One adventure in the Itasca Ellipse and you’ll be a diesel enthusiast for life. Choose from four distinct models, including a quad-slideout design, each built on the heralded Evolution Chassis. Its formed-steel chassis rail construction works in conjunction with our Smart Storage™ system to provide more plentiful midsection storage that is easy to access. Inside, features like solid-surface countertops, vinyl tile flooring, opposing flat-floor slideouts in the living room and over 7’2” of interior ceiling height will make you proud to call the 2007 Itasca Ellipse your home on the road.

The power of diesel. The comfort of Itasca.
The floorplan variety of the Ellipse gives you the option of the classic, front overhead entertainment center or a stand-alone entertainment center in the 40FD and 40TD. Both configurations include a flat-screen TV (27" in the 40FD; 30" in the 40TD) with a DVD player and the Home Theater Sound System.

Sit back and relax in the comfortable Euro Chair with ottoman, available on the 36LD, 40FD and 40TD. All of the quality Stitchcraft furniture is also available in soft, easily cared-for UltraLeather.”

Floor-ducted heating and ceiling-ducted TrueAir® residential central air conditioning provide optimal climate control. A heat pump comes standard to take the chill off cool mornings without firing up the furnace. For added thermal efficiency, dual-glazed, thermo-insulated windows are also standard. They come with day/night pleated shades for full control over light and privacy levels.

An 8,000-watt Onan® Quiet Diesel™ generator and a 2,000-watt inverter/charger provide alternative electrical power for your coach.

Entertainment Indirect lighting highlights the entertainment center, complete with a large, flat-face TV and the Home Theater Sound System with a DVD player. Enjoy more channels by adding the in-motion satellite system.*

*Satellite TV requires a subscription. See your dealer for details.
Beautiful cabinetry with under-cabinet fluorescent lighting provides an abundance of storage space. The pullout island cabinet on the 40FD provides even more storage and extra countertop space. Pullout pantries, a four-door refrigerator/freezer and a rollaway storage bin on the 40KD let you bring along plenty of food for all your travels. The drawers glide on full-extension slides for easier access to pots and pans.

For more casual dining, choose the 36LD. It features a unique breakfast bar, complete with two stools, three large drawers and a sliding countertop with leaf storage.

Every model offers an Amana® range top, 30” residential microwave/convection oven and an Everpure® water filtration system with a separate faucet. Solid-surface countertops and solid-surface range and sink covers give the galley a more stylish appearance.

Refrigerator/Freezer
The refrigerator features Titanium Touch stainless finish doors that have the look of stainless steel, resist fingerprints and are warmer to the touch than traditional stainless steel. As an added bonus, you can even use your favorite kitchen magnets.

Dining
The Ellipse offers a variety of dining options. The available BenchMark™ full comfort dinette (NA 40TD) features tall backs, innerspring cushions, large flip-up storage compartments and converts easily into a comfortable bed. A breakfast bar in the 36LD is a great spot for quick meals. The legless dining table comes with four chairs.
Spacious Bedroom

Every Ellipse bedroom features a rear slideout with a Vantage Point® Sleep Number® bed by Select Comfort. The slideout in the 40KD creates an incredibly spacious bedroom large enough to accommodate a king-size bed by Select Comfort.

The bedroom also contains a 20” LCD TV. It connects to the available rear stereo system that features an AM/FM radio, CD/DVD player, alarm clock, headphone jack and a connection for your MP3 player. The available ceiling fan keeps you cool on hot summer nights.

The bathroom includes a number of elegant appointments like vinyl tile floorcovering and a textured glass shower door. You’ll also appreciate practical features like a flexible showerhead and a water heater that runs off LP or electric power. Enjoy the space-saving convenience of the available central vacuum anywhere in the coach.

WEB Vantage Point Sleep Number Bed
Digital remotes let you adjust each side of the Sleep Number bed independently to your ideal level of comfort and support. Your Sleep Number – the Key to a Perfect Night’s Sleep.

