# MICRO MINI SPIRIT

**“We never expected all this in our first motor home. The Micro Mini Spirit is a great place to start.”**

The 1991 Micro Mini Spirit allows you to travel in style at the lowest Itasca price.

It is built on a Toyota chassis, which features a fuel-injected V-6 engine, so it has plenty of power to get you where you want to go — plus the fuel efficiency to get you there economically.

And the new Micro Mini is large enough to offer all of the conveniences of a fully-equipped travel home, yet small enough to drive every day.

You'll see the beauty of the new Itasca Micro Mini Spirit the first time you're out on the road. And you'll appreciate its value and quality for many years to come.

Itasca quality shines through in the Micro Spirit's smooth, fiberglass sidewalls and large tinted windows.

Take in a perfect sunrise and sunset through the large picture windows located on each side of the new 321RB. Extra exterior appointments like integrated tail and running lights, rear bumper with dump hose storage and large storage compartment to the rear of the driver's door are all standard.

A four burner cooktop, available oven, single-door refrigerator/freezer, double stainless steel sink and new lighted and vented power range hood make up this efficient galley.

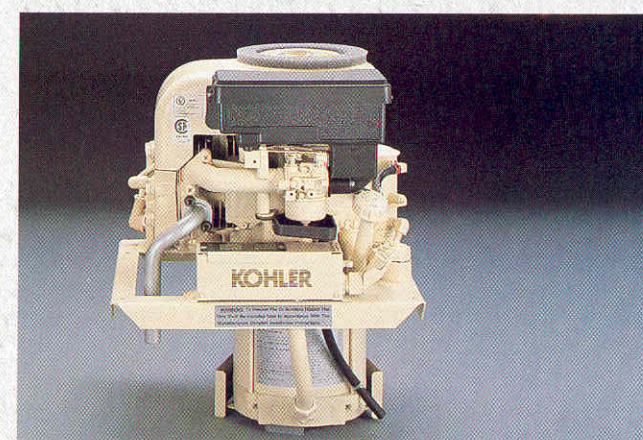

The cozy, efficient layout of the Micro Spirit maintains a nice open feel. The couch converts to a full-size bed and there are lots of overhead storage cabinets. The tasteful decor makes one feel right at home. Note the optional vinyl galley floor for easy maintenance.

Increased headroom is the latest addition to the overhead bed. A removable mattress cutout provides easier access to the driving area. Automotive air, power steering, cruise control, electronic-tune AM/FM cassette stereo and fabric-covered seats are all included at no extra charge.

The fully-equipped bathroom has everything the larger models have — a marine toilet, vanity with large sink, stand-up shower, medicine cabinet and wardrobe closet with mirrored door nearby.

A handy 2.5 KW power generator is optional. It provides the 110 volt power needed for television viewing and air conditioning when electrical hook-up is not available.

# FULL SIZE MINI SPIRIT

**“With a full size mini, we’ve got it all – including plenty of room to roam wherever the Spirit moves us.”**

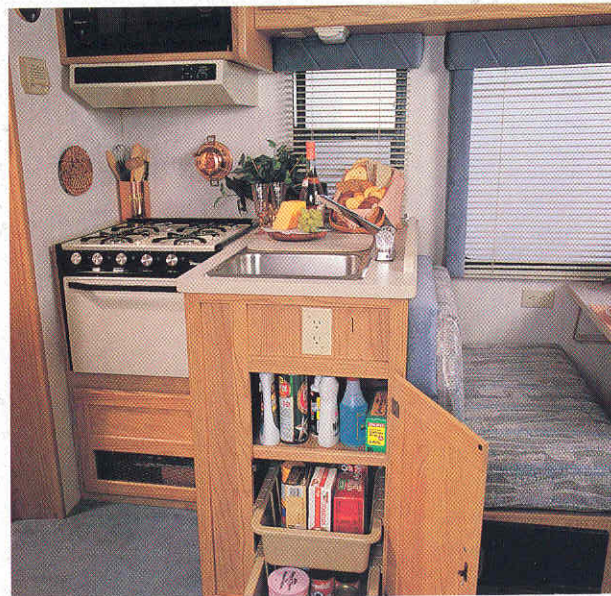

Don't let the low price tag on a 1991 Full Size Mini Spirit fool you. You're getting every bit of the comfort, convenience and style you'd expect from a quality-built Itasca motor home. And a lot of features you may not have expected as well.

Like plenty of interior and exterior storage space, a choice of four terrific floor plans and a list of standard items for which you'd pay extra in competitive motor homes.

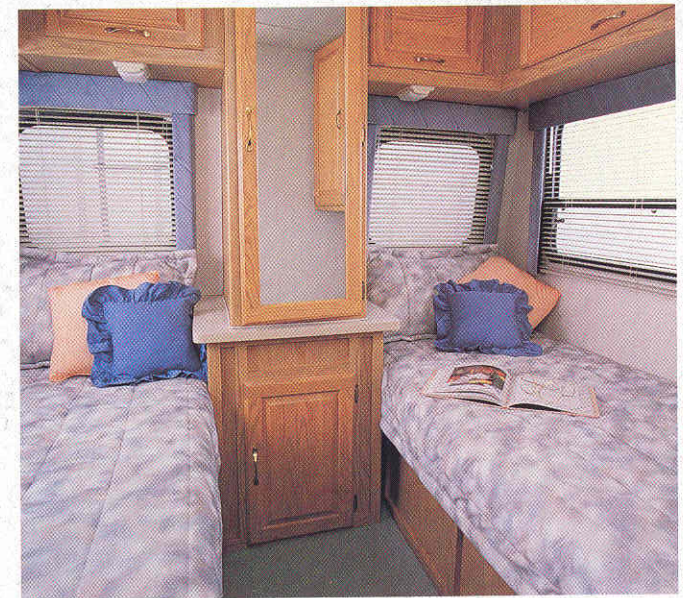

It just proves you can have it all with Itasca. Especially in a new Full Size Mini Spirit.

