Now is the time for diesel luxury and performance.
The power, performance and comfort of a full-featured diesel pusher are yours in the user-friendly 2006 Itasca Meridian. It all starts with a Freightliner® chassis, featuring a 350-hp Caterpillar® diesel engine with Allison® transmission (300-hp Cummins® diesel on the 32T). Step inside and you’ll see how we incorporate our SmartSpace™ design philosophy to maximize functionality and convenience while offering more user-friendly features. Choose from four models, three fabric options and four wood choices to create the Meridian motor home of your dreams.
MAKE ROOM.

The bedroom slideout creates plenty of room for a walk-around queen bed. It also provides plenty of room for storage, such as the mirrored wardrobe and underbed compartment (NA 39K). If you like to watch TV before turning in for the night, the Meridian provides a 20" flat-face TV in the 36G and 39K or a 20" LCD TV in the 32T and 34H. For added convenience, the TV is wired to the front video components, which can be controlled using the bedroom remote.

In the bathroom, a skylight above the shower lends a spacious feel while highlighting upscale features like the residential-height toilet and Moen® chrome faucet. The shower features a Moen Posi-Temp® valve that maintains a consistent shower temperature even if water pressure fluctuates. An available shower package provides a fold-down shower seat and a handheld showerhead. Extra storage can be found in the linen closet and the hamper on the 32T and 34H.

WASHER/DRYER

Select the available washer/dryer and enjoy the convenience of not needing to stop at the laundromat (NA 32T).

SLEEP NUMBER® BED

The available Sleep Number Vantage Point bed by Select Comfort™ lets you adjust the firmness of each side of the bed independently to your Sleep Number®—the Key to a Perfect Night’s Sleep.”
Look what’s cooking.
Prepare even the most extravagant meals in this full-featured galley. The standard stainless steel appliances not only look great, they offer advanced features like sensor cook on the 30” microwave. Solid-surface countertops and sink covers create a workspace large enough for everything on your menu.

Our SmartSpace design philosophy adds value to the galley with features like full-extension drawer slides, a pullout pantry and other unique storage ideas. Dining options include a classic dining table and chairs (NA 327) or the BenchMark™ full comfort dinette with innerspring cushions for extra support. A multifunction dining table is also offered, providing seating for up to four people and doubling as a computer desk (NA 327).

Refrigerator
Upgrade to the four-door refrigerator/freezer for extra cold storage.

Drawer Slides
Drawers open all the way on full-extension drawer slides for easy access.

OnePlace®
This systems center, located near the galley, houses frequently checked gauges, switches and controls.
Get moving.
The Meridian gives you full command with touchpad transmission control and a steering wheel that tilts and telescopes into perfect position. Choose the Sony® rearview monitor for added peace of mind when backing and maneuvering.
The comfortable cab seats recline and feature adjustable armrests. They are available in UltraLeather HP™ and can be upgraded with six-way power pedestals and a passenger-seat footrest.
While you drive, listen to CDs, local radio or weather band updates on the Sirius® Satellite-ready RV Radio®. It features a large, easy-to-read display, simplified controls and includes a steering wheel remote so you can adjust the radio while keeping your eyes on the road. A handheld remote lets you conveniently use the RV Radio when parked. You can expand your listening options by adding the Sirius Satellite® radio package with over 120 digital channels. A complimentary six-month subscription is provided with this package.

*Sirius Satellite radio not available in Canada.

**Video System** For extra visibility, add the side video camera system. It activates with the turn signal allowing the driver to view both sides of the coach through the rearview monitor during turns.

**KeyOne™** Allows you to open the entrance door, storage compartments and dual fuel fill doors with a single key. For added convenience, unlock the doors with the keyless remote.

**Euro Chair** Relax in this stylish leather recliner (NA 32T and 39K).

**TripTek™** An available onboard computer calculates and displays trip information on the rearview monitor.

**Hoop-Base Chair** You can move the hoop-base chair to your favorite spot when the coach is parked (NA 39K).

**Dining Table** Provides elegant dining for two and expands to seat four people (NA 32T).

**Multifunction Table** Expands to accommodate four chairs and doubles as a computer desk and a dining table (NA 32T).
GET HOOKED UP.

The service center makes hookups a snap with color-coded labels. The heated compartments are full of well-planned features like the QuickConnect™ coupling valve and the QuickPort™ service connection hatch.

