The extremely comfortable 2006 Minnie Winnie is a premium Class C motor home with space and amenities you'd normally find only in a Class A.

LUXURIOUSLY PRACTICAL.

Upon entering the 2006 Minnie Winnie, you'll quickly realize it's no ordinary Class C motor home. From the plush Stitchcraft custom furniture to the beautiful cabinetry — featuring nickel hardware and a high-grade, catalyzed finish more typically found in fine homes — the Minnie Winnie provides a truly luxurious experience.

The Minnie Winnie makes your comfort a priority. It comes standard with thermostat-controlled, floor-ducted heating and ceiling-ducted air conditioning to ensure you have complete control over your environment. Choose the available flush-mounted, dual-glazed

windows to add thermal efficiency in all types of weather. There's also an optional heat pump that keeps you warm without turning on the furnace.

The Minnie Winnie's day/night pleated shades provide just the right amount of privacy. And if you're looking for additional sleeping quarters, choose the available front bunk area that comes with the 20" TV/DVD combo.

With the 2006 Minnie Winnie, you'll feel at home, no matter where you are.

THE COMFORTS OF HOME, THE FREEDOM OF THE ROAD.

The hydraulically powered front slideroom extends quickly to provide a spacious living area that will remind you of home.

The galley makes preparing meals a joy, with high-quality appliances, including a standard convection/microwave oven by Sharp, a large double-door refrigerator/ freezer with available icemaker, and a three-burner Amana range/oven with vented range hood. Solid-surface countertops, a sink cover and a flip-up countertop extension provide you with additional work space. You'll also appreciate the Minnie Winnie's full-extension drawer slides, which provide easy access to all your stored items. The available water filtration system with separate faucet keeps clean, purified water close at hand.

Our innovative BenchMark™ full comfort dinette features innerspring cushioned seats that flip up, allowing access to a large storage space. There are also multiple seat belt locations for seating flexibility, and even an anchor for a child's safety seat in the forward-facing dinette. Plus, the BenchMark easily converts into a comfortable bed.

ENTERTAINMENT AND COMFORT. CHECK.

A BEDROOM WITH ROOM.

Get a good night's rest with the standard queen-sized Vantage Point™ Sleep Number® bed by Select Comfort.® Using the digital hand control, you can quickly adjust each side of the mattress to your individualized, ideal level of comfort and support by setting your Sleep Number — Your Key to a Perfect Night's Sleep.™

You'll find abundant storage in the overhead cabinets and closet space in the wardrobe, along with storage under the bed. For even more space, choose the 30V floorplan with a bedroom slideout area. The 30V also offers a desk/vanity that includes a flip-up mirror.

The Minnie Winnie features a split bath design with private shower, flexible showerhead and skylight. The cabinets provide plenty of storage for all your bathroom needs.

Personal space and storage are important while traveling, and the Minnie Winnie

THE LATEST TECHNOLOGY FOR AN OUTSTANDING EXPERIENCE.

The Minnie Winnie is filled with user-friendly technology to ensure that you have the most wonderful trip possible.

FEEL, HEAR AND SEE THE DIFFERENCE WITH YOUR MINNIE WINNIE.

The well-designed cockpit has controls positioned for maximum driver convenience, thanks to our SmartSpace™ design philosophy. And our exclusive Trimline™ center console allows you to move from the cab to the living area with greater ease. For a different look in the cockpit, choose the available dash and beverage appliqué.

Winnebago Industries engineers worked closely with the radio manufacturer to create a radio specifically designed for motor home applications. The RV Radio® is Sirius® Satellite ready and includes AM/FM stereo, CD player, weather band and large, easy-to-use buttons and knobs. Save the coach batteries by flipping the radio power switch and running it off house batteries. Upgrade your RV Radio with the available Sirius Satellite Radio package. Sirius brings you 120 channels of crystal clear programming and a free six-month subscription (not available in Canada).

Select the available rearview monitor system for added convenience when backing up.

FEATURES, FEATURES AND MORE FEATURES.

Enjoy your entertainment outdoors with the available exterior entertainment center, which includes an AM/FM stereo, CD player with remote, 12-volt DV receptacle, TV jack, 110-volt outlet speakers and removable table.

The exclusive StoreMore® slideout system, featured on the 31C, allows you to easily access your belongings without having to crawl under the slideout. Our new assist soft-touch handle provides a solid, comfortable grip when entering your home.

The exterior service center is located for easy access and includes our QuickPort® service connection hatch. It allows you to close your compartment door when connected to hookups at the campground. And you'll never struggle putting cords through small holes because the hatch is large enough to accommodate both hoses and power cords. Winnebago Industries' exclusive TrueLevel™ holding tank monitoring system incorporates Mirus* detector cells to determine liquid levels from outside the tank to ensure accurate tank-level readings.

