WINNEBAGO
INDUSTRIES

THE ULTIMATE IN LUXURY

For over 40 years, Winnebago Industries has set industry standards in the design and construction of world class recreational vehicles. Now, the standards have been raised to even higher levels.

Introducing the 1999 Ultimate Freedom — the most luxurious motor home ever produced by Winnebago Industries. This all-new widebody, diesel pusher motor home offers great floorplan variety and innovation. In fact, Winnebago Industries created the Ultimate Freedom around a customized Freightliner chassis utilizing our innovative and exclusive Ulti-Bay™ construction, increasing exterior storage space.

The Ultimate Freedom. It's more than a new motor home. It's a new standard in luxury.

40JD

The Ultimate Freedom's 38KD and 40JD both feature a driver side galley/sofa bed slideout. This intelligent design greatly increases both cooking and living space. The slideout utilizes Winnebago Industries' unique **STOREMORE™** Hydraulic Slideout System for maximum storage convenience and reliable service. The interior is finished with the finest of amenities, including glove soft leather furniture, solid wood cabinet drawers with dovetail construction, solid wood stile and rail cabinet doors with raised panel inserts, and fabric lined shelves in the overhead cabinets.

In the driver's area, Ultimate Freedom features standard leather driver and passenger seating with integrated seat belts and 8-way power seat mechanisms. A Sony® RearVision monitor system with one-way audio and a 7" in-dash mounted monitor adds safety and convenience when backing up the coach.

40JD

INTERIOR COLOR THEMES

Colors are displayed with the main fabric on top followed by the accent fabric, cherry and maple wood choices, and carpeting.

38KD

Ultimate Freedom's comforts go far beyond hand finished cabinetry, leather seating surfaces, premium carpet and high line fabrics. Interior comfort is maintained by a dependable sub-floor, Coleman high-efficiency central air conditioning unit and an integrated ceiling distribution system. Dual furnaces with floor ducting and heat registers ensure total comfort even when the weather gets cooler.

The galley's host of amenities include ceramic tile flooring, solid surface countertops, and a color coordinated single lever faucet with pull-out sprayer integrated into the spout. Other features include a standard Everpure® water purifier with separate faucet, recessed Kitchenaid range top with sealed burners, abundant cabinet storage, residential style 30" over-the-range microwave/convection oven and an available dishwasher.

40JD

Ultimate Freedom's free standing chairs and elegant solid surface, self-storing extendable leaf table make for a comfortable, homelike dining atmosphere.

38KD

Ultimate Freedom offers the very finest in home entertainment, featuring a 25" color stereo TV w/remote, RCA stereo VCR w/remote, amplified TV antenna and an available digital satellite system. Superior sound quality is provided by the Bose® deluxe sound system which includes an amplifier, 9-band equalizer, remote control for radio and CD changer, and speaker system with four cube speakers and two sub-woofers.

38KD

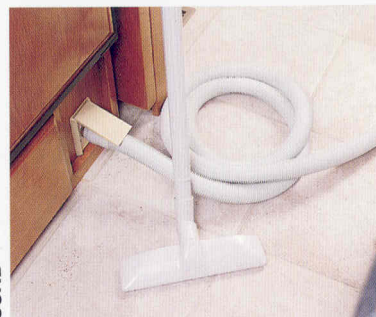

The spacious bathroom area pampers guests with its ceramic tile flooring, solid surface sink and countertop with solid brass dual control faucet, molded fiberglass garden-style tub/shower with skylight, bronze tint glass shower door, raised panel cabinet doors and a large, cedar-lined wardrobe with sliding mirrored doors.

40JD

The bedroom offers a 60" x 80" residential queen size bed with Serta® innerspring mattress. This premium mattress features Serta's innovative pillow-top style for maximum comfort. Bedroom storage is abundant and easily accessible with storage beneath the bed, in beautiful nightstands with built-in shirt closets, and a large overhead cabinet. A built-in TV cabinet neatly houses the bedroom's 19" color TV w/remote.

38KD

An available central vacuum cleaning system includes a motor/canister unit, with a flexible hose and attachments.

40JD

Ultimate Freedom's available vented combination washer/dryer features a larger drum and faster drying cycle time.

A spacious Norcold® four-door refrigerator/freezer with icemaker adds to the galley's convenience.

38KD

The Ultimate Freedom includes the innovative **POWERLINE™** Energy Management System. This fully automated system has the ability to run the air conditioner and numerous electrical loads at the same time when utilizing 30 amp. service by monitoring the usage of 120 volt power and redistributing it as needed.

