Innovation Continues

Just a few years ago, Itasca® introduced the Reyo™, redefining what a class A coach can achieve. Built on the Mercedes-Benz® Sprinter chassis and powered by a Mercedes-Benz turbo-diesel engine, the Reyo offers unprecedented automotive performance and fuel efficiency in a modern, luxurious package, and presents three diverse models to choose from.

Our quest for continuous improvement is obvious in the innovations for 2012. The retractable screen door is a brand new addition to the Reyo, as is LED lighting which will cut your energy consumption up to 70%—extending vital battery life while dry camping. Both offer ways of creating just that perfect environment for you and those you love.

Why Reyo?
• Mercedes-Benz® Sprinter chassis
• Fuel efficient and easy to maneuver
• Three 25’ floorplans
• Queen bed 25Q and 25R, Twin beds with Flex Bed kit 25T
• Available StudioLoft™ 25R and 25T
• RV Radio/rearview monitor system or available Infotainment Center/GPS system
• MCD American Duo® solar/blackout roller shades
• Ultraleather™
• Threshold™ Quiet RV door and retractable screen door

Designed for Enthusiasts

Owners love their Itasca motor homes, and with good reason. The RV Dealers Association annually bestows the Quality Circle Award based on dealer ratings to manufacturers that provide exceptional products, service and support. Only one manufacturer has received this award for sixteen consecutive years: Winnebago Industries®, proud manufacturer of the Itasca Reyo.
The Itasca Reylo combines luxury and modern styling into a versatile lounge you can tailor to suit you. Nimble features like the swiveling cab seats and movable pedestal table maximize functionality. Both cab seats and the sofa come standard in Ultraleather—part of the upscale Ultrafabrics line that is durable and incredibly easy to clean. High quality vinyl floorcovering throughout the coach also adds to the ease of maintenance.

A mid-coach LCD TV (26" on 25Q/25T, 32" on 25R) comes standard. The TV mounting brackets allow the TV to be positioned for viewing even when the slideout is retracted. The available satellite TV antenna system with elevation sensing unit maximizes your potential for programming, and coupled with the coach stereo system, provides high-quality entertainment.

Because just any blind won’t do, the Itasca Reylo offers as standard MCD American Duo solar/blackout roller shades, which control both light and privacy levels with separate, smoothly-retracting, roller shades. Discerning buyers can opt for the available dual-pane acrylic windows, complete with built-in screens and shades, for increased climate control in an easy-to-maintain package.

RELAX AND ENJOY

25T Plateau with Sunset Cherry

The innovative sliding system for the 26" LCD TV (25Q/25T) allows for optimal viewing, whether the slideout is extended or not. Convenient, isn’t it?
COMPACT AND COMPLETE

The Itasca Reyo does a remarkable job of providing a fully equipped kitchen in a compact footprint, and harnesses Winnebago Industries’ SmartSpace™ design philosophy across every inch. The standard microwave/convection oven shortens cooking time and offers food preparation flexibility. The vented range hood (NA 25Q) keeps steam at bay while you cook. The refrigerator/freezer unit is adaptable as well, with a pull-out freezer compartment so you can determine the amount of cold storage you need.

Both the sink and range top come with glass covers, expanding a countertop surface that is both modern and easy to clean. Sleek, gorgeous cabinetry houses full-extension drawer slides for optimum storage capacity, and the galley backsplash offers a chic touch. Water quality, no matter where your travels take you, is assured with the water filtration system available for the cold water faucet.

All models come with the movable pedestal table, which can be placed in front of the couch or swiveled cab seats for casual dining and lounge flexibility. Or you can choose to add the BenchMark® dinette (25R) for a more formal dining experience.

The IntelliSense One Touch Control® panel is conveniently housed above the refrigerator for easy access.
GET YOUR REST

All three Itasca Reyo models offer comfortable and innovative sleeping solutions to suit your traveling needs. The 25R offers a queen bed with a 32" LCD TV at its foot for comfortable nighttime viewing. Or you may opt for the 25T with the Flex Bed system, where you can swiftly convert two twin beds into an oversized queen bed. The added benefit of underbed storage is just one more way we make the most of all available space.

Traveling with guests or kids? The StudioLoft™ (available 25R or 25T) adds additional sleeping space over the cab—you will easily have room for everyone.

Purists will enjoy the bedroom in the 25Q with a walk-around queen bed and innerspring mattress. It also offers the option of adding the Comfort Sofa Sleeper, covered in Ultraleather, for additional sleeping in the lounge area. Both the 25Q and 25T have 19" LCD TVs in the bedroom area for late night viewing.

No matter which model you choose, you will find ample wardrobe space in the Reyo, and the stylish appeal for which Itasca is known.

GoItasca.com is your resource for web-exclusive content and all the details you can’t fit in a brochure!
You will absolutely love to get behind the wheel of the Itasca Reyo. The Mercedes-Benz turbo diesel engine exudes superior maneuverability and automotive performance, so you will enjoy the drive as much as the destination.

