

ITASCA PHASAR

Meet the motor home that handles the concrete jungle as well as it handles pine forests: the Itasca Phasar®.

Take the Phasar to the lake for the weekend. With sleeping space for four, a fully equipped galley, and a bathroom with shower, it certainly beats pitching a pup tent. And you never have to worry about a soaked sleeping bag.

Take some friends for a Sunday drive. The Phasar's MacPherson strut front suspension lets you tool through the curves like a sports car, while getting better gas mileage than some cars. The big windows let the scenery pour in. And if the scenery gets boring, you can always play cards or stretch out for a nap.

Take the Phasar out to the nearest shopping mall. You'll have no trouble fitting it into a parking slot. Or use it like a station wagon, to take the teeball team out for ice cream.

Whatever your needs, if you need a vehicle that thrives in a variety of habitats, the Itasca Phasar is your answer.

Efficient use of space makes Phasar a comfortable home away from home.

The sensibly laid-out dash includes an electronic tune/ signal-seeking AM/FM cassette stereo and a handy oak beverage tray.

Versatility: the companion seats convert easily into a double bed.

The dinette seats four by day and converts to a comfortable double bed at night.

Light, Durable And Fully Insulated Thermo Panel® Sidewalls Contain Extra-Thick Styrofoam® Insulation

Meets Or Exceeds All Applicable Federal, State And RVIA Safety Codes

Tinted And Screened Tip-Out Coach Windows

Stain Resistant Upholstery Fabrics And Carpeting

Integrated Bumpers

Extra-Wide, Heavy Duty Rear Axle

Light, Yet Strong, Structural Aluminum Body Framework

PVC Rockguard Coating Applied To Critical Surfaces

Seamless Rotocast Plastic Holding Tanks, Strategically Positioned For Even Weight Distribution

