Change is Here

Every so often a coach comes along that changes the way you think about motor homes. Maybe it has a fresh look and innovative features. Or it might use space in a way you never thought possible. Something is different. And that something is good. See just how good it can be in the all new Itasca Reyo™.

The Itasca Difference  Itasca motor homes are built on our exclusive SuperStructure® foundation creating some of the industry’s strongest, most durable motor homes. Quality components, precision manufacturing and attention to the smallest details—such as running every coach through our high-pressure leak test—all go into making Itasca motor homes simply the best.
Exteriors
Full-body paint highlights the fresh look of the Itasca Reyo.

Interior Décor
Enjoy the soft feel and upscale luxury of UltraLeather™ in the fabric collection of your choice. Beautiful cabinetry in Sunset Cherry or Mocha Cherry with stylish hardware provides plentiful storage.
More fuel efficiency. More features. More fun. These are the driving forces behind the new 2010 Itasca Reyo, the first Class A motor home built on a Dodge®/Mercedes-Benz® Sprinter chassis. Save on fuel costs while getting the hill-climbing power of a Mercedes-Benz turbo-diesel engine. Choose from two models loaded with exclusive SmartSpace™ design elements that let you live large in a 25' coach. Be the first to own the motor home everyone will be talking about: the 2010 Itasca Reyo.
Introducing the latest space-saving innovation from Winnebago Industries®: the StudioLoft™. This SmartSpace feature turns the cab area into a second bedroom with a large bed that drops down from the ceiling. A fabric wrap gives the StudioLoft instant privacy. With the StudioLoft raised, the Flexsteel cab seats lift six inches and rotate to become an integral part of the living area. From there you can enjoy the stereo system with CD/DVD player or watch the 26” (25T) or 32” (25R) LCD TV, which is mounted on a special bracket so it can be viewed even when the slideroom is in. Other SmartSpace features include a dining table that stows away when not in use and the new IntelliSense™ LCD touchpad to monitor key systems.
Ready, Set, Cook

You will be serving up fine cuisine from coast to coast in this full-featured, yet space-saving, kitchen. It comes with an Apollo® Half Time microwave/convection oven that cooks and browns like a conventional oven in half the time. Emphasis is placed on versatility, which is why you’ll find flip-up glass covers on the sink and range, and a freezer compartment that can be conveniently removed to increase your refrigerator space.
Two Beds in One

Want a queen bed for you and your spouse? Done. Want separate twin beds for your kids? We can do that, too. The Flex Bed system, available in the 25T, quickly adjusts to either configuration, giving you greater flexibility on the road. The bedroom also offers abundant storage with a wardrobe, cabinets and large storage drawers below the beds. In the bathroom you’ll find a roomy shower with a skylight, handheld showerhead and a retractable door that self cleans as it closes.
It’s Time to Drive

The Reyo is built on the Dodge/Mercedes-Benz Sprinter F50 chassis, giving it more of an automotive feel than a typical Class A coach. UltraLeather cab seats and powered sunvisors make every trip more enjoyable. Pass the time by listening to the Jensen™ radio with an LCD touch screen, CD player and iPod connector that allows you to control your iPod through the radio’s touch screen. You can also receive a complimentary six-month subscription to over 120 digital channels when you add the Sirius® satellite radio.
You've never seen a motor home door like this before. Inspired by airplane technology, the new Threshold RV Door™ features dual seals, dual latches and hidden hinges that reduce wind and road noise and provide a secure seal. The interior and exterior handles are set at separate, ideal heights for entering and exiting. A built-in screened window provides ventilation with the door closed.

The 25T offers an incredible 87.2 cu. ft. of exterior storage.

See why the Dodge/Mercedes-Benz Sprinter F50 chassis makes the Reyo so user-friendly:

- 11,030-lb. GVWR
- Mercedes-Benz 3.0L turbo-diesel engine
- Adaptive ESP® technology
- 5-speed automatic transmission
- 180-amp. alternator
- 5,000-lb. hitch
- Available stylized aluminum wheels
Legendary strength and durability are the results of SuperStructure construction that goes into every Itasca motor home. It’s the combination of quality, proprietary components and careful attention to detail that makes Itasca motor homes the cream of the crop.

- Patented Thermo-Panel™ sidewalls are durable and lightweight.
- Specially engineered interlocking joints connect the floor, sidewalls and roof together for strength and durability.
- An automotive-style dip tank applies an advanced electrodeposition coating that protects critical steel components.
- The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

**Committed to Service** We back our motor homes with the industry’s best service after the sale:

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof skin warranty

**Easy Cleanups** An available wash station lets you rinse off shoes and toys before entering the coach.

**TrueLevel™** The TrueLevel holding-tank monitoring system uses sonar technology to read liquid levels from outside the tank. There are no probes to corrode or clog, just accurate readings time after time.

**IntelliSense™** The new IntelliSense monitor provides critical information and allows you to control key systems on an intuitive touch screen.

1 The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
2 The load capacity of your motor home is designated by weight, not volume, so you cannot necessarily use all available space when towing. Capacities shown are tank manufacturer’s listed water capacity (WC). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank. Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator’s Manual of your vehicle for further towing information.
3 Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
4 Capacities shown are tank manufacturer’s listed water capacity (WC). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
5 Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator’s Manual of your vehicle for further towing information.
6 See separate chassis warranty.
7 See your dealer for complete warranty information. Not all items available in combination. See dealer for details.
8 Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available at printing.