Ultraleather cab seats offer plush comfort, and the stylish dash offers all the technology you could ever need. The rearview monitor and sideview cameras make all manner of navigation a snap. Coming or going, we’ve got you covered, and you will do it in style with the available dash appliqué for that added touch of elegance.

The RV Radio, standard, offers AM/FM stereo, CD player, MP3 input, and weather band, all from an easy-to-operate 6.5” LCD touch screen monitor. Available Sirius® satellite radio can add more than 100 radio programming options—perfect for those that enjoy an eclectic mix of music and talk radio.

Coach in park? The cab seats lift and swivel to become an integral part of the living space, and the powered sunvisor (available with the StudioLoft 25R/25T) drops down with the touch of a button when desired.

Take full advantage of available technologies with the Infotainment Center/GPS—you will know where you are at all times, set routes, and have touch screen control of information and entertainment.
DISCOVER THE DIFFERENCE

The difference is in the details. Explore the exceptional features and technologies that go into making Itasca motor homes simply the best.

Our SmartSpace™ design philosophy shines in the well-appointed galley; Full-Extension Drawers are sized to maximize storage and open wide on full-extension slides for easy access.

With our smoothly retracting MCD American Duo Solar/Blackout Roller Shades you can control just how much light and privacy you want—no matter the time of day.

Power consumption is vitally important when dry camping, and our LED Lighting can reduce energy usage up to 70%—extending battery life when needed. Innovation at work for you.

The RV Radio with its 6.5" LCD touch screen brings AM/FM stereo, weather band and MP3 input right to your fingertips, with the added security of a rearview monitor system to make navigation even easier.

Other motor homes employ tank monitors with probes that can corrode; our TrueLevel™ Tank Monitor System harnesses sonar technology to provide accurate readings every time.

You’ll never have to track the dirt inside again, thanks to the available Exterior Wash Station. Easy access and a lighted pump switch enable you to clean your gear, your kids, even your dog before re-entering the coach.

When you choose the optional StudioLoft system, you can enjoy a Powered Sunvisor for the cab, which quickly and easily lets you adjust the visor height at the touch of a button (25R, 25T).

See clearly when you want to, block everything out when you don’t. The available Acrylic Windows come with built-in shades that maintain your privacy.

You’ll never have to track the dirt inside again, thanks to the available Exterior Wash Station. Easy access and a lighted pump switch enable you to clean your gear, your kids, even your dog before re-entering the coach.
Residential comfort comes to mind with our new Retractable Screen Door. You can enjoy letting the outdoor breeze in while keeping unwanted pests out.

You will simply love to drive the Reyo with its incredible fuel efficiency and stylish cab area—topped off with the available Driver-Side Door that features a low entry threshold for easy entrance.

The Winnebago Industries’ exclusive Threshold™ RV Door incorporates aircraft technology to reduce noise and wind while ensuring an airtight seal. Simply brilliant.

Residential comfort comes to mind with our new Retractable Screen Door. You can enjoy letting the outdoor breeze in while keeping unwanted pests out.

The Reyo’s revolutionary design starts with the versatile Mercedes-Benz Sprinter F50 chassis. A powerful Mercedes-Benz turbo-diesel engine makes the Reyo a coach that is both fun to drive and a pleasure to call home. Adaptive ESP® electronic stability control delivers more responsive control with ABS, traction control (ASR) and load adaptive control (LAC) that calculates the vehicle’s mass and center of gravity to ensure optimum stability.

- 11,030-lb. GVWR
- Mercedes-Benz 3.0L Turbo-Diesel Engine
- Adaptive ESP Technology
- 5-Speed Automatic Transmission
- 180-amp. Alternator
- 5,000-lb. Hitch
- Available Stylized Aluminum Wheels
- Most fuel-efficient Class A motor home with unparalleled estimated fuel economy of 16+ miles per gallon*

*Fuel efficiency will vary with driving conditions and individual driving practices.

**Specially engineered interlocking joints** connect the floor, sidewalls and roof into a cohesive unit.

**Durable, lightweight Thermo-Panel® sidewalls** combine fiberglass, high-density block-foam insulation and the inner wall surface with aluminum support structures.

**Metal substructures** secure cabinets and appliances to add safety and stability.

**An electrodeposition coating** helps protect critical steel components.

The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength and durability over less attractive rubber roofs found on so many competitive models that can streak and degrade over time.

You can compare features. You can compare styles. But when it comes to quality construction, there is no comparison. Only motor homes manufactured by Winnebago Industries harness the legendary strength and durability of our SuperStructure® construction process—a process we’ve been perfecting for more than 50 years.

SuperStructure means a solid framework, steel and aluminum substructures and components built in-house to our exacting standards. It means managing each detail to ensure the integrity and quality of every coach. It means barcoding parts to save time and frustration during service and running every coach through a high-pressure leak test before it leaves the factory.

Where other manufacturers cut corners, SuperStructure ensures the features you can’t see are treated with the same care as the ones you can. When you buy an Itasca motor home, you are getting a coach that is built for you—and built to last.

**TAKE A TOUR**

We’re proud of our processes, state-of-the-art facilities and the people who make Winnebago Industries number one.

We invite you to visit our complex in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motor home we build.
