WINNEBAGO
INDUSTRIES

THE ULTIMATE COMFORT

Introducing the 1999 Ultimate Advantage, an all-new luxury widebody diesel pusher motor home from Winnebago Industries — the most recognized name in motor homes. The Ultimate Advantage brings great value to the luxury class of motor homes, offering the most sought after features at a price well below many similarly equipped coaches. However, value pricing is not the only feature setting this new motor home apart. The Ultimate Advantage is designed around a custom chassis developed in conjunction with Freightliner utilizing our innovative and exclusive **ULTI-BAY** construction which provides an incredible amount of exterior storage space.

This is just one of many innovations and advantages built into the Ultimate Advantage — the luxury class motor home that truly lives up to its name.

38K

Finishing touches inside the coach are classic, with solid wood dovetailed cabinet drawers, stile and rail cabinet doors with raised panel inserts, solid surface countertops, premium floorcoverings, and custom furniture richly upholstered in the finest fabrics and leather. Interior comfort is maintained by the sub-floor mounted high-efficiency central air conditioning unit and integrated ceiling distribution system. The driver's area includes a Sony® RearVision monitor system with one-way audio and a 7" in-dash monitor for safety when backing up.

38K

Ultimate Advantage's convenient front entry design includes a powered interior entrance well cover, six-way power assist driver's seat and an available "luxury lounge" leather passenger seat.

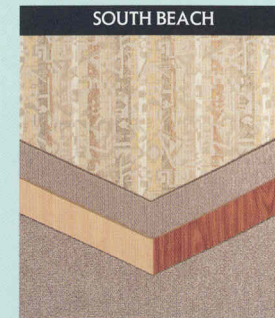

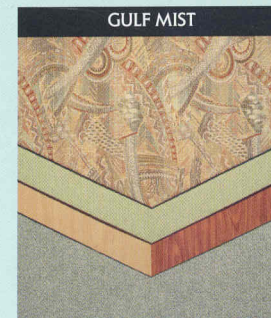

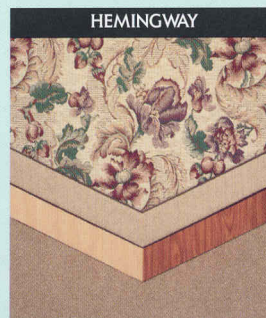

38K

Free-standing chairs provide a comfortable dining environment and a self-storing leaf quickly extends from the table for those times when you're entertaining guests. Both are examples of the "home comfort design" built into the Ultimate Advantage.

INTERIOR COLOR THEMES

Colors are displayed with the main fabric on top followed by the accent fabric, maple or cherry wood choices, and carpeting.

40J

The well equipped galley includes such luxuries as a large double-door refrigerator/freezer with icemaker, roll-out pantry with locking slides, solid surface countertops, coffee maker and an Everpure® water purification system with separate faucet.

40J

The spacious bathroom includes premium vinyl flooring, solid surface countertops, recessed solid surface sinks, a polished brass single lever control faucet, and full sliding pocket doors. An added luxury of the 40J is the second lavatory.

40J

38K

Ultimate Advantage's spacious widebody floorplans offer something for everyone. The innovative **STOREMORE™** Hydraulic Slideout System includes the galley/sofa area. The easy-to-care-for vinyl wood plank flooring used in the galley/dinette area offers both beauty and durability and is the perfect accent to the hand finished woodwork and custom furniture used in the coach.

The bedroom features a 60" x 80" residential queen size bed with an innerspring mattress from Serta® that accepts standard-sized bedding. Gas spring supports provide easy access to the engine enclosure and storage area. For added storage, shirt closets are located above the nightstands.

This large residential style roll-out pantry with locking slides is another example of the user-friendly design built into the all-new Ultimate Advantage.

38K

The available vented combination washer/dryer includes a new larger drum to reduce drying cycle time. When not in use, the washer/dryer resides out of sight behind wooden louvered doors.

40J

38K

Living area features include a 25" color TV with remote (versus the 19"-20" units on competitive models), VCR with remote, deluxe sound system, TV antenna and video selection system. As an added benefit, Ultimate Advantage is satellite system ready.

For easy cleaning, a central vacuum system with a 30' hose and multiple accessories is available.

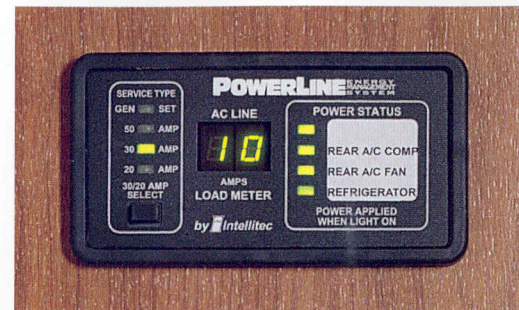

38K

40J

An enclosed toilet area provides additional privacy.

The Ultimate Advantage includes the innovative **POWERLINE** Energy Management System. This fully automated system has the ability to run the air conditioner and numerous electrical loads at the same time when utilizing 30 amp. service by monitoring the usage of 120 volt power and redistributing it as needed.