DESIGNED LIVING.

Better construction leads to a better motor home. Our one-piece fiberglass sidewall construction makes the Minnie Winnie incredibly resilient to the elements. The available stylized aluminum wheels resist corrosion, while the available flush-mounted, dual-glazed, thermo-insulated windows provide added thermal efficiency in all weather. Bring along some towable fun with the help of the standard 5,000-pound capacity hitch with 7-pin connector. Air springs are available for a smooth, stable ride.

We believe the same high standards we apply to construction should apply to interior design. That's why we create efficient floorplans based on customer input, why we look for durable fabrics in pleasing colors, and why we handcraft our own cabinets using traditional panel-and-rail construction.

a The height of each model is measured to the top of the ta	allest standard feature and is based on the curb weight of a typically equipped unit. The actual height of
your vehicle may vary by several inches depending on ch	assis or equipment variations. Please check with your dealer for further information.

your vehicle may vary by several inches depending on chassis of equipment variations. Please check with your dealer for turther information.

Minnie Minnie floorplans feature a wide-body design — over 96." In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96." in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.

The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home. d Capacities are based on measurements prior to tank installation. Siliptic tapacity variations can result due to installation applications.

e Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

- 1 Actual towing capacity is dependent on your particular loading and towing circumstances, which includes the GYWR, GAWR and GCWR, as well as adequate trailer brakes. Please relete to the Operator's Manual of your vehicle for further towing information.

 9 The chassis interior cab color is expected to change during 2006 model year. Please see your dealer for the latest specifications.

 1 See separate chassis warranty details provided in owner's packet.

 2 See your dealer for complete warranty information.

 Not all items available in combination. See dealer for details.

 Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice.

 Comparisons to other motor homes are based on the most recent information available.

NOT ALL MOTOR HOMES ARE CREATED EQUAL. As you take a closer look, you'll see that there is much more to the Winnebago Minnie Winnie than a long list of standard features and compelling floorplans. Beneath it all you'll find a SuperStructure® foundation of strength and durability, and Winnebago Industries' recognized service and warranty support.

We are committed to service. We back our motor homes with the best after-the-sale service in the industry. This includes a 12-month/15,000-mile basic limited warranty; 36-month/36,000-mile warranty on structure; standard 10-year limited parts-and-labor roof skin warranty; and complimentary 24-hour Roadside Assistance Program. TripSaver Fast Track Parts guarantees that in-stock warranty parts ship directly to your dealer within 24 hours. Winnebago Industries has a nationwide dealer service network.

Certified quality. Recreation Vehicle Dealer Association members annually rate RV manufacturers on the quality of their products, and on their sales and service support. Winnebago Industries has achieved the coveted Quality Circle Award every year since its inception, the only RV manufacturer to do so.

Warning: Joining WIT has been known to cause excessive fun. Winnebago-Itasca Travelers (WIT) is a club for owners of Winnebago Industries motor homes. WIT is a great way to meet people and offers you caravans and rallies, local and state group activities, and other benefits for RVers.

Seat belts are your most important hookup. Always buckle up.

SUPERSTRUCTURE is the term given to Winnebago Industries' structural motor home design and construction. Rather than a single component, it is the culmination of design integration that incorporates steel and aluminum substructures; composite-design laminated floor risers; interlocking joint technology; and Thermo-Panel® floor, roof and sidewalls to form a high-strength, durable vehicle body.

Thermo-Panel manufacturing combines a durable aluminum exterior panel with welded aluminum support substructures. The substructures are embedded in a high-density, block-foam insulation core to create a strong, durable, yet lightweight sidewall. Just another Winnebago Industries invention.

A Interlocking joint construction utilizes advanced extruded aluminum structural components to create integrated floor-to-sidewall and sidewall-to-roof joints. This design effectively distributes the weight of the walls and roof, making a stronger and more durable body than competitor designs that rely on screws to carry the weight.

(B) The foundation substructure assembly is precision-aligned to maximize strength and cross-coach support as well as durability.

© Laminated risers feature a welded aluminum core for improved strength and provide a stable base for the floor structure and storage compartments.

D Critical steel components are treated using an advanced electrodeposition coating process that provides superior corrosion protection.

BUILT TO A HIGHER STANDARD.

The Minnie Winnie features a crowned, one-piece fiberglass roof skin backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability compared to rubber roofs found on many competitive models. Over time, rubber roofs are susceptible to chalking, streaking and degradation, and have less puncture and tear resistance than fiberglass.