Available Washer/Dryer
Includes multiple time and temperature cycles to accommodate most fabrics.

Bath The Moen Posi-Temp® control regulates consistent water temperature, in the shower, even if water pressure fluctuates.
If you share driving duties, you’ll love the convenience of the SmartWheel™ steering wheel. It includes controls for key functions and quickly tilts and telescopes into perfect position for any driver. A high-back UltraLeather cab seat enhances the experience by adjusting on an optional six-way powered pedestal.

You’ll have added confidence backing your Ellipse when using the Audiovox® rearview monitor. You can also add a video camera system that is activated by your turn signals and allows the driver to view the side of the coach through the rearview monitor system.

The RV Radio® gives you the option of listening to the AM/FM radio, a CD player or weather band. A handheld remote gives you full control of the radio with ease from anywhere in the coach.

 Upgrade the RV Radio to include the Sirius Satellite radio package* with over 120 channels of crystal-clear programming. This package comes with a complimentary six-month subscription.

重要开关、仪表和液位都安装在这个方便的系统中心。

The TrueAir™ residential central air conditioning system is located in the basement, which provides a low vehicle profile and reduces interior noise. The advanced Coleman®-Mach® cooling unit cools 40% faster and runs 10% quieter than roof units.

Dash: You’ll find everything you need at your fingertips, including touchpad transmission controls.

PowerLine™ The PowerLine energy management system monitors electrical usage and automatically cycles appliances on and off to prevent power overloads.

Hydraulic Jacks New for 2007: our exclusive three-position hydraulic switching system. Control your jacks from the A) driver’s seat, B) entrance door or C) service center. Watch the jacks as you lower them from the entrance or service center for perfect placement on the jack pads.

Keyless Entry Unlock the door and storage compartments using the keyless remote.

Chassis Battery Disconnect Switch Conveniently located in the engine compartment, the battery disconnect switch prevents chassis battery drain when storing your Ellipse.

*Sirius Satellite radio not available in Canada.
By rethinking the way storage space is utilized, we created Smart Storage – a spacious and easily accessible way to store your gear. Smart Storage provides handy straps and attachment points for key motor home tools and unique features like the custom sleeve for the available folding ladder. A set of three large, fitted containers in the basement storage area makes organizing gear easy.

The StoreMore® slideout system is standard on every model with compartments that extend with the slideout for easy access.

The Ellipse places all available electrical and plumbing connections in one convenient location using color-coded labels for pain-free service. Other convenient service center features include a hookup for a portable satellite dish, a clip for gloves and the full coach water filtration system.

No more crawling on your hands and knees. This exclusive slideout system extends the storage compartments with the slideroom for easy access any time.

The available folding ladder comes in an easily accessible storage sleeve (NA 36LD).

The exterior entertainment center can be enhanced with a portable 20" LCD TV and a DVD player.

The QuickPort® service connection hatch is fast and simple, allowing the bay door to close with hookups connected. The QuickConnect® coupling valve on the sewer hose allows for quick, clean hookups and has its own storage holster.
Evolution Chassis

Experience the Evolution. Winnebago Industries engineers worked closely with Freightliner® to create the Evolution Chassis for the 2007 Ellipse. Designed specifically for this motor home application, Evolution represents the next generation of diesel pusher technology with one-piece formed steel chassis rails that are 25% thicker than traditional raised rails. They offer added strength and performance without the restrictive bulk and weight of stacked rails. Formed rails also provide increased midsection storage, better weight distribution and improved floorplan flexibility. Evolution delivers a premium driving experience with a powerful 350-hp 7.2L Caterpillar® C7 turbo engine or 400-hp Cummins® ISL 8.9L turbo diesel engine.

