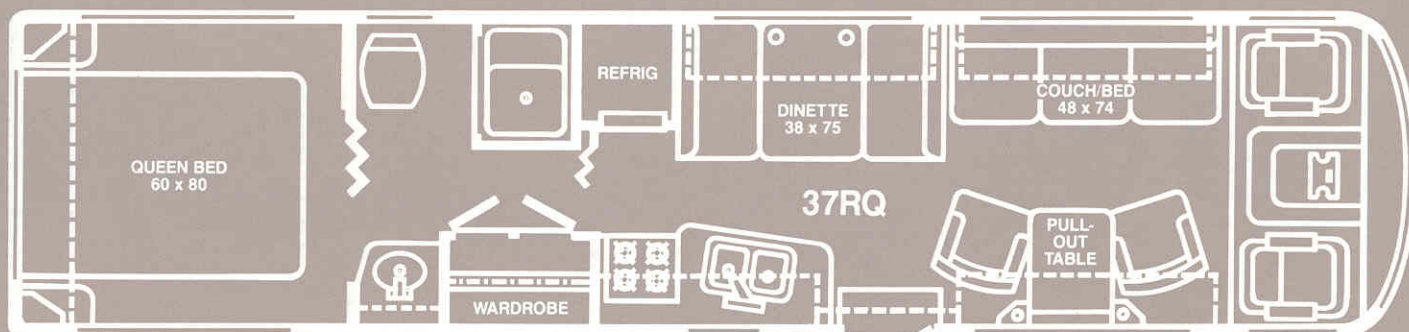

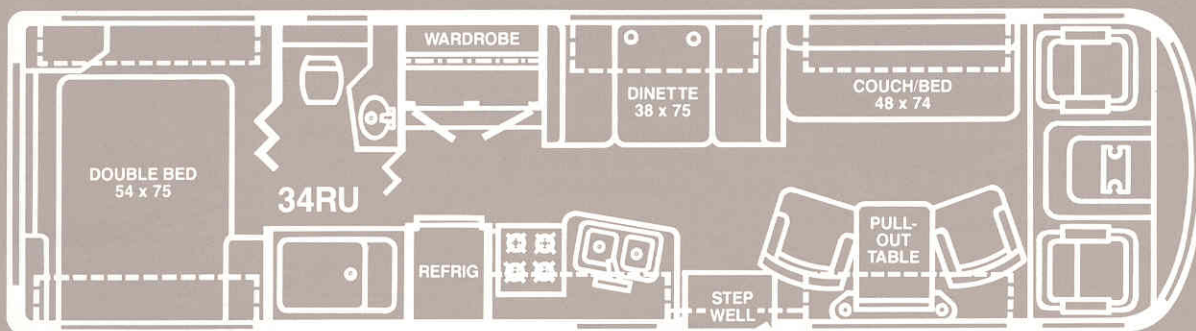

Galleys and dinettes are designed to offer versatility and easy access. 26ET

(NOTE: TABLES BY COUCH DELETED W/DINETTE OPTION)

Dimensions shown are for sleeping areas.

The crowned roof provides strength and excellent water runoff.

The safety glass windshield is mounted into a steel frame with non-hardening sealants.

Aerodynamic fairings integrate the side rearview mirrors into the body design.

The front floor and dash substructure are solid steel.

Steel front cab structure has a steel firewall.

Critical steel parts are cleansed with acid, rustproofed and painted.

Our Thermo-Panel sidewalls revolutionized the way RVs were built. They're light, tight and fully insulated; one-piece construction with Mende board fiberglass for better finish and stronger lamination.

Automotive styled cab doors for both driver and passenger.

Non-hardening sealant throughout.

Aluminum trim is electrostatically painted and baked for a smooth, lasting finish.

For added protection, your generator is encased in a steel compartment.

Reinforced dead-bolt lock on main entrance door.

Water tanks are seamless and are strategically positioned for even weight distribution.