Smooth, fiberglass sidewalls grace the Full Size Spirit and show off its bold new graphics. There's extra headroom because of the flat roofline and loads of exterior accessible storage. New for '91 are tip-out windows to provide extra ventilation in the overhead sleeping area.

Preparing three squares a day is easy with a four-burner range and oven, double stainless steel sink and double-door refrigerator/freezer (single-door on 321RG). Plenty of storage is located above and below. A handy microwave oven and vinyl-covered flooring are optional.

Beautifully coordinated window coverings, bedspreads and pillow shams decorate the bedroom suite. A large wardrobe with solid oak-doored cabinetry is a real plus. Lift the beds for extra storage below. Some models feature lockable exterior access to this storage space.

The generous living space in all four of the Full Size Spirit floor plans is just what the avid traveler ordered. Soft colors and the rich oak-doored cabinetry add up to a very pleasing decor.

Standard features now include dependable radial tires, a spare with cover, chrome mirrors, wheel covers, and rear mud flaps. All around the exterior are abundant, easily accessible storage compartments.

A nifty alternative to the overhead queen-sized bed is a stylish new entertainment center featuring a 13" remote control color TV or TV/VCR, separate speakers and a single bed that slides out for occasional guest use.

Unlike the competition, Itasca includes as standard popular features like reclining/swivel chairs for driver and passenger, cruise control, carpeted cab with weather-proof rubber mats, in-dash air conditioning and electronic-tune AM/FM cassette stereo for pure driving comfort.

A specially designed cross-aisle bathroom for increased space is a great feature in the 327RT. A large sink, roomy shower, marine toilet, vanity and medicine cabinet storage are included in your home away from home.

Special galvanized-steel storage compartments are placed around Spirit's lower exterior. Unique lower-body panels also function as compartment doors. They have locking latches for security and hold-up brackets for easy loading.

# SUNDANCER

**“We wanted a full size mini with a little extra pizzazz. It’s called Sundancer.”**

If you’re looking for a full size mini that’s in a class by itself, you owe it to yourself to take a look at a 1991 Sundancer.

What you’ll see are super deluxe accommodations like fully padded carpeting, plush upholstery, oak-doored cabinetry, brass-tone fixtures and more.

Sundancer’s upgraded design is carried through on the outside, too, with striking new graphics, smooth sidewalls and fiberglass rear cap and front transition panels.

It’s really a one of a kind mini motor home with a style and grace all its own. And judging by your interest in a quality-built Itasca, a new Sundancer might be right up your alley.

Sundancer's smooth fiberglass sidewalls and new eye-catching graphics are signs of a real top-quality motor home. Also new for '91 are specially designed tip-out windows to allow fresh air into the overhead bed and bath areas.

The light and airy spaciousness of the Sundancer is a welcome sight. Rich upholstery, carpeting and solid oak-doored cabinetry are like no other mini motor home on the road.

Travel in comfort with reclining/swiveling chairs, cruise control, in-dash air and AM/FM cassette with four speakers. There's also an optional new entertainment center with several TV, VCR and inverter options.

Special upgraded appointments are found in the bathroom. Like brass-tone fixtures, spacious shower, great storage and room to spare. There's even a second water pump switch.

A touch of class is evident in the beautifully coordinated bedroom with matching window coverings, bedspread and pillow shams. Abundant storage comes in handy for longer jaunts away from home.

Sundancer's well-appointed galley features a four-burner stove and oven, double stainless steel sink and double-door refrigerator/freezer. Add an optional microwave and vinyl floor covering for even more convenience.

Leave it to Itasca to include fine standard features like reliable radial tires with wheel covers, chrome mirrors, rear mud flaps and a spare tire contained in its own locking compartment. The single-piece rear cap, fiberglass cab transition panels and generous exterior storage all say premium design.

**“Our dream of owning a top-quality, affordable motor home came true in our Itasca.”**

May all of your dreams come true in a 1991 Itasca Spirit or Sundancer. The reality is, you can expect some pretty great things from the Micro Mini Spirit and Full Size Mini Spirit and Sundancer. Each model is fully equipped to send you off with everything you need to enjoy some exciting travel adventures. And they're priced to set you up with the most value for the money.

Just wait until you see Itasca's extensive list of standard and optional features. When all is said and done, you'll have a brand new motor home that will be the envy of all your friends. Because these three great Itascas have a certain timeless style that everyone appreciates. It is a quality that makes Itasca a smart investment when you consider its excellent resale value, too. That is, assuming you ever plan to part with it.

So remember, no matter which Itasca Mini you choose, you can be assured of getting a top-quality dream machine created with pride by Winnebago Industries, a trusted name in the business for close to 35 years.

Now, isn't it about time you wake up and smell the coffee? Imagine it in some peaceful part of the country you've never experienced before. A-h-h-h-h.

If you are in the Forest City area, be sure to take the free Winnebago Industries factory tour.

For more information call 1-515-582-6936.

Every Itasca owner is invited to join the Winnebago-Itasca Travelers (W.I.T.) Club. Members enjoy rallies and caravans, receive special discounts and services, make new friends and renew old acquaintances, and, of course have the time of their lives. For more information, call W.I.T. at (515) 582-6874.