Get More With The Evolution Chassis

- Allison® 3000 MH 6-speed automatic transmission with touchpad control
- I-beam axle with a 55° wheel cut
- 10,000-pound hitch with Tow Power seven-pin connector
- Standard engine exhaust brake for longer brake life (NA w/Cummins engine)
- NeWay® front and rear air suspension for improved ride and handling
- 3-year/50,000-mile warranty (including towing and roadside assistance) and over 350 North American service locations, 50 Freightliner RV Oasis locations and a 24/7 helpline
Note: Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas.

### Automotive/Chassis

- **Evolution Chassis** – Freightliner® Caterpillar® 7.2L turbo-charged diesel, 350-hp, rear radiator, Allison® 3000 MH 6-speed electronic transmission, NeWay® front & rear air suspension, 160-amp alternator, 4-wheel ABS, exhaust brake
- **Evolution Chassis** – Freightliner, Cummins® ISL, 8.9L turbo-charged diesel, 400-hp, rear radiator, Allison 3000 MH 6-speed electronic transmission, NeWay front & rear air suspension, 160-amp alternator, 4-wheel ABS, engine compression brake
- **Evolution Chassis** – Freightliner, Caterpillar, 7.2L turbo-charged diesel, 350-hp, rear radiator, Allison 3000 MH 6-speed electronic transmission, NeWay front & rear air suspension, 160-amp alternator, 4-wheel ABS, exhaust brake
- **Evolution Chassis** – Freightliner, Cummins ISL, 8.9L turbo-charged diesel, 400-hp, rear radiator, Allison 3000 MH 6-speed electronic transmission, NeWay front & rear air suspension, 160-amp alternator, 4-wheel ABS, engine compression brake
- **Air Accessory Manifold** quick connect, air pressure indicator, manual air shut-off, Battery Disconnect chassis, manual. Leveling Jacks hydraulic, 3-way switching system. Trailer Hitch 10,000-lb. drawbar/500 lbs. maximum vertical tongue weight & wiring, 7-pin connector. **Wheels** stylized aluminum

### Cab Area & Driver Conveniences

- **Cab Seats (UltraLeather)** armrests, lumbar support, multi-adjustable slide/recline & swivel. **Compass** electronic w/outdoor thermostat. **Console** Center Cabinet, Cruise Control, Defroster Fans (2) auxiliary 2-speed w/instrument panel switch, Exhaust Brake Control, Firefighter Information Center (see Freightliner’s Owner’s Manual), Lights indirect above front cabinet, Map Lights (2), Monitor System rearview. B & W, single camera & 1-way audio, Audiosonic® Power Door Lock keyless entry w/remote, Powerpoints 12-volt DC, Shades cab windows, roller, Steering Wheel custom, black leather, SmartWheel® with power-assist, tilt, telescope column, Sunvisors powered, Trim Panel driver & passenger sides, Window (Driver) full-slider w/screen, dual-glazed, Window (Passenger) partial, vertical slider w/screen, dual-glazed, Windshield Wipers intermittent
- **Cab Seat 6-way power-assist, driver, Cab Seat passenger w/footrest, GPS Navigation System Alpine®, Video Camera System 2 side-mounted cameras, turn signal activated**

### Entertainment

- **C.B. Wire Prep 12-volt DC power supply, Entertainment Center (Exterior) AM/FM radio, CD player w/remote, DC receptacle, AC duplex receptacle, TV jack, radio antenna, speakers (2), Home Theater Sound System amplifier, DVD player, receiver, speakers (5), subwoofer, Memorac® RV Radio® (Cab) AM/FM/Stereo/CD, remote-equipped, mounted flexible rubber antenna, speakers (4), weather band, remotes (2) one handheld, one steering-wheel-mounted, Radio Power Switch main/aux. battery, Satellite System Ready, Telephone input & interior jacks, TV 20" AC color, bedroom, LCD, stereo w/remote, TV Enhancement Package antenna (amplified), interior jacks, coax wiring, cable input (TV & portable satellite dish), exterior jack, Video Selection System
- **Compact Multi-Disc Chang/er w/remote & 10-disc changer, Satellite Dish Antenna RV digital, automatic, Satellite Dish RV digital, in-motion, King-Dome® Satellite Radio Sirius® 6-month subscription included (NA in Canada), Stereo System (Bedroom) AM/FM/CD/DVD player, alarm clock, headphone jack, front aux. input, Jensen® Entertainment Center (Exterior) AM/FM radio, CD/DVD player w/remote, DC receptacle, AC duplex receptacle, TV 20" AC color, stereo w/remote, flat-face, speakers (2), bass speaker, TV jack, radio antenna
- **Fireplace** electric, front slideout entertainment center
- **TV 27" AC color, flat-face, stereo w/remote, Sony® TV 30" Slim CRT AC color, front slideout entertainment center, stereo w/remote