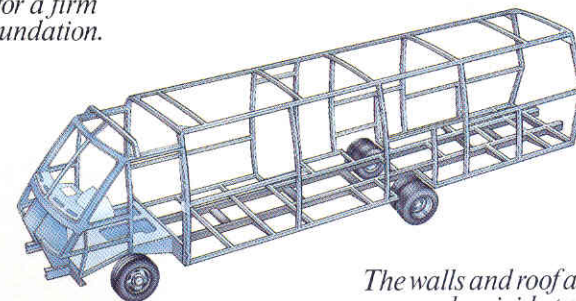

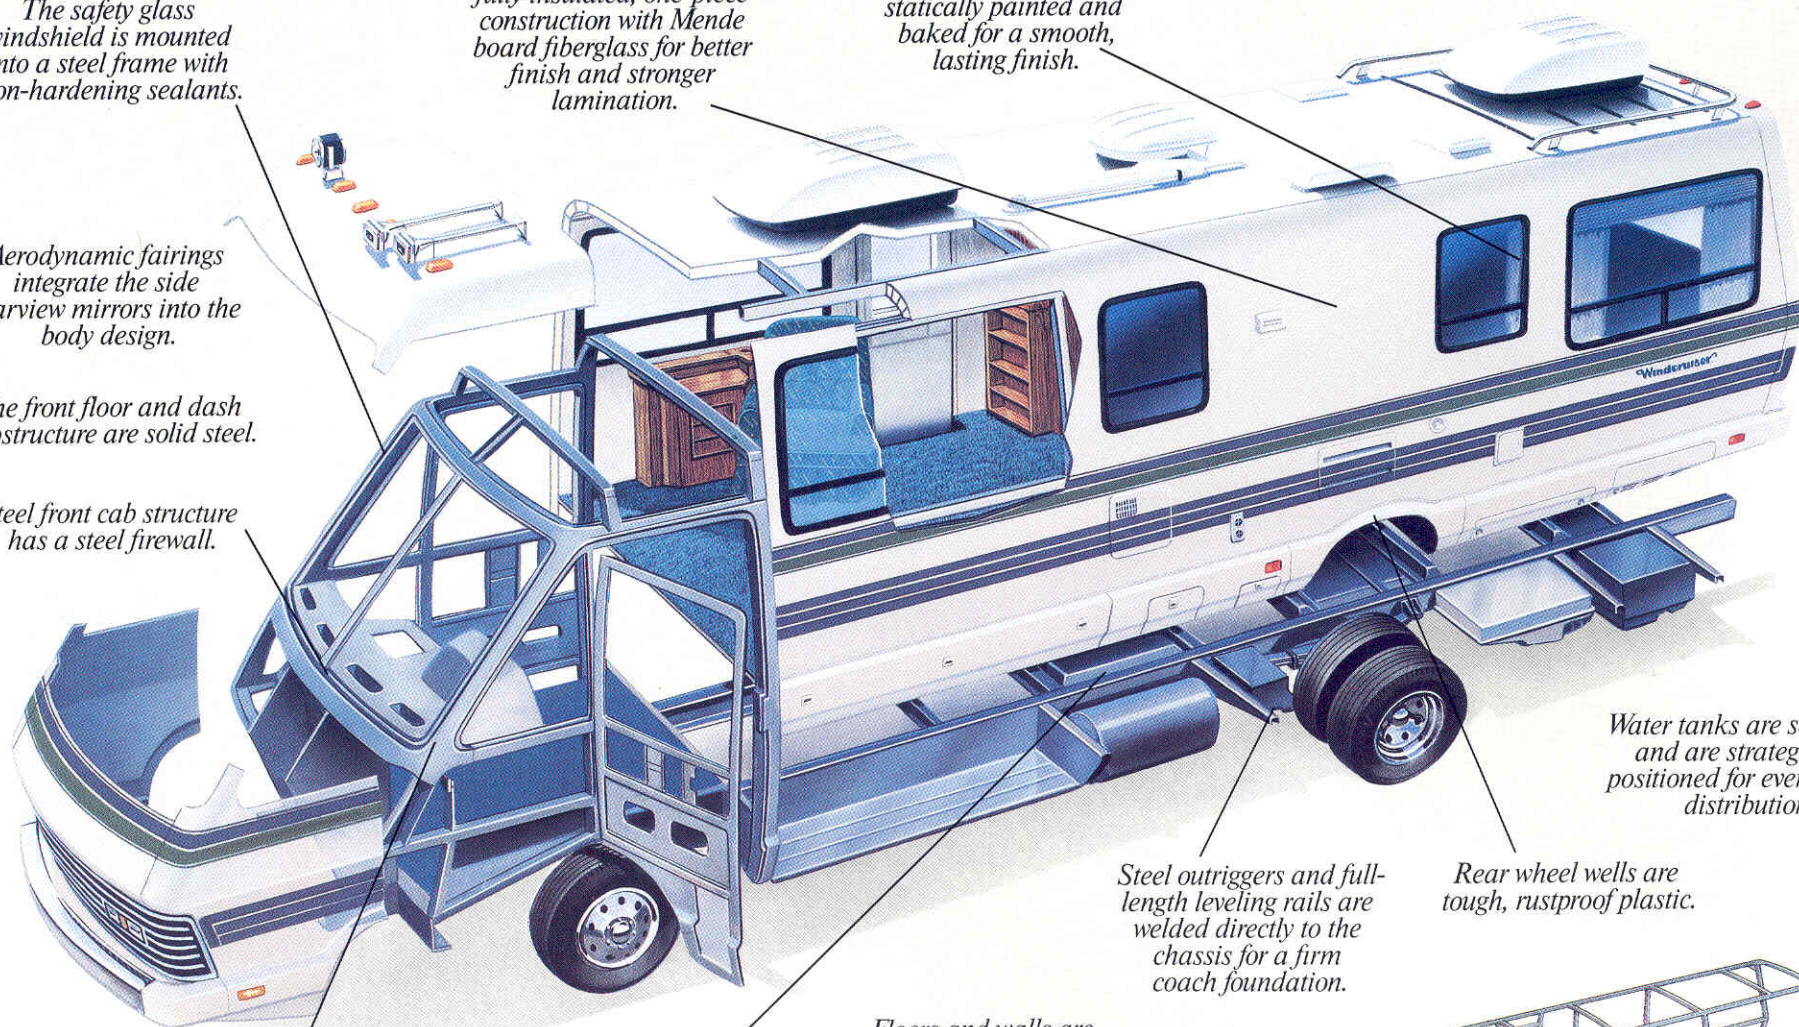

Steel outriggers and full-length leveling rails are welded directly to the chassis for a firm coach foundation.

Rear wheel wells are tough, rustproof plastic.

Floors and walls are connected solidly with our unique locking-joint construction.

Steel tie-downs hold appliances in place for added safety.

The walls and roof are built around a rigid structure of steel and aluminum.

#In Canada contact your dealer for availability.

*Not all standard features or options are available on all models. See your dealer for the availability of specific options.

Before you buy, shop around and compare Itasca motor homes to other brands. Look for details. Examine construction quality. Ask about manufacturing techniques. Learn what you can about safety and reliability. You'll find Itasca to be the best designed, best engineered, best built motor homes on the road today. Add it all up, and you'll also find Itasca to be the best valued.

Utilizing advanced computer technology, full sized mock-ups, rigorous testing, and years of manufacturing experience at Winnebago Industries' prestigious 60-acre production facility, Itasca motor homes are built to provide years of satisfaction. Each backed with a comprehensive limited warranty. And for those who prefer even greater coverage, we offer an optional Traveler's Protection Plan. Ask your dealer for details.

We listen to what motor homers have to say about Itasca. Then respond with new products and improvements. As a result, many features that were previously optional are now standard equipment. You'll also find a vast network of dealers across the U.S. and Canada ready to provide one-stop service if needed.*

And to make the Itasca motor homing experience even more pleasurable, every owner is invited to join the Winnebago-Itasca Travelers Club. You'll enjoy rallies and caravans, receive special services and discounts, and best of all, have the time of your life.

Simply put, when you choose Itasca, you're choosing the best that motor homing has to offer. And why not? You deserve it. *Chassis service must be performed at an authorized chassis service center.

Itasca
W Built Proudly By Winnebago Industries.