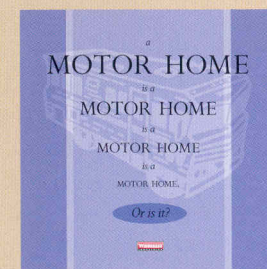

CONSIDER IT AN ADVANCED EDUCATION IN MOTORHOMES

There's much more to buying a motor home than simply finding one with comfortable furniture and inviting interior fabrics (although those things are important). In fact, we recommend people spend as much time examining the motor home's "unseen" features as they do looking over the interior appointments. For instance, there's a great

deal you can learn about how well a motor home is constructed by simply looking inside the storage compartments.

To help make your buying decision easier, we've put together a user-friendly guide which lists the most important things you should be looking for in a motor home, no matter what make or model it is. "The Guide" also highlights the importance of meeting (and exceeding) industry

standards, explains Winnebago Industries' one-of-a-kind construction process and details our industry-leading warranty and care programs. So ask for "The Guide" the next time you visit your Winnebago Industries dealer. This "advanced education" will definitely pay off down the road.

THE ULTIMATE IN FEATURES

For maximum diesel pusher power, Ultimate Freedom features a standard 300 hp Caterpillar engine or an available 330 hp Caterpillar. The Tri/Mark KeyOne™ system adds convenience by utilizing common key locks for the main entrance door, fuel fill doors, and all lower compartment doors.

Other Ultimate Freedom advantages include a ten watt solar panel battery charger (twice as large as the charger found on many competitive models).

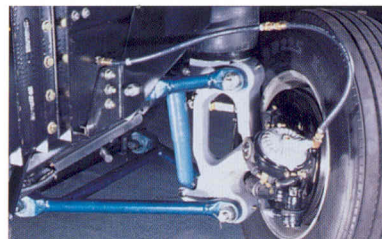

A high gloss painted fiberglass exterior, stylized aluminum wheels, dual glazed and tinted windows throughout the coach, and standard awnings give the Ultimate Freedom a one-of-a-kind look. For easy fueling, Ultimate Freedom features two fuel fills — one on each side of the coach. Automatic HWH® hydraulic jacks make leveling quick and easy. The extended arm exterior mirrors are top mounted for improved visibility and include electric remote positioning and defrost. The 7500 watt Onan Quiet Diesel generator features a noise reducing design.

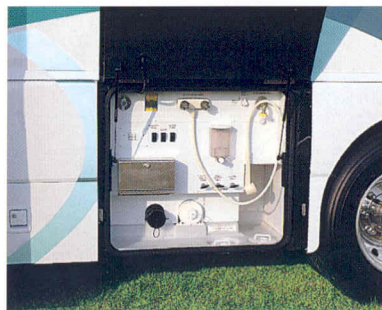

40JD

Slideout storage compartments feature Winnebago Industries' ingenious **STOREMORE™** Hydraulic Slideout System — the original, high storage slide system which allows full-size storage compartments that extend with the slideout room. For reliability, our slideout system features an HWH® Spacemaker Hydraulic mechanism.

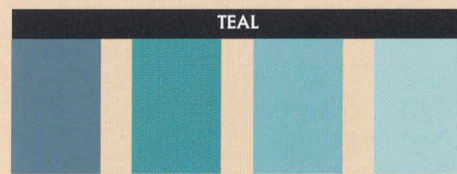

The dedicated service center for water and drainage utilities is conveniently packaged to put everything right at your fingertips. It includes space for the fresh water fill hose, and a secondary monitor to view the status of tank levels instantly.

Available independent front suspension system provides a smooth ride and has a tighter turning radius.

40JD

TAUPE

Exterior paint packages are Teal — recommended with Buckingham and Scarborough interior color themes, and Taupe — recommended with Woodlawn and Bradhurst interior color themes. You may order either exterior color, regardless of your interior choice.

1999 Ultimate Freedom Specifications

† The height of each model to the top of the ladder is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2" depending on chassis or equipment variations.

▼ The Ultimate Freedom features a widebody design – over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.