### Interior

- **Ceiling Vinyl**. **Curtain** front wraparound, pleated w/wands. **Light decorative wall lamp. Lights** ceiling w/wall switches, Lights incandescent, private toilet room, Lights fluorescent, recessed, galley, dinette, lounge, bath hallway, 2-way wall switches, Lights halogen, Light stepwell w/interior switch, Lights reading, Shades pleated day/night, lounge, dinette, bedroom, Shades mini blinds, galley & bath, Shade Package roof vents, Sliding Stepwell Cover Panel powered, Windows dual-glazed/thermo-insulated

### Furniture

- **Banquette (Fabric)** w/throw pillows, access to storage below, Banquette (UltraLeather) w/throw pillows, access to storage below, Rest Easy® Multi-Position Lounge (UltraLeather 75" x 60") w/folding dining table, folding chairs (2)
- **BenchMark Full Comfort Dinette (Fabric)** w/access to storage below, child seat tether anchor, storage cabinet (36LD)
- **Breakfast Bar w/stools (2), padded seats, Rest Easy® Multi-Position Lounge (Fabric 75" x 60") w/folding dining table, folding chairs (2)
- **Chair (UltraLeather)** Euro recliner w/ottoman
- **Chair (Fabric)** hoop-base w/table, rocker/recline/swivel, footrest
- **J-Lounge (UltraLeather)** access to storage below, throw pillows (2)
Choose from three fabric selections and three cabinet wood choices with hidden hinges.

- Baltic: Sea available in Papyrus UltraLeather™
- Peppermint: available in Buff UltraLeather™
- Copper Canyon: available in Buff UltraLeather™

Washed Maple, Sierra Maple, Concert Cherry, Interior Decor.
Built To Last. BUILT TO LAST. BUILT BY WINNEBAGO INDUSTRIES.

Winnebago Industries employs an exclusive 12-stage automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel structural components for unmatched corrosion protection.

Attention to Detail. Whether it’s sending every coach through a high-pressure water tunnel to check for leaks or labeling each individual wire and bar-pack to save time and frustration during service, Winnebago Industries engineers also take special care to ensure proper handling and stability.

Strong as Steel. Winnebago Industries engineers also take special care to distribute the weight of components and sidewalls. Winnebago Industries uses steel and aluminum support structures to create some of the most durable, lightweight motor homes.

Fiberglass Roof. The Ellipse features a crowned, one-piece fiberglass roof, which offers superior strength and durability.

Built to last, the fiberglass panels are integrally connected using interlocking joints.

E-Coating. Winnebago Industries employs an exclusive 12-stage automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel structural components to ensure a lifetime of performance. Winnebago Industries engineers consider every detail to ensure your Itasca motor home provides you with years of pleasure.

Engineered Right. Appliances are secured directly to embedded steel plates to ensure exceptional quality and performance. Winnebago Industries takes special care to ensure a lifetime of performance.

Interlocking Joints. The floors, sidewalls and roof are all integrally connected as one unit for improved strength and durability.

Fiberglass Roof. The Ellipse features a crowned, one-piece fiberglass roof, which offers superior strength and durability.

Seat belts are your most important hookup. Always buckle up.
