Welcome to the next generation of motor homes. The revolutionary new Via offers full Class A comfort, unparalleled fuel economy and SmartSpace™ design elements you won’t find in any other motor home. It’s the first Class A motor home designed and built on the versatile Dodge®/Mercedes-Benz® Sprinter chassis, featuring a Mercedes-Benz turbo-diesel engine and automotive drivability. It comes in two 25-foot models, including a full-wall slide on the 25R. The future of motor home design and function is here: the Winnebago Via.
**Lofty Expectations**

Introducing the latest space-saving innovation from Winnebago Industries: the StudioLoft. This SmartSpace feature turns the cab area into a second bedroom with a large bed that drops down from the ceiling. A fabric wrap gives the StudioLoft instant privacy. With the StudioLoft raised, the Flexsteel cab seats lift six inches and rotate to become an integral part of the living area.

In the living area you’ll find a 26" (25T) or 32" (25R) LCD TV. The 26" TV is mounted on a unique bracket that allows for easy viewing from multiple angles. Beautiful cabinetry houses plenty of storage space while vinyl flooring provides an easy-to-clean surface throughout the coach. The stereo system features a CD/DVD player—the perfect excuse to relax in the UltraLeather furniture that comes standard in every Via.

**GoWinnebago.com** Watch key feature videos, take interactive tours, see the latest promotional offers and a whole lot more at GoWinnebago.com.

**StudioLoft** The exclusive StudioLoft drops down from the ceiling to create a front bedroom.

**TV Versatility** Innovative bracketing for the 26" TV in the 25T slides for optimal viewing even when the slideroom is not extended.

**Adjustable Shades** Built-in shades rise from the window base so you can maintain privacy while enjoying a fresh breeze.
Save time and space in the galley featuring the Apollo® microwave/convection oven that cooks and browns like a conventional oven in half the time. You'll also have plenty of prep space thanks to space-saving amenities such as the hidden, two-burner range top with a vented range hood. To top it off, a gorgeous backsplash wraps the entire galley. It's everything you need to prepare a delicious meal on the road.

**Eat Right**

**Removable Freezer** The freezer compartment can be removed from the refrigerator to create more space and cold-storage flexibility.

**Removeable Freezer** The freezer compartment can be removed from the refrigerator to create more space and cold-storage flexibility.

**Dining Table** The pedestal dining table provides a classic dining experience and stows away when not in use.

**Flexible Space** Flip-up glass covers provide extra counter space when the stove and sink are not in use.
Make Your Bed

The Via 25T introduces the Flex Bed system, allowing you to customize the bedroom depending on your sleeping preference. The bed sleeps as two twin beds or you can choose to add the available Flex Bed kit which allows you to easily convert them into a queen-sized bed. Storage is abundant in either configuration with upper cabinets and large drawers beneath the beds. The 25T also features a 19” LCD TV in the bedroom. A classic queen bed comes standard in the 25R.

Flex Bed System One queen bed or two twin beds? It’s your choice in the Via.

Storage Drawers
A storage drawer beneath each twin bed holds extra linens.

Shower
The bathroom features a skylight, handheld showerhead and retractable shower door that wipes clean as it closes.
Automotive Performance

The Dodge/Mercedes-Benz Sprinter chassis makes the Via the most automotive Class A coach on the road. The dash is designed to make driving easier and an available wood-grain appliqué adds to the luxury.

The Jensen™ radio features an LCD touchscreen that doubles as the monitor for the side and rearview cameras. You can also upgrade to the Sirius® satellite radio and enjoy over 120 digital channels and a complimentary six-month subscription.

IntelliSense™ The new IntelliSense monitor provides critical information and allows you to control key systems on an intuitive touch screen.

Side-View Cameras Side-view cameras activate with the turn signals for easier turn navigation.

Sunvisor A powered sunvisor drops down at the touch of a button.

