A year ago we successfully introduced the Winnebago Journey. This year we proudly add the Journey DL to this well-appointed lineup of diesel pusher motor homes. The Journey DL comes loaded with an impressive list of upgrades, including a 330-horsepower Caterpillar engine and an Allison 3000MH six-speed transmission.

Both the Journey and Journey DL are available in three unique floorplans to fit your needs. So no matter where you're going, the design and power of the Journey and Journey DL will take you there in style.

Journey DL 36LD—Aspen Glen with Salem Cherry Woodgrain
This unique floorplan features an L-shaped galley/couch slideout with Winnebago Industries' revolutionary StoreMore Hydraulic Slideout System, which adds optimum living space. The standard solid surface galley countertop and the available leather furniture add a distinguishing touch of class to the interior. TrueAir residential-style central air conditioning combined with the available heat pump and dual-glazed, thermo-insulated windows provide remarkable climate control for your comfort.

Journey 36L—Beacon Hill with Portsmouth Oak Woodgrain
Whether you're in the mood for TV, lounging or conversation, the Journey's thoughtfully designed interior fits your lifestyle. The cabinet-mounted, 25-inch color TV with VCR provides great viewing from any seat, and it's prewired for available satellite hookup. Also available is the Sound System Deluxe with Q Surround Sound that includes a stereo upgrade for the TV and VCR. The unique hoop-based chair rocks and reclines like a standard lounger, and while the motor home is parked you can easily move it wherever you like.
Roomy Galley (Journey DL 36LD)
You'll appreciate the thoughtful design of the galley with its solid surface countertops; large, stainless steel, recessed double sink; and Magic Chef® sealed three-burner range. A residential-size microwave oven is standard in the Journey while the Journey DL features an upgraded microwave/convection oven.

Pantry
The slideout pantry has adjustable shelves. The Norcold® double-door refrigerator/freezer comes with an icemaker and an attractive woodgrain raised panel insert on the Journey DL.

Cabinet Pulls
The large, 4-inch cabinet pulls found in the Journey and Journey DL allow for a secure and comfortable grip on doors and drawers.

Bedroom TV
A 19-inch bedroom TV, found in both the Journey and Journey DL, is perfectly sized and positioned for optimum viewing.

Bathrooms with Extras (Journey DL 36LD)
Just like home, the bathrooms in the Journey and Journey DL feature a residential-height toilet, vanity with lighted mirror and abundant storage, bath roof vent and a hair dryer with night-light. Available fold-down seat and hand-held showerhead provide additional convenience.

Dining Area (Journey DL 36LD)
Perfect for dinnertime, the residential-style dining table and chairs is standard in the Journey DL and available in the Journey 34B and 36L.

Easy Listening
The Journey DL's available rear stereo system features AM/FM, cassette or CD, and an alarm clock.

Abundant Storage (Journey DL 36LD)
The rear bedroom wardrobe slideout greatly increases bedroom floor space and the spacious wardrobe cabinet also features drawers and plenty of hanging space. You'll rest in comfort on the Serta® queen-size innerspring mattress while watching the standard built-in 19-inch TV.
At Winnebago Industries, we understand how each feature and option must work in harmony with the entire vehicle. So nothing is just tacked on as an afterthought. We design the entire package from start to finish. It's our philosophy that overall product performance improves only when quality parts work together to truly enhance your RV experience.

To that end, the Journey and Journey DL bring together some of the finest components you'll find in a motor home, creating a bus-style experience that will bring you miles of enjoyment.

**Driver-Friendly Cab**
Everything is just where you need it in the Journey and Journey DL, easy-to-read analog gauges, available rearview monitor and a standard AM/FM stereo with cassette or available CD. Reminder lights alert you to check TV/satellite antennae, hydraulic jack and slide room positions whenever you turn on the ignition. Stay on course with the dash-mounted digital compass and temperature indicator, shown below.

**Convenient Controls**
On both the Journey and Journey DL, a wraparound dash puts switches and controls at your fingertips, plus it gives you a clear field of vision through the bus-style windshield. Glass is bonded in steel with a non-hardening sealant for greater durability.

**Leather Cab Seats**
Available leather cab seats feature adjustable armrests and a comfortable, contoured front design. Reclining and swivel/slide controls are easy to reach and operate. Available upgrades include six-way adjustable power cab seats and passenger-side footrest.

**Rearview Monitor System**
Positioned for easy viewing, the Journey DL's standard rearview monitor provides added peace of mind when maneuvering. (Also available on Journey.)

