WINNEBAGO ELANDAN

THE BEST JUST GOT BETTER.

Every once in a while, a vehicle comes along that truly outclasses the competition in terms of style, luxury and value. In the motor home industry, that vehicle is the Winnebago Elandan®.

See for yourself. Elandan's sleek, aerodynamic design and dramatic new changes for '91 continue to set it apart. The streamlined profile, smoothly curved sidewalls and crowned roof are beautifully combined to give Elandan an unequaled style and grace. Inside, the elegance continues with rich hardwoods, softly coordinated fabrics and quality appointments that say this coach travels first class.

Elandan's most exciting new feature is a breakthrough storage compartment system that reinforces Elandan's position as the motor home design leader. Sturdy compartments with attached lids glide out from the lower exterior to make packing easier than ever before.

The nose has been restyled with a softly-sculpted new bumper, grille and headlight treatment. At the rear, a highly-functional new fiberglass cap houses electrical and fresh water centers, plus 10 cubic feet of additional storage.

Still the best looking motor home on the road. Elandan has more of the smooth, aerodynamic styling of an automobile than any other RV. Here you see the incredible new roll-out compartments in use — the hottest news in motor home storage for 1991. Stylish stainless steel wheel liners, optional on many motor homes, are standard on Elandan.

High-backed, leather-like driver and passenger seats add pure driving comfort to long hours on the road. The deluxe dash features automotive air conditioning, Sony AM/FM cassette stereo, built-in cassette storage drawers and rear-vision monitor. The 13" remote control color TV is located overhead for comfortable viewing.

Efficient fluorescent lighting lines Elandan's sound-absorbing, soft vinyl ceiling. Rich oak-doored cabinetry and woodwork are combined with the soft colors and textures of Winnebago's own specially-crafted furniture. And every Elandan is conveniently equipped with three phone jacks. Wood parquet galley flooring is an exquisite new standard feature.

Inside are some equally wonderful new design enhancements that help create an even more comfortable living environment.

An electrically telescoping passenger seat lowers to serve as a new front lounge chair. This frees space to allow the addition of a seven-foot long "gourmet" galley in the 37RQ.

For the 33RQ, the additional space means that all three of the most popular seating arrangements – a dinette, couch and lounge chairs with pull-up table are included. And the 37RQ bath has been upgraded with a new, glass-enclosed shower.

Elandan's unique automotive-style driver and passenger doors feature new power windows and locks. Also new this year is a handy remote control keyless entry system, popular on so many of today's luxury automobiles. It activates the door locks and porch light from inside or out.

Every picture tells a story, so read on and discover how there's more to Elandan's beauty than meets the eye. Why spend up to twice as much when you can have everything you want in an Elandan? One look, one test drive, one traveling experience in this luxurious motor home and you'll soon be repeating that well-worn phrase, "life just doesn't get any better than this."

The 37RQ features a new 7' gourmet galley with high-style Avonite® counter top. Glass panel door inserts add beauty to cupboards framing the galley window. A microwave/convection oven with turntable is also standard. And a pull-out pantry on the 37RQ, slide-out cutting board, trash container, plus dinette storage drawers provide more of the conveniences of home.

A mirrored medicine cabinet and make-up lights add bathroom beauty and convenience. You'll appreciate the large rectangular sink and the mirror-doored wardrobe closet conveniently located nearby.

Choose the queen-sized bed and you get center-island overhead storage, mirrored shirt wardrobes and matching night stands with reading lights. Add the relaxing sound of a deluxe AM/FM auto-reverse cassette stereo with alarm clock, headphone jack and digital display. Day/night pleated blinds and valance coordinate with the beautiful bedspread and pillow shams. A second generator switch is also conveniently located here.

The spacious 37RQ bath features a large, glass-enclosed shower with skylight. Folding divider doors provide bathroom privacy or, by opening the rear door, a spacious bath/bedroom suite. The porcelain marine toilet includes a spray cleaning attachment. A second water pump switch is an added step saver.

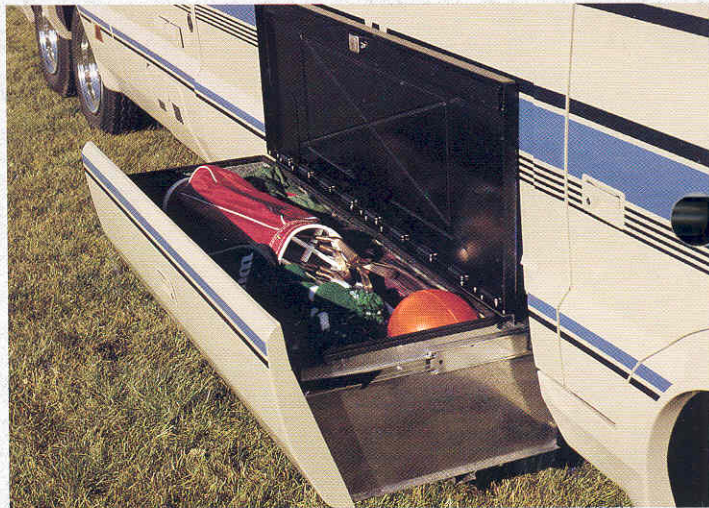

A handsome, overhead corner TV cabinet is new in the bedroom. It features a 9" remote control color TV with antenna, VCR and cable connections.