Cab Seats The UltraLeather seats have multiple adjustment points to keep you comfortable on the road.
Select your style from three new exciting full-body paint schemes. Combined with the new aerodynamic body, you’re sure to turn heads wherever you go. A 16’ electric awning provides plenty of shade at the campsite.

Setting up at your destination is easy with color-coded labels for hookups and an available exterior wash station for quick cleanups. There is even a winterization package included for hassle-free cold-weather storage. An abundance of exterior storage is created by space-saving design considerations, such as an LP tank tucked between the frame rails.

Storage Bring more from home with over 87 cubic feet of storage in the 25T.

The TrueLevel holding-tank monitoring system uses sonar technology to read liquid levels from outside the tank. There are no probes to corrode or clog, just accurate readings time after time.

LP Tank Switch The LP tank has a remote switch for simple, safe operation.

Wash Station Rinse off dusty items outside the coach.
**We Built a Better Door**

You’ve never seen a motor home door like this before. Inspired by airplane technology, the new Threshold RV Door™ features dual seals, dual latches and hidden hinges that reduce wind and road noise and provide a secure seal. The interior and exterior handles are set at separate, ideal heights for entering and exiting. A built-in screened window provides ventilation with the door closed.

**The Foundation of Fun**

The Via’s revolutionary design starts with the versatile Dodge/Mercedes-Benz Sprinter F50 chassis. A powerful Mercedes-Benz turbo-diesel engine makes the Via a coach that is fun to drive and easy to call home.

- 11,030-lb. GVWR
- Mercedes-Benz 3.0L turbo-diesel engine
- Adaptive ESP® technology

- 5-speed automatic transmission
- 180-amp. alternator
- 5,000-lb. towing capacity
- Available stylized aluminum wheels
Floorplans & Specifications

Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas. Floorplans and specifications are also available online at GoWinnebago.com.

**Dodge®/Mercedes-Benz® Sprinter F50 Chassis**
- 154-hp Mercedes-Benz 3.0L 6-cylinder turbo-diesel engine
- 5-speed automatic transmission with tip shift
- Hydraulic brakes with ABS
- Adaptive ESP technology
- 180-amp alternator
- Trailer Hitch: 5,000-lb. drawbar/500-lb. maximum vertical tongue weight with 7-pin connector
- Stainless steel wheel liners

### Optional Equipment
- Customowls®
- Stylized aluminum wheels

**Cab Conveniences**
- Stereo: AM/FM, CD player, LCD screen, iPod interface connector and remote
- Cab Seats: armrest, adjustable lumbar support, power lift, swivel/slide, recline and headrest
- Power, tilt/telescoping steering wheel
- 12-volt powerpoints
- Power mirrors w/defrost
- Cruise control
- Chassis/house battery radio power switch
- Side-view video camera system
- Powered sunvisor
- Front wraparound curtain
- Rearview monitor system w/one-way audio

### Optional Equipment
- Sirius® satellite radio w/complimentary 6-month subscription
- Dash appliquéd package

**Electrical System**
- Service Center: cable TV input, power cord, portable satellite dish hook-up
- AC/DC load center, 45-amp. converter/charger
- IntelliSense® electrical system monitor panel
- Auxiliary start circuit
- Battery disconnect system (coach)
- 2 deep-cycle, Group 24 RV batteries
- Automatic dual-battery charge control
- 3,200-watt Cummins Onan® diesel generator
- 30-amp. power cord
- 300-watt DC/AC inverter

### Optional Equipment
- Water filtration system w/cold water faucet

**Galley**
- Apollo® Half Time microwave/convection oven w/range fan
- 2-burner range top w/glass cover
- Refrigerator w/removable freezer compartment
- Stainless steel sink w/glass cover and folding faucet
- Laminate countertops

### Optional Equipment
- Sprinter® sink w/optional faucet arm support
- On-demand water pump
- Manual dump valve

**Bedroom**
- Twin beds w/foam mattresses and access to storage below (25'R)
- Queen bed w/foam mattress (25'R)
- Room divider privacy curtain
- 19” LCD TV (25'T)