**Satellite System**
Both the Journey and the Journey DL come satellite-system ready. The satellite dish and digital elevation sensor is standard on the Journey DL and available on the Journey.

**Custom Volume Control**
The standard sound system features volume control knobs on the bottom of the overhead cabinets, which allows easy control of the individual speaker volume.

**KeyOne™**
For added convenience, one key opens most doors and storage compartments on the Journey and Journey DL.
Deluxe Entertainment System
Up front, the large 25-inch TV is set overhead in a handsome solid hardwood frame with storage cabinets on each side. Choose the available Sound System Deluxe with Q* Surround Sound and you get a 25-inch stereo TV, stereo VCR, five cube speakers, two bass speakers and an amplifier, enhancing the overall sound of your entertainment system.

Washer and Dryer
There's no need to stop at a laundromat; the available washer and dryer combo in the Journey and Journey DL takes up little space and gives you the freedom to wash clothes whenever you want to.

Convenient Accessories
The things you need, where you need them. Features like the standard wall-mounted bathroom hair dryer with built-in night-light and the available mounted vacuum/flashlight combo (standard on the Journey DL), are ready when you are.

ONE PLACE
systems center
Check tank levels and power usage, and adjust the thermostat. The OnePlace™ Systems Center eliminates runaround by placing important and frequently checked switches, gauges and controls in one convenient location.

POWERLINE
ENERGY MANAGEMENT SYSTEM
PowerLine™ is a silent, fully automatic system that oversees the usage of 110-volt electric power in the coach. By controlling the operation of appliances, PowerLine automatically minimizes the nuisance of campground circuit breaker tripping. When on-demand appliances such as a toaster, coffeemaker or popcorn popper are operating, PowerLine manages the amount of current by temporarily turning off one or more of your vehicle's "postponable" appliances and then returning power once the load is reduced.

Interior and Exterior Assist Handles
Large, easy-to-grab interior and exterior assist handles help you get in and out of the Journey and Journey DL with confidence.
WINNEBAGO
GOOD LOOKS OUTSIDE...

Up front, the smooth, full fiberglass front cap is especially durable with ultraviolet sun protection to resist fading. The large windshield is mounted in steel and provides a clear field of vision. At night, bright radius halogen headlamps provide a larger illumination path for better night visibility. When it rains, large bus-style vertical-mounted wipers clear a wide field of vision.

To the rear, the fiberglass rear cap includes an easy-access engine compartment and a high-side rear scoop to ensure a constant fresh air supply to the powerful diesel engine. The Sony® rear-vision camera is protected by a molded cover and includes one-way audio that enables an individual behind the motor home to advise the driver while maneuvering.

STARE WITH THE SUPERSTRUCTURE™

A full-welded steel cab encloses the driver and passenger compartment and also provides support for the windshield, powerful wiper motor and arms. Tough steel corner pillars add strength without compromising your field of vision. Meanwhile, steel pillars provide a secure mount for the three-point seat belts. Framework is laser-aligned to ensure a square foundation necessary for a tight fit.

Rearview Mirror
We've increased the surface of our exterior mirrors by more than 58 percent to provide a larger field of vision. Another innovation that you'll only find with Winnebago Industries.

StoreMore® Hydraulic Slideout System
Extend your living space and storage space. Lighted exterior front slideout compartments are roomy enough for longer items like a ladder or golf clubs, and they extend with the slideout room to make loading and unloading easier anytime. Compartment doors feature long-life, gas-strut hinges to give you easier access.

Exterior Entertainment Center
A lockable exterior door houses the outdoor entertainment system, which includes a table, AM/FM stereo, cassette or available CD, 12-volt DC receptacle, TV jack, 110-volt outlet and speakers. Perfect for news, music or watching the big game while you picnic outside.

Valance Panels and Doors
Flush-mount design eliminates exposed frames to ensure that the Journey's valance panels and doors provide a clean look and less wind noise. Exterior valances are painted with DuPont Imron® automotive finishes for durability and great looks for years to come.
New Onan® Generators
Your choice of Onan generators, the 6,500 watt Onan Marquis Gold™ or the available 7,500 watt Quiet Diesel™ provide reliable quiet power. In fact they’re so quiet, you might forget you’re not plugged in.

TrueAir® places the air conditioning unit below the floor versus on the roof, which provides a clean exterior look and lower vehicle profile as well as quieter operation, easier serviceability and, as an added benefit, condensation drips to the ground, not on your head. A large, residential-style blower delivers a consistent flow of cool air. Residential filters do a better job of removing air impurities. PowerLine™ Energy Management System automatically cycles the air conditioner and other appliances on and off to ensure that power demands do not exceed available power.