◇ Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

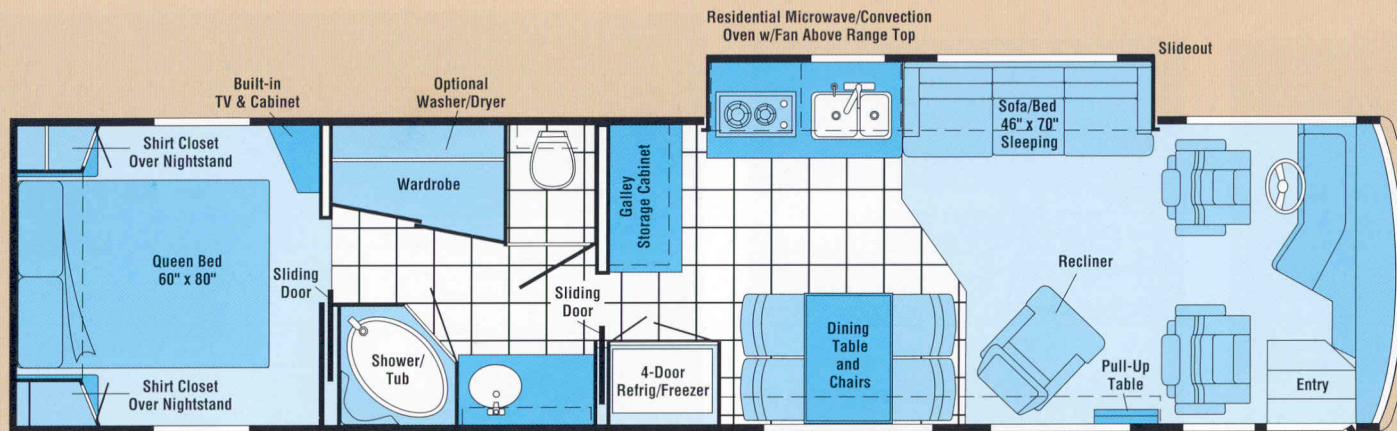

S Standard

O Optional

◆ TV satellite system options do not include programming activation or receiver. Quality reception is only available in the lower 48 states.

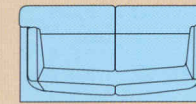

* Not all options available in combinations. See dealer for details.

Winnebago Industries' continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice.

38KD

This galley and sofa/bed slideout model offers plenty of additional living space. The galley and bathroom floors feature handsome ceramic tile flooring. Includes an available banquette sofa in place of the recliner and pull-up table.

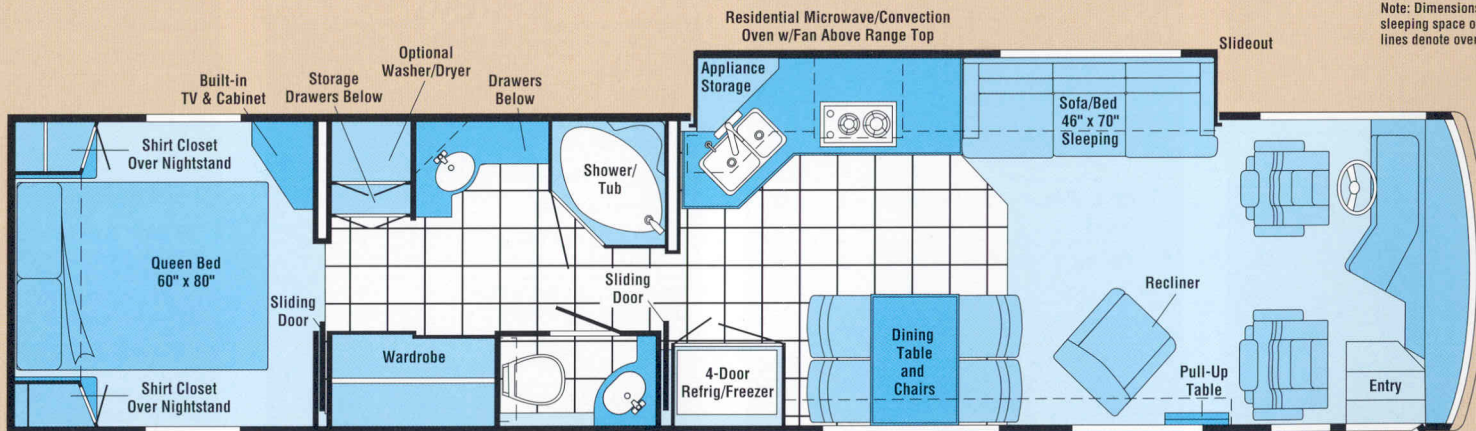

Banquette

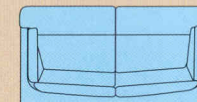

Standard Ceramic Tile

Note: Dimensions shown are for sleeping space only and dashed lines denote overhead storage areas.

40JD

This unique floorplan features an angled galley with a sofa/bed slideout. The luxurious bathroom offers an angled shower/tub and two separate sinks. The galley and bathroom floors feature handsome ceramic tile flooring. Includes an available banquette sofa in place of the recliner and pull-up table.