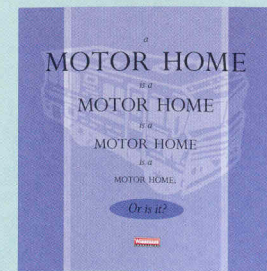

CONSIDER IT AN ADVANCED EDUCATION IN MOTORHOMES

There's much more to buying a motor home than simply finding one with comfortable furniture and inviting interior fabrics (although those things are important). In fact, we recommend people spend as much time examining the motor home's "unseen" features as they do looking over the interior appointments. For instance, there's a great

deal you can learn about how well a motor home is constructed by simply looking inside the storage compartments.

To help make your buying decision easier, we've put together a user-friendly guide which lists the most important things you should be looking for in a motor home, no matter what make or model it is. "The Guide" also highlights the importance of meeting (and exceeding) industry

standards, explains Winnebago Industries' one-of-a-kind construction process and details our industry-leading warranty and care programs. So ask for "The Guide" the next time you visit your Winnebago Industries dealer. This "advanced education" will definitely pay off down the road.

THE ULTIMATE POWER

Ultimate Advantage's power is supplied by a standard 275 hp Caterpillar engine or available 300 hp Caterpillar (300 hp is standard on the 40J).

Additional features setting Ultimate Advantage apart include the Tri/Mark KeyOne™ program, which utilizes one key for the main entrance door, fuel fill doors, and all lower compartment doors, and our ten watt solar panel battery charger (twice as large as the five watt charger found on competitive models).

Exterior paint packages are Teal — recommended with Gulf Mist interior color theme, and Taupe — recommended with Hemingway and South Beach interior color themes. You may order either exterior color, regardless of your interior choice.

40J

The high gloss painted fiberglass exterior, sleek body lines, stylized aluminum wheels and dual glazed windows with gray tint combine to give Ultimate Advantage a look all its own. Available window awnings take the Ultimate Advantage appearance one step further. For easy fueling, Ultimate Advantage includes two fuel fills — one on each side of the coach. The automatic HWH® hydraulic jacks make leveling quick and easy.

40J

Our **ULTI-BAY** exterior storage design is the result of Ultimate Advantage's exclusive innovative chassis. The enormous main storage compartment includes an available smooth rolling storage tray for easy access to stored items.

40J

Slideout storage compartments feature our ingenious **STOREMORE™** Hydraulic Slideout System — the original high storage slide system allowing full-size storage compartments to extend with the slideout room. For long-term reliability, the **STOREMORE™** system features HWH® Spacemaker hydraulics.

40J

The exterior service center combines water and drainage facilities to provide easy access to system controls. This convenient compartment houses a secondary monitor panel for instant access to tank levels.

1999 Ultimate Advantage Specifications

	38K	40J
Length	37'11"	39'11"

† The height of each model to the top of the ladder is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2' depending on chassis or equipment variations.

▼ The Ultimate Advantage features a widebody design – over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.

◇ Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

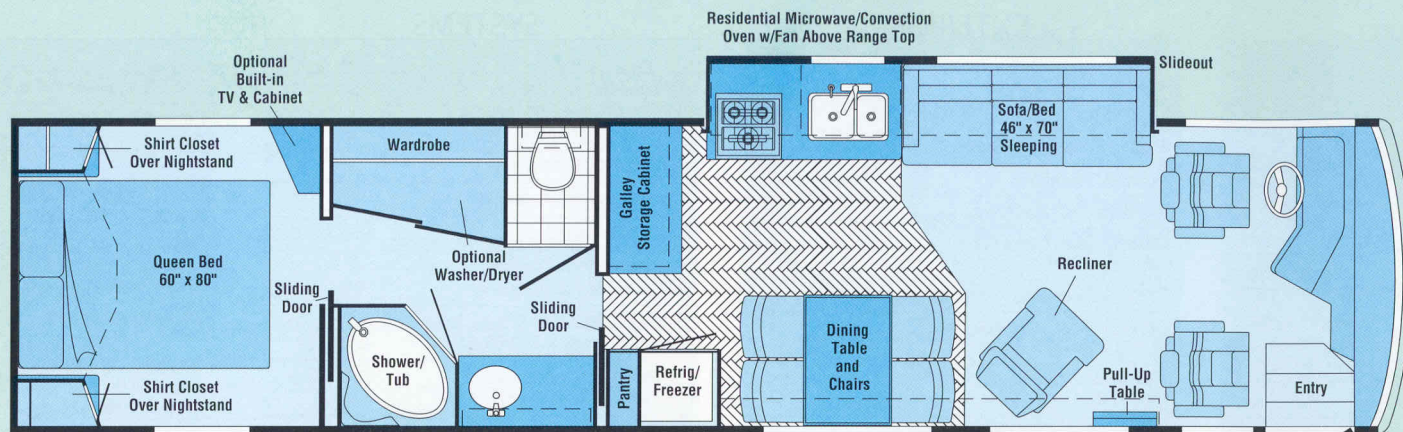

S Standard

O Optional

◆ TV satellite system options do not include programming activation or receiver. Quality reception is only available in the lower 48 states.

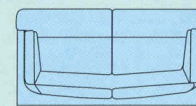

* Not all options available in combinations. See dealer for details.

Winnebago Industries' continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice.

38K

This galley and sofa/bed slideout model offers a tremendous amount of living space. Includes an available 4-door refrigerator/freezer, and a banquette sofa in place of the recliner and pull-up table.