Front-Wheel Drive For Improved Efficiency, Handling And Ride

Power Assisted Rack And Pinion Steering

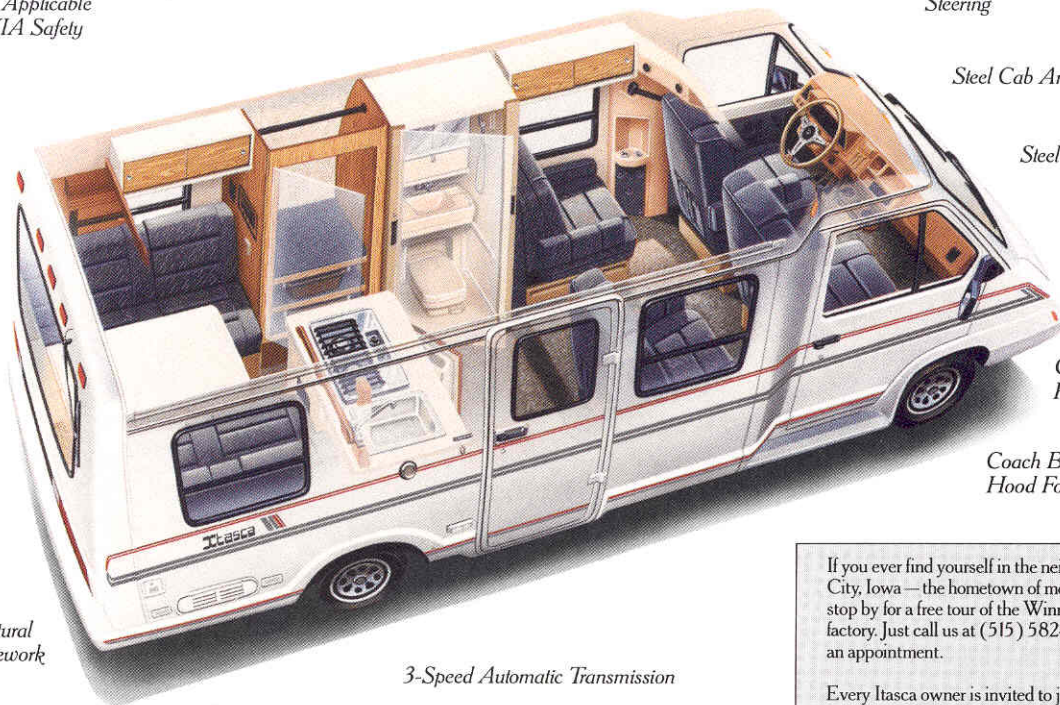

Steel Cab And Dash Substructure

Steel Mounted Windshield

MacPherson Strut Front Suspension

Cast Alloy Wheels And Radial Tires

Coach Battery Located Under Hood For Easier Access

3-Speed Automatic Transmission

Power Assisted Front-Disc/ Rear-Drum Brakes

Electrostatically Painted Aluminum Window And Door Trim

If you ever find yourself in the neighborhood of Forest City, Iowa — the hometown of motor homing — please stop by for a free tour of the Winnebago Industries factory. Just call us at (515) 582-6936 to set up an appointment.

Every Itasca owner is invited to join the Winnebago-Itasca Travelers Club. Members enjoy rallies and caravans, receive special discounts and services, make new friends and renew old acquaintances, and have the time of their lives. Which is what our brand of motor homing is all about. For more information, call us at (515) 582-6936.

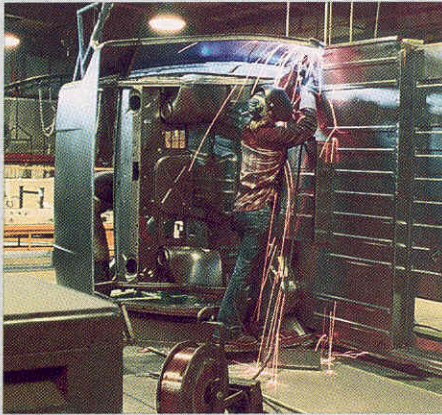

The complete galley features a sink, range-top and refrigerator.

The bathroom (complete with toilet, sink and shower) has unique pull-out walls to save space. Photo on right shows walls extended.

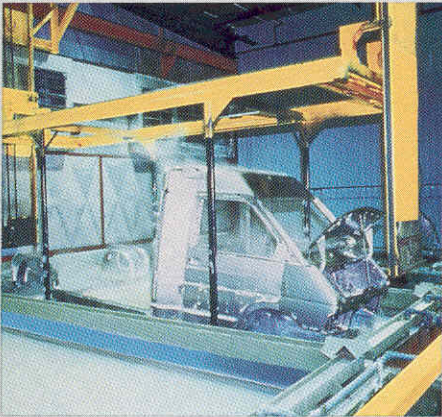

A large wardrobe and lots of overhead cabinets provide ample storage space.

Phasar has an all-steel, welded unibody frame and cab.

Phasar's unique front-wheel drivetrain is installed with a special elevated assembly line that allows the engine, transmission, and front suspension to be raised from below and put in place.

Winnebago Industries uses an electrodeposition painting process to apply the prime coat to the frame and cab. The resulting uniform coating of paint provides increased corrosion protection compared to conventional painting methods.

To simulate the ferocity of a thunderstorm, every Itasca motor home is subjected to an exterior water leak test in a tunnel filled with high-pressure spray nozzles.

Deluxe AM/FM Stereo w/Cassette
(Electronic Tune, Seek Function
w/Digital Clock)
Custom Steering Wheel
Rear Window Wiper/Washer

**3 YEAR/36,000
MILE WARRANTY:**

Phasar provides extensive warranty coverage. An initial 12 month/15,000 mile warranty covers everything but normal service and maintenance. When this expires, coverage on major items continues to three years or 36,000 miles, whichever occurs first.

This coverage, with a small deductible, includes major appliances, generator, roof air conditioner, engine air conditioner compressor, Thermo Panel® lamination, and drivetrain (engine, transmission, and front wheel drive system). See your dealer for more information on this extensive warranty.

Itasca's continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice.

Standard monitor panel indicates fresh water, holding and LP tank levels. A wall mounted thermostat controls the LP gas furnace.

The fiberglass rear cap hides the spare tire and includes additional storage space under a large window. The optional rear wiper is shown.

The optional 2500 watt Kohler Generator, with its own 8-gallon fuel tank, offers convenient power when a plug-in is not available.

Note: Dimensions shown are for sleeping space and dotted lines denote overhead storage.
