You'll love the difference!

Rooms full of detailing you'll appreciate

You deserve a travel trailer like this. Rooms packed with features and tasteful appointments. Rooms like you'd find at home. And these meticulously-constructed trailers will last a lifetime. The entire coach body is made with aluminum framing. This gives you unsurpassed strength in sidewalls, roof and floor. It also means greater resale value. If you're looking for value in a recreational vehicle, you're looking in the right place.

Everything you need is at your fingertips in this spacious and well-designed kitchen. Notice the scratch-resistant Formica® counter tops with solid oak edging. Congoleum® residential-style flooring is standard also. The cabinet doors and drawers are also solid oak framed. For comfort you'll find 5" dinette seat cushions and padded dinette ends and tops. Best of all is the standard, largest-capacity oven and range available in a travel trailer.

Luxurious features abound in the livingroom area. From the large capacity overhead cabinets to the thick carpeting and pad – you'll find quality appointments. And attention-to-detail sets these trailers apart. Residential-styled sofa and kick board, roll shades on windows, real wood-wrapped cabinet stiles, large TV cabinet, magnifier ceiling lights, and decorator pictures and mirror are just a few of the features you'll appreciate.