On cool days, the available TrueAir heat pump provides heat, minimizing the need to use LP.

Innovative
The awning rail incorporates a rain gutter to channel water to the front and rear of the coach.

Exterior Wash Station
Whether your outdoor passion includes grilling, fishing or hiking on scenic trails, the exterior wash station lets you clean up outside to help keep the luxurious interior clean.

Aluminum Wheels
Add a touch of class with available stylized aluminum wheels that will look good for years to come.
32T – NEW
(Available January 2001)
- Rear wardrobe bedroom slide
- STORE MORE front dinette/refrigerator slide
- Side aisle floorplan with angled galley

34B
- STORE MORE galley/couch slideout
- Available dining table and chairs
- Convenient angled galley with corner appliance storage

36L
- STORE MORE galley/couch slideout
- Split bath with private toilet area
- Available dining table and chairs
- Large wardrobe and linen cabinet storage areas
34BD - NEW
- Rear wardrobe slideout
- **STORE MORE** galley/couch slide
- Available two-cushion banquette
- Walk-through split bath with large vanity area

36GD - NEW
- **STORE MORE** flat-floor dinette/couch slide
- Available two-cushion banquette
- Walk-through split bath design with private toilet area
- **STORE MORE** multi-position lounge

36LD - NEW
- Rear wardrobe slideout
- **STORE MORE** galley/couch slide
- Available washer/dryer
- Available larger 4-door refrigerator
- L-shape galley with plenty of storage space

### WARRANTY
- 12-Month/15,000-Mile Basic Warranty, 36-Month/36,000-Mile Warranty
- On Structure, **10-Year Limited Parts & Labor Warranty**

---

* The height of each model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 3" depending on chassis or equipment variations.

*A Journey floorplans feature a wide-body design—over 8'.5" to making your purchase decision, you should be aware that some states restrict access on some or all state roads to 8'.5". Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.*

*Just all items available in combination. See dealer for details. NA = Not Available.

* Capacities shown are tank manufacturer’s listed water capacity (G.C.). Actual fitted LP capacity is 80% of listing due to overfilling prevention device on tank.*

**See your dealer for complete warranty documentation information.**

Winnebago Industries continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.
NOT ALL MOTOR HOMES ARE EQUAL.

When you purchase a Winnebago Journey you benefit from unique advantages, beginning with one of the most comprehensive warranty programs in the industry. It includes a 12-month/15,000-mile basic protection plan, 36-month/36,000-mile warranty on the structure and a standard 10-year limited parts and labor warranty on the roof.

Mechanical emergency while on vacation? Go to your nearest Winnebago Industries dealer. TripSaver guarantees that qualifying, in-stock emergency warranty repair parts will be air-shipped from our factory within 24 hours. Plus, every new purchase comes with a one-year membership in our Premium Roadside Assistance Program, a 24-hour nationwide plan that covers road emergencies with free services like jump starts, tire changes, fuel delivery and lockout assistance.

In addition, Winnebago Industries vehicle owners are eligible to enroll in the Winnebago-Itasca Travelers (WIT) Club. As a member, you’ll enjoy many benefits, including mail forwarding, trip planning, rallies, caravans and more.

To learn more about what separates our motor homes from others, ask for this free guide next time you visit your Winnebago Industries dealer. It explains our superior manufacturing process. Use it to learn more about important safety and quality considerations as you shop for the motor home that’s best for you.

QUALITY FROM THE GROUND UP.

FROM A SOLID SUPERSTRUCTURE...

We start with a sturdy steel and extruded aluminum substructure, using interlocking joint construction to join the sturdy floor, roof and sidewalls into one solid unit. Sidewalls and backwalls use our patented Thermo-Panel® construction process, with pressure-bond exterior skin, lauan backing and block-foam insulation. Select appliances are solidly secured into embedded steel plates.

Built to last, key steel components are subjected to a 12-stage rustproofing process that cleans, preps, and electrostatically coats components inside and out. With a focus on quality, each new vehicle carries a structural warranty of 3 years or 36,000 miles.

...TO A MORE DURABLE ROOF

Unlike rubber roofs, our crowned one-piece seamless fiberglass Thermo-Panel® roof minimizes tearing and snagging. It also resists fading, chalking and deterioration, and expansion/contraction is minimal compared to rubber roofs.

In fact, our roof is so durable, it's backed by a 10-year limited warranty for parts and labor.

Visit us at www.winnebagoind.com
Seat belts are your most important hookup. Always buckle up.