### Optional Equipment
- Flex Bed kit w/panels and cushions

**Bath**
- Shower w/valve surround
- Flexible showerhead
- Retractable self-cleaning shower door
- Skylight

### Optional Equipment
- Powered roof vent (bath)
- Satelite TV antenna system w/elevation sensing unit
- Roof vent w/powered ventilator fan (bath)

**Warranty**
- 12-month/15,000-mile basic warranty
- 36-month/36,000-mile limited warranty on structure
- 10-year limited parts-and-labor warranty on roof skin

### Safety
- Seat belts
- LP, smoke and carbon monoxide detectors
- 10 BC fire extinguisher
- Ground fault interrupter
- High-mount brake lamps
- Daytime running lamps
- Fog lamps

**Plumbing System**
- Service Center: color-coded labels, city water hook-up/tank diverter fill, drainage valves, 10’ sewer hose
- TrueLevel™ holding-tank monitoring system
- 6-gallon 120 VAC/LP water heater
- Winterization Package: water heater bypass valve and siphon tube
- On-demand water pump
- Manual dump valve
- Permanent-mount LP tank w/remote fill

### Optional Equipment
- Heated drainage system
- Exterior wash station

**Electronica**
- Stereo: AM/FM, CD player, radio, iPod interface connector and remote
- Cab Seats: armrest, adjustable lumbar support, power lift, swivel/slide, recline and headrest
- Power, tilt/telescoping steering wheel
- 12-volt powerpoints
- Power mirrors w/defrost
- Cruise control
- Chassis/house battery radio power switch
- Side-view video camera system
- Powered sunvisor
- Front wraparound curtain
- Rearview monitor system w/one-way audio

The Legacy Rolls On

For more than fifty years, Winnebago Industries® has been creating the RVs and motor homes that have enabled people to live their dreams, see the country, visit friends and enjoy more time together as a family. The Via™ continues the Winnebago legacy of combining innovations, features and quality in a coach you’ll be proud to call home.
Choose from three fabric collections and two cabinet woods.

- Newport with Sandbox UltraLeather
- Split Rock with Bark UltraLeather
- Bombay with Putty UltraLeather

Interior Décor
Built by Winnebago Industries. Built to last.

Winnebago motor homes are built by Winnebago Industries, the company that defined motor homes. The company that built its reputation on quality construction. The company that transformed the motor home concept into a way of life.

Today, Winnebago Industries brings that reputation for quality and more than fifty years of RV innovation to the design and construction of every motor home. It's all a part of SuperStructure™ our exclusive system of proprietary structural components that instills in each motor home improved strength and durability.

Solid Foundation Steel and aluminum truss work provides a solid, flat foundation for the floor and sidewalls. Our engineers enhance the handling and stability by taking special care to properly distribute the weight of all components.

Interlocking Joints The floor, sidewalls and roof are all internally connected using interlocking joints. This ensures the Via body is a cohesive unit with maxium strength and durability.

Attention to Detail Whether it's sending every Via through a high-pressure water tunnel to check for leaks or labeling individual wires and barcoding parts to save time and frustration during service, Winnebago Industries considers every detail to ensure your Winnebago motor home provides you with years of pleasure.

Strong as Steel Key appliances and cabinetry are secured to a metal substructure for added stability and safety.

E-Coating Winnebago Industries employs an automotive-style dip tank process to apply an advanced electro-deposition coating on critical steel components for corrosion protection.

Thermo-Panel® Sidewalls Invented by Winnebago Industries, Thermo-Panel construction combines a fiberglass panel, high-density block-foam insulation and aluminum support structures to create some of the most long-lasting, lightweight sidewalls in the industry.

Fiberglass Roof The Via features a crowned, one-piece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

Winnebago 1-year-old fiberglass roof

Competitor's 1-year-old rubber roof