QuickPort eliminates the hassle of feeding hoses through a tiny access hole, while still allowing bay doors to close even when connected to hookups.

The QuickConnect coupling valve includes an easy-to-operate valve for quick and easy hookups. For added convenience it even has its own storage holster. A wash station lets you clean up before dragging dirt into the coach.

A number of Smart Storage™ exterior features were included to let you haul more gear. These include the StoreMore® slideout system and custom-designed compartments for important accessories. You’ll find a portable satellite dish hookup in the service center.

The StoreMore slideout system allows exterior storage compartments to move with the slideout for easy access to your gear.

**LADDER** This folding ladder tucks into a customized enclosure so it’s always close at hand (NA 32T).

**SMART STORAGE**

**EXTERIOR ENTERTAINMENT CENTER** Includes AM/FM stereo, CD player, speakers, 12-volt powerpoint, 110-volt outlet and a TV jack.

**Service Center** The QuickConnect coupling valve makes for quick, clean and easy connections to the waste dump. QuickConnect and the QuickPort service connection hatch are part of the improved service center.

**Storage Pullout Tray** Provides quick access to stored items (NA 39K).
Better by design.

Our engineering and design teams had you in mind when selecting features for this year’s coach. These include auxiliary backup lamps that project from the rear bumper for easier backing and maneuvering at night.

The available automatic hydraulic leveling jacks make leveling your Meridian as easy as pushing a button. The exterior mirrors incorporate a breakaway design that protects them from impact and provides for extra clearance when storing your coach.

Full-Body Paint Meridian features our coveted full-body paint, stylized aluminum wheels and an available Itasca mud guard.

POWERLINE™ This energy management system monitors electrical usage and automatically cycles appliances on and off to prevent power shortages.

Two-Way Radios Keep in touch around the campground. An available set of four two-way radios comes in a built-in charging station.

Auxiliary Air Supply The 50 ft. air hose is perfect for inflating tires and toys.

TRUEAIR The TrueAir residential central air conditioning system utilizes an advanced Coleman®-Mach® cooling unit for exceptional climate control. It's 10% quieter and cools 40% faster than bulky roof units, while its basement location provides a low vehicle profile and reduces interior noise. On cool days the heat pump provides warmth without needing the furnace.

Chassis Battery Disconnect Switch Conveniently located in the engine compartment, the battery disconnect switch prevents auxiliary battery drain when storing your Meridian.

TRUELEVEL Eliminate the guess work with our exclusive TrueLevel™ holding tank monitoring system. It incorporates Mirus™ detector cells that detect liquid levels from outside the tank. No probes, mean no more corrosion or clogging, just accurate readings time after time.

Built by Winnebago Industries. Built to last.

Itasca motor homes are built by Winnebago Industries, the company that defined motor homes. The company that built its reputation on quality construction. The company that transformed the motor home concept into a way of life.

Today, Winnebago Industries brings that reputation for quality and its 47-year history of motor home innovation to the design and construction of every motor home. It’s all a part of SuperStructure™ our exclusive system of proprietary structural components that instills each motor home with improved strength and durability.

**Solid Foundation** Steel and aluminum truss work provides a solid, flat foundation for floors and sidewalls. Winnebago Industries engineers also take special care to distribute the weight of components to ensure proper handling and stability.

**Interlocking Joints** The floors, sidewalls and roof are all integrally connected using interlocking joints. This creates a coach body that acts as a cohesive unit for improved strength and durability.

**E-Coating** Winnebago Industries employs an exclusive 12-stage automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel components for unmatched corrosion protection.

**ThermoPanel® Sidewalls** Invented by Winnebago Industries, ThermoPanel construction combines a fiberglass panel, high-density, block-foam insulation and aluminum support structures to create some of the most durable, lightweight sidewalls in the industry.

**Fiberglass Roof** Every Itasca motor home features a one-piece fiberglass roof backed by a 10-year limited parts-and-labor roof skin warranty.

**Attention to Detail** Whether it’s sending every coach through a high-pressure water tunnel to check for leaks or labeling each individual wire and barcoding parts to save time and frustration during service, Winnebago Industries considers every detail to ensure your Itasca motor home provides you with years of pleasure.

**Strong as Steel** Appliances are secured directly to embedded steel plates for added safety. Windshields are also mounted in steel with an automotive-style sealant; lesser designs use a rubber gasket to mount the windshield in fiberglass.

**Built to a Higher Standard** The Meridian features a crowned, one-piece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.