Elandan's handsome new front end features an aerodynamic grille and headlight combination. Pantographic windshield wipers provide greater efficiency in snow or rain. Like all Winnebago models, the safety glass windshield and the wipers are firmly attached to the steel cab structure, not to fiberglass like some competitors. A handy telescoping windshield squeegee is stored under the hood.

The talk of the industry for '91 is Elandan's innovative roll-out storage compartments. Each lockable section features a sturdy vacuum-formed ABS lid for added protection from the elements. An extra large compartment, located next to the side entry door, is deep enough to carry two sets of golf clubs and more. And each is fully lined with carpeting to absorb sound and protect your precious cargo in transit.

SPECIFICATIONS:

	33RQ	37RQ

*Not all standard features or options are available on all models. See your dealer for availability of specific options.

Winnebago's continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Some items shown may be extra-cost options.

Winnebago joins the roof, sidewalls and floor of the Elandan with an exclusive locking joint system (shown at right) that adds strength and durability. Elandan's cab, dash, driver and passenger door welded steel substructure is an industry exclusive. The safety glass windshield is firmly mounted in this steel structure with automotive grade adhesive. Steel substructure is used the full length and width of the coach to provide a strong foundation for the welded aluminum wall and roof structure.

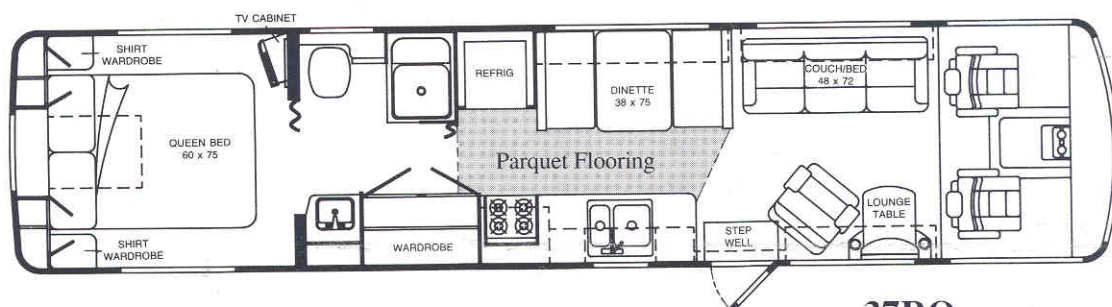

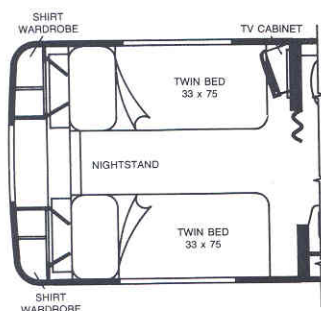

A MOTOR HOME CAN BE ANYTHING YOU WANT IT TO BE.

Can you do a better job by taking your product or service to people instead of waiting for them to come to you? In

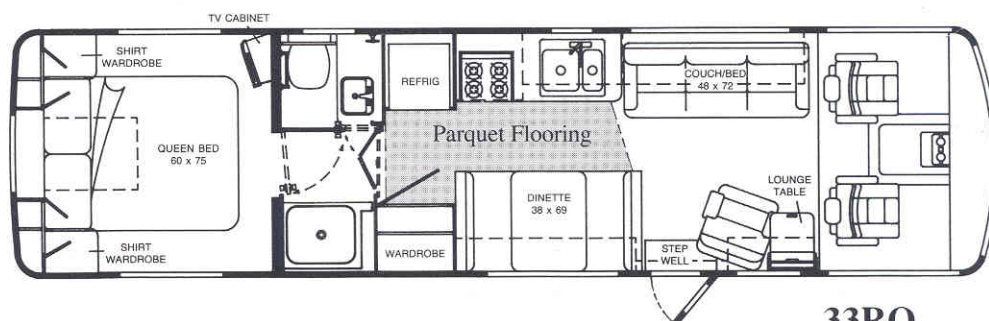

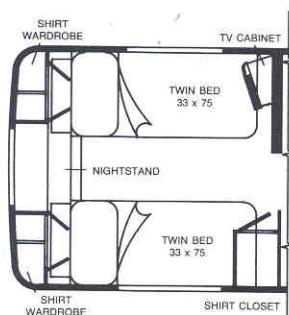

business, health services, education and government, Winnebago Industries Special Vehicles are serving as classrooms, showrooms, labs, mobile police stations and many other functions.

Elandan has a workhorse Special

Vehicle cousin that provides all the cockpit comforts, load carrying capacity and systems (heating, air conditioning, etc.) of a motor home while leaving the interior open to your custom designs. Ask your dealer for more information.
