

06 SUNOVA®

 SMARTSPACE

THE CHOICE IS YOURS.

You'll be pleasantly surprised by the number of features and options available in the 2006 Itasca Sunova. Choose from six models, each loaded with amenities and SmartSpace™ design elements that makes the most of user-friendly features and available space. These can be as simple as adding extra seatbelts for travel flexibility or a more advanced process

of providing floor-ducted heat and ceiling-ducted air conditioning that are both controlled by a single wall thermostat. If you're serious about Class A comfort and styling, the abundance of features, available options and quality Winnebago Industries® construction make the Itasca Sunova the right choice.

CLASS A LIVING.

Love home-cooked meals? The galley includes a three-burner range/oven and a microwave oven for all your cooking needs. Take advantage of the additional space provided by the sink cover and a countertop extension (NA 34A). You'll also find plenty of food storage in the large refrigerator and cleverly designed pantry.

Watch the 24" TV from the comfort of the hoop-base lounge chair (NA 29R). When you're not traveling, this chair can be relocated to your favorite spot in the coach. For an upgraded entertainment experience, add the Home Theater Sound System, which includes a DVD/VCR combo, amplifier, receiver, five speakers and a subwoofer. Choose the 300-watt inverter and you'll be able to watch TV without generator or shoreline power.

Gain greater climate control by adding day/night pleated shades, dual-glazed, thermo-insulated windows and a heat pump that takes the chill off without starting the furnace.

29R CINNABAR WITH PORTSMOUTH OAK

LIVING AREA SmartSpace design led to a living room slideout that extends thirty inches on most models. This creates more room for quality Stitchcraft furniture, including a dinette with a child safety-seat tether anchor.

GALLEY The galley provides plenty of space. Choose the available galley upgrade which includes a knife holder, range cover, woodgrain refrigerator door facades, silverware tray and wire storage baskets under the dinette seats.

FULL-EXTENSION DRAWER SLIDES
Allow for easy access to all your stored items.

BEDROOM The bedroom offers a queen-size Serta® mattress, roomy overhead cabinets, a mirrored wardrobe and a bedroom slideout on the 26P, 29R, 34A and 35N.

RIDE AND RELAX.

The Sunova makes driving easy by placing switches, gauges and controls at your fingertips and providing an available rearview monitor to assist with backing. To make trips more pleasant, high-back driver and passenger seats offer lumbar support and adjustments that swivel, slide and recline to suit your style. Both are available in UltraLeather HP.™

The RV Radio® is Sirius® Satellite ready and offers simple controls for the CD player, radio and weather band. Two remotes give you control anywhere in the coach. Upgrade to the Sirius Satellite* radio package, which includes a complimentary six-month subscription with 120 digital channels.

Once you've settled on a campsite, use the touchpad controls of the available Kwikkee® hydraulic leveling system to quickly level the Sunova. The QuickPort® service connection hatch makes hookups refreshingly simple. You can even close the service compartment door while hooked up at the campground.

An included hitch lets you tow up to 5,000 pounds and comes with a seven-pin connector.

*Sirius Satellite radio not available in Canada.

DASH A steering wheel remote and a handheld remote provide convenient controls for the RV Radio while you drive or relax in the coach.

ONE PLACE™

Frequently used gauges and controls are conveniently placed in a central location.

POWERLINE®

The PowerLine energy management system monitors 110-volt usage and automatically cycles appliances on and off during periods of high demand to prevent tripped breakers (33T, 34A, 35N only).

TWO-WAY RADIOS A set of four two-way radios is available in a built-in charging station.

TRUELEVEL To eliminate the guesswork, our exclusive TrueLevel™ holding tank monitoring system incorporates Mirus™* detector cells that detect liquid levels from outside the tank. No probes mean no more corrosion or clogging, just accurate readings time after time.

*Mirus is a trademark of Material Sciences Corporation.

EXTERIOR SERVICE CENTER Connections and controls use color-coded labels for ease of use. The available wash station is great for quick cleanups, while heated holding tanks and a winterization valve let you extend the camping season.

STOREMORE This exclusive slideout system allows exterior compartments to extend with the slideroom for easy storage access. The large Storemore compartments accommodate bulky and oversized items.

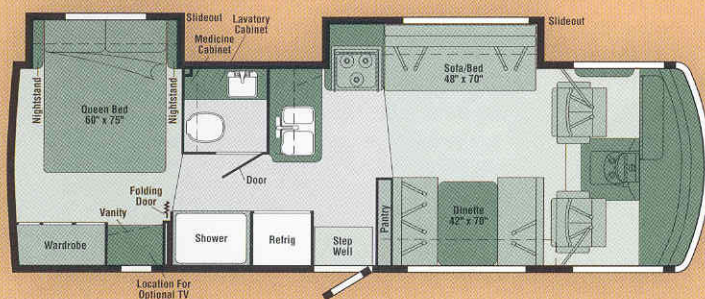

06 FLOORPLANS

Note: Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas.

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- Sunova floorplans feature a wide-body design — over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty details provided in Owner's Manual.
- See your dealer for complete warranty information.

Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.

**Built by Winnebago Industries.
Built to last.**

Itasca motor homes are built by Winnebago Industries, the company that defined motor homes. The company that built its reputation on quality construction. The company that transformed the motor home concept into a way of life.

Today, Winnebago Industries brings that reputation for quality and its 47-year history of motor home innovation to the design and construction of every motor home. It's all a part of SuperStructure,[®] our exclusive system of proprietary structural components that instills each motor home with improved strength and durability.

SOLID FOUNDATION

Steel and aluminum truss work provides a solid, flat foundation for floors and sidewalls. Winnebago Industries engineers also take special care to distribute the weight of components to ensure proper handling and stability.

**SUPER
STRUCTURE**

INTERLOCKING JOINTS The floors, sidewalls and roof are all integrally connected using interlocking joints. This creates a coach body that acts as a cohesive unit for improved strength and durability.

E-COATING Winnebago Industries employs an exclusive 12-stage automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel components for unmatched corrosion protection.

THERMO-PANEL[®] SIDEWALLS Invented by Winnebago Industries, Thermo-Panel construction combines a fiberglass panel, high-density, block-foam insulation and aluminum support structures to create some of the most durable, lightweight sidewalls in the industry.

FIBERGLASS ROOF Every Itasca motor home features a one-piece fiberglass roof backed by a 10-year limited parts-and-labor roof skin warranty.

ATTENTION TO DETAIL Whether it's sending every coach through a high-pressure water tunnel to check for leaks or labeling each individual wire and barcoding parts to save time and frustration during service, Winnebago Industries considers every detail to ensure your Itasca motor home provides you with years of pleasure.

STRONG AS STEEL Appliances are secured directly to embedded steel plates for added safety. Windshields are also mounted in steel with an automotive-style sealant; lesser designs use a rubber gasket to mount the windshield in fiberglass.

TAKE A TOUR We're proud of our process, state-of-the-art facilities and the people who make Winnebago Industries number one. We invite you to visit our factory in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motor home we build.

RECOGNIZED QUALITY The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle award to manufacturers who provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer to receive this award every year since its inception.

COMMITTED TO SERVICE We back our motor homes with the industry's best service after the sale.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof skin warranty
- Complimentary 24-hour roadside assistance program
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours.
- National dealer service network

WIT CLUB Itasca owners are like family. Joining the Winnebago-Itasca Travelers is a great way to meet and travel with other Itasca enthusiasts. Members enjoy:

- Caravans and rallies
- Local and state group activities
- RV travel benefits
